PREFACE.

In The Daily News Almanac and Year Book for 1904 considerable space has been devoted to information having a direct bearing upon the probable issues in the national political campaign of the year. An unusually complete list of the industrial trusts and local and "natural" monopolies in the United States is given and the more important antitrust laws, new and old, are printed in full, together with a table of tariff rates having particular reference to articles dealt in or produced by the great trusts, and a synopsis of the decision in the Northern Securities case. Statistics designed to be helpful in the discussion of the monetary, negro, immigration, labor and other questions of the day are also supplied. The popular and electoral vote for president since 1824 and the vote by counties in every state and territory in recent elections are given as usual.

While particular attention has been paid to the needs of the voter, the chief purpose of this publication—namely, to be a useful book of reference for the public in general—has by no means been neglected. The statistical, chronological, historical and other information ordinarily found in works of this kind is given as completely and compactly as heretofore, and not a little new matter suggested by experience, or required by circumstances, has been added—without, however, increasing the size of the book. The effort has been to expand in variety of contents and not in mere bulk.

The information in the volume, whether relating to national, state or local affairs, has been obtained as far as possible from official and other authoritative sources and is believed to be accurate and trustworthy.

NOTE.—The time given in this Almanac is local mean time, except when otherwise indicated.

ECLIPSES.

In the year 1904 there will be two eclipses, both of the Sun.

I.—An Annular Eclipse of the Sun, March 17. Invisible. Visible to the southern part of Asia, Japan, the Philippine Islands, the eastern half of Africa and the Indian Ocean. Being annular along a line drawn just north of the Island of Madagascar across the Indian Ocean—the Malay Peninsular, Indo-China and the northern end of the Island of Luzon.

II.—A Total Eclipse of the Sun, September 9. Invisible. Visible to the western portions of South America, the Sandwich Islands, Polynesia and the Pacific Ocean. The path of totality extending from the Marshall Islands across the Pacific Ocean to the northern part of Chili.

NOTE.—To ascertain any day of the week first look in the table for the year required and under the months are figures which refer to the corresponding figures at the head of the columns of days below. For Example: To know on what day of the week July 4 was in the year 1895, in the table of years look for 1895, and in a parallel line, under July, is figure 1, which directs to column 1, in which it will be seen that July 4 falls on Thursday.

The year 1322 is the second of the 45th cycle of 30 years and is therefore a leap year. It is a lunar year of 355 days. The Mohammedan era dates from the flight of Mohammed from Mecca to Medina, July 6, 622 A. D. Each month begins with the crescent or new moon.

The Mohammedan sabbath is Friday and besides this they observe three great holidays, viz.: The entire month of Ramadan, the ninth month of the Turkish year, is a time of general fasting while the sun is above the horizon. This is followed by the Bairam feasts, which continue for three days and are marked by exercise of great charity, with all sorts of amusements and feasting. The Little Bairam, the third great holiday, is celebrated seventy days after the Great Bairam feasts and lasts four days. It is a religious holiday and is observed with much solemnity.

*Or at sunset, Sept. 9.

The Jewish era year 5665 is the third of the 29th cycle of nineteen years. It is an embolismic year and contains 385 days. The year 5664 is a common lunar year of 354 sabbaths and 554 days, being the second of the 29th cycle. This era dates from the supposed time of the creation. When, as above, two dates are given as the date of beginning of a month the last one is always reckoned as the date of beginning (Rosh-Chodesh), except Tishri, which is always counted from the first.

The "rate" indicates the fighting value and is the same for both battleships and cruisers; that is to say, a cruiser of the second rate is equal in fighting strength to a battleship of the same rate.

WEATHER FORECASTS AND SIGNALS.

The weather bureau of the United States department of agriculture publishes daily more than 100,000 weather bulletins, not counting the forecasts in the newspapers. Most of these bulletins are in the form of postal cards printed by postmasters from telegraphic reports and sent by them to outlying towns for display at suitable points. There is also an elaborate system of

redistribution by means of telephones and railroads from established centers, so that there are comparatively few accessible places which do not now receive daily weather forecasts within a very short time after the observers have completed their work. The old system of conveying information about the weather by means of flag displays is also in general use.

EXPLANATION OF WEATHER FLAGS.

No. 1.
White flag.

Clear or fair weather.

No. 2.
Blue flag.

Rain or snow.

No. 3.
White and blue flag.

Local rain or snow.

No. 4.
Black triangular flag.

Temperature.

No. 5.
White flag with black square in center.

Cold wave.

When No. 4 is placed above No. 1, 2 or 3 it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late spring and early fall the cold-wave flag is also used to indicate anticipated frosts.

EXPLANATION OF STORM-WARNING FLAGS.

Northwest winds. Southwest winds. Northeast winds. Southeast winds. "Hurricane" signal.

A red flag with a black center indicates that a storm of marked violence is expected. The pennants displayed with the flags indicate the direction of the wind: Red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from southerly quadrants.

By night a red light indicates easterly winds and a white light above a red light westerly winds.

Two red flags, with black centers, displayed one above the other, indicate the expected approach of tropical hurricanes, and also of those extremely severe and dangerous storms which occasionally move across the lakes and northern Atlantic coast. Hurricane warnings are not displayed at night.

THERMOMETERS COMPARED.

There are three kinds of thermometers, with varying scales, in general use throughout the world—the Fahrenheit, Reaumur and Centigrade. The freezing and boiling points on their scales compare as follows:

Thermometer.	Freezing pt.	Boiling pt.
Fahrenheit	32 degrees	212 degrees
Reaumur	zero	80 degrees
Centigrade	zero	100 degrees

The degrees on one scale are reduced to their equivalents on another by these formulas:

Fahrenheit to Reaumur—Subtract 32, multiply by four-ninths.

Fahrenheit to Centigrade—Subtract 32, multiply by five-ninths.

Reaumur to Fahrenheit—Multiply by nine-fourths, add 32.

Reaumur to Centigrade—Multiply by five-fourths.

Centigrade to Fahrenheit—Multiply by nine-fifths, add 32.

Centigrade to Reaumur—Multiply by four-fifths.

WEIGHTS AND MEASURES USED IN THE UNITED STATES.

MEASURES OF LENGTH.

12 inches = 1 foot.	8 furlongs = 1 mile = 5,280 feet.
3 feet = 1 yard = 36 inches.	1.553 miles = 1 geographic mile = 6,085 feet
5½ yards = 1 rod = 16½ feet.	1.553 miles = 1 nautical (knot) mile = 6,085 feet
40 rods = 1 furlong = 660 feet.	1 fathom = 6 feet.

LIQUID MEASURE.

4 gills = 1 pint.
2 pints = 1 quart.
4 quarts = 1 gallon.
31½ gallons = 1 barrel.
2 barrels = 1 hogshead.

DRY MEASURE.

2 pints = 1 quart.
8 quarts = 1 peck.
4 pecks = 1 bushel.

APOTHECARIES' WEIGHT.

20 grains = 1 scruple.
3 scruples = 1 dram.
8 drams = 1 ounce.
12 ounces = 1 pound.

TROY WEIGHT.

24 grains = 1 pennyweight.
20 pennyw's = 1 ounce.
12 ounces = 1 pound.

AVOIRDUPOIS WEIGHT.

27 11-32 grains = 1 dram.	2,000 lbs = 1 short ton.
16 drams = 1 ounce.	2,240 lbs = 1 long ton.
16 ounces = 1 pound.	

SQUARE MEASURE.

144 square inches = 1 square foot.
9 square feet = 1 square yard.
36¼ square yards = 1 square rod.
160 square rods = 1 acre.
640 acres = 1 square mile.
36 square miles = 1 township.

CUBIC MEASURE.

1,728 cubic inches = 1 cubic foot.
27 cubic feet = 1 cubic yard.
128 cubic feet = 1 cord of wood or stone.
1 gallon contains 231 cubic inches.
1 bushel contains 2,150.4 cubic inches.
A cord of wood is 8 ft. long, 4 ft. wide & 4 ft. high

TIME MEASURE.

60 seconds = 1 minute.
60 minutes = 1 hour.
24 hours = 1 day.
365 days = 1 year.
100 years = 1 century.

STATIONERS' TABLE.

24 sheets = 1 quire.
20 quires = 1 ream.
2 reams = 1 bundle.
5 bundles = 1 bale.

COUNTING.

12 things = 1 dozen.
12 dozen = 1 gross.
12 gross = 1 great gross
20 things = 1 score.

METRIC SYSTEM.

The metric system is compulsory in Germany, Austria-Hungary, Belgium, Spain, France, Greece, Italy, Netherlands, Portugal, Roumania, Servia, Norway, Sweden, Switzerland, Argentine Republic, Brazil, Chile, Mexico, Peru and Venezuela.

WEIGHTS.

Milligram (.001 gram)	= .0154 grain.
Centigram (.01 gram)	= .1543 grain.
Decigram (.1 gram)	= 1.5432 grains.

Hectoliter (100 liters)	= 26.417 gallons.
Kiloliter (1,000 liters)	= 264.15 gallons.

LENGTH.

Millimeter (.001 meter)	= .0394 inch.
Centimeter (.01 meter)	= .3937 inch.
Decimeter (.1 meter)	= 3.937 inches.
Meter	= 39.37 inches.
Decameter (10 meters)	= 39.37 inches.
Hectometer (100 meters)	= 328 feet 1 inch.
Kilometer (1,000 meters)	= .62137 mile (3,280 feet 10 inches).
Myriameter (10,000 meters)	= 6.2137 miles.

SURFACE.

Centare (1 square meter)	= 1.550 sq. inches.
Are (100 square meters)	= 119.6 sq. yards.
Hectare (10,000 sq. meters)	= 2.471 acres.

WEIGHTS OF DIAMONDS AND FINENESS OF GOLD.

The weight of diamonds and other precious stones is expressed in carats, grains and quarter-grains. The grains are pearl grains, one of which is equal to four-fifths of a troy grain. Four quarter-grains make one grain and four grains make one carat. A carat is therefore equal to four-fifths of four troy grains, or 3.2.

The fineness of gold is also expressed in carats. Pure gold is said to be twenty-four carats fine. If it contains eight parts of a baser metal or alloy it is only sixteen carats fine. The carats therefore indicate the proportion of pure gold to alloy. Most of the gold used by jewelers is about fourteen carats fine, having ten parts of alloy.

GREAT AQUEDUCT IN AUSTRALIA.

Water is carried to Kalgoorlie, Boulder and Southern Cross, mining towns in western Australia, from a reservoir on the Hel-

ena river in the Green Mount range, 323 miles away, through a thirty-inch pipe. The cost of the work was \$15,000,000.

In five states in 1892 the electoral vote was divided: California gave 8 electoral votes for Cleveland and 1 for Harrison and Ohio gave 1 for Cleveland and 22 for Harrison; in Michigan, by act of the legislature, each congressional district voted separately for an elector; in Oregon 1 of the 4 candidates for electors on the people's party ticket was also on the democratic ticket; in North Dakota 1 of the 2 people's party electors cast his vote for Cleveland, this causing the electoral vote of the state to be equally divided between Cleveland, Harrison and Weaver. In 1896 California gave 8 electoral votes to McKinley and 1 to Bryan; Kentucky gave 12 to McKinley and 1 to Bryan.

COPYRIGHT REGULATIONS.

The articles specified by law as proper subjects of copyright are: Books, maps, charts, dramatic compositions, musical compositions, engravings, cuts, prints, photographs, photographic negatives, chromos, lithographs, periodicals, paintings, drawings, statuary and models or designs intended to be perfected as works of fine art.

Any one desiring to secure a copyright should send to the librarian of congress for a blank application. This must be filled up according to the printed directions, which will be found plainly and specifically given on the blank itself. A printed or typewritten copy of the title of the article

to be copyrighted must accompany the application; in the case of paintings, drawings, statuary or designs, descriptions must be inclosed. On or before the day of publication two complete copies of the book or other article must be sent to the library of congress to perfect the copyright.

The fee for the entry of title of production of a citizen of the United States is 50 cents; for a foreigner, \$1; certificate, 50 cents additional in either case. Remittances must be made by money order, express order or bank draft; postage stamps and checks will not be accepted. The copyright is for twenty-eight years, but it may be renewed for fourteen more.

In 1902 the United States produced 18,003,448 metric tons of pig iron and 15,186,406 of steel. Great Britain produced 8,653,976 tons of pig iron and 5,102,420 of steel, while Germany's output was 8,402,660 tons of pig iron and 7,780,682 of steel.

RELATIVE PRICES OF COMMODITIES.

In this table, prepared by the department of labor in Washington, the average wholesale price in New York and other primary markets of each article for the years 1890-1899, inclusive, is taken as the base price and is represented by 100. The relative price is the average wholesale price for each year from 1891 to 1902, inclusive, compared with the base price.

CENTER OF POPULATION AND ITS MEDIAN POINT.

The center of population is the center of gravity of the population of the country, each individual being assumed to have the same weight. What is known as the median point is the point of intersection of the line dividing the population equally north and south with the line dividing it equally east and west. The center of population in 1900 was at a point six miles southeast of Columbus, Ind., or north latitude 39 degrees and 9.5 minutes and west longitude 85 degrees 48.9 minutes. The median point in 1900 was at Spartanburg, Ind., or latitude 40 degrees 4 minutes and 22 seconds and longitude 84 degrees 51 minutes and 29 seconds.

The center of area of the United States, excluding Alaska and Hawaii and other recent accessions, is in northern Kansas, in approximate latitude 39 degrees 55 minutes and approximate longitude 98 degrees 50 minutes. The center of population is therefore about three-fourths of a degree south and more than thirteen degrees east of the center of area.

ELECTION OF POPE PIUS X.

Giuseppe Sarto, cardinal archbishop and patriarch of Venice, was elected pope in succession to Leo XIII. by the conclave of cardinals Tuesday, Aug. 4, 1903. He was not among those most frequently mentioned for the position and his elevation to the head of the church occasioned some surprise. The choice, however, gave general satisfaction, as his fitness for the position was conceded by all who knew him. Like his predecessor in office he was at first unwilling to accept

the high honor bestowed upon him, but the appeals of his brother cardinals prevailed and he was duly crowned in St. Peter's Aug. 9. He assumed the title of Pope Pius X. The conclave which elected him pope began its sittings on Saturday, Aug. 1, and six ballots were taken before a choice was made. Cardinal Camerlengo Orsilia was in charge of the affairs of the church in the interim between the death of Leo XIII. and the election of Pius X.

The total recorded immigration into the United States since the organization of the government is, in round numbers, 20,000,000 persons.

IMMIGRATION LAW OF THE UNITED STATES.

(Approved March 4, 1903.)

The act codifies and amends the existing immigration laws. It raises the poll tax on aliens from \$1 to \$2, whether they arrive by sea or land, but exempts citizens of Canada, Cuba and Mexico. The tax is not levied on aliens in transit through the United States nor upon such as have been admitted into the country before and have already paid the tax. The money collected from this source is to go into the national treasury and constitute a permanent fund for defraying the expenses of regulating immigration.

The following classes are excluded from admission into the United States: Idiots, insane persons, epileptics and persons who have been insane five years previous; paupers

and persons likely to become public charges; persons afflicted with dangerous and contagious diseases; felons, polygamists, anarchists or persons who believe in or advocate the overthrow by force or violence of the government of the United States or of all governments or of all forms of law, or the assassination of public officials; prostitutes; those who have been, within one year from the date of application for admission, deported as being under agreement or contract to perform labor or service of some kind; all assisted immigrants unless it is affirmatively shown that they do not belong to any of the foregoing classes; but this section shall not be held to prevent persons living in the United States from sending for a relative or

friend who is not of the excluded classes. Persons convicted of purely political offenses are not excluded.

It is provided that skilled labor may be imported if labor of like kind unemployed cannot be found in this country. The provisions of the law applicable to contract labor do not exclude professional actors, artists, lecturers, singers, ministers of any religious denomination, professors for colleges or seminaries, persons belonging to any recognized learned profession or persons employed strictly as personal or domestic servants. The time within which persons landed in violation of law, or who shall become public charges, may be deported is extended from one to two and three years.

APPLICATIONS FOR PATENTS.

[Condensed from Rules of Practice in the United States patent office.]

A patent may be obtained by any person who has invented or discovered any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement thereof not previously patented or described in this or any other country, or more than two years prior to his application, unless the same is proved to have been abandoned. A patent may also be obtained for any new design for a manufacture, bust, statue, alto-relievo or bas-relief; for the printing of woolen, silk or other fabrics; for any new impression, ornament, pattern, print or picture to be placed on or woven into any article of manufacture; and for any new, useful and original shape or configuration of any article of manufacture, upon payment of fees and taking the other necessary steps.

Applications for patents must be in writing, in the English language and signed by the inventor if alive. The application must include the first fee of \$15, a petition, specification and oath, and drawings, model or specimen when required. The petition must be addressed to the commissioner of patents and must give the name and full address of the applicant, must designate by title the invention sought to be patented, must contain a reference to the specification for a full disclosure of such invention and must be signed by the applicant.

The specification must contain the following in the order named: Name and residence of the applicant with title of invention; a general statement of the object and nature of the invention; a brief description of the several views of the drawings (if the invention admits of such illustration); a detailed description; claim or claims; signature of inventor and signatures of two witnesses. Claims for a machine and its product and claims for a machine and the process in the performance of which the machine is used must be presented in separate applications, but claims for a process and its product may be presented in the same application.

The applicant, if the inventor, must make oath or affirmation that he believes himself to be the first inventor or discoverer of that which he seeks to have patented. The oath or affirmation must also state of what country he is a citizen and where he resides. In every original application the applicant must swear or affirm that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any

foreign country by himself or his legal representatives or assigns more than seven months prior to his application. If application has been made in any foreign country full and explicit details must be given. The oath or affirmation may be made before any one who is authorized by the laws of his country to administer oaths.

Drawings must be on white paper with India ink and the sheets must be exactly 10x15 inches in size with a margin of one inch. They must show all details clearly and without the use of superfluous lines.

Applications for reissues must state why the original patent is believed to be defective and tell precisely how the errors were made. These applications must be accompanied by the original patent and an offer to surrender the same; or, if the original be lost, by an affidavit to that effect and certified copy of the patent. Every applicant whose claims have been twice rejected for the same reasons may appeal from the primary examiners to the examiners in chief upon the payment of a fee of \$10.

The duration of patents is for seventeen years except in the case of design patents, which may be for three and a half, seven or fourteen years as the inventor may elect.

Caveats or notices given to the patent office of claims to inventions to prevent the issue of patents to other persons upon the same invention, without notice to the caveators, may be filed upon the payment of a fee of \$10. Caveats must contain the same information as applications for patents.

*The word family, as used here, means a group of individuals who occupy jointly a dwelling place, or part of a dwelling place, or an individual living alone in any place of abode. †Means any place in which one or more persons regularly sleep. ‡Groups of related individuals.

GROSS AREA OF THE UNITED STATES.

Including Alaska, Hawaii, Porto Rico and the Philippine islands, the gross area (land and water surface) of the United States is approximately 3,622,933 square miles. Excluding Alaska and the islands named, the gross area at each census from 1790 to 1900 compares as follows:

*Exclusive of Alaska and Hawaii.

Area of Porto Rico is approximately 3,600 and of the Philippine islands 114,000 square miles. NOTE—The areas as given above were computed under the direction of Henry Gannett, geographer of the United States geological survey, for the census office. In some cases the figures vary from those given by the general land office, but they are believed to be as nearly correct as possible. In the case of states bordering on the great lakes the water surface of the latter has been included in the computation of areas by the land office and excluded by Mr. Gannett. This will account in large measure for the apparent discrepancies.

THE MONROE DOCTRINE.

The famous "Monroe doctrine" was enunciated by President Monroe in his message to congress Dec. 2, 1823. Referring to steps taken to arrange the respective rights of Russia, Great Britain and the United States on the northwest coast of this continent, the president went on to say:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which the rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. * * * We owe it, therefore, to candor and to the

amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

*Innocent party only. †Subsequent to marriage. ‡Incurable, after marriage. §Absence of ten years. ¶After divorce.

NOTE—Consanguinity and infidelity are causes for divorce in all the states.

MARRIAGE LAWS.

Marriage may be contracted without the consent of parents by males who are 21 years of age or more. This is the rule in about all the states having laws on the subject. In Arizona the age is 18. For females the age is 21 in Connecticut, Florida, Illinois, Kentucky, Louisiana, Ohio, Pennsylvania, Rhode Island, South Dakota, Virginia, West Virginia and Wyoming; 16 is the age in Arizona, Maryland and Nebraska and 18 in the other states. Marriages contracted before the age of consent are illegal in nearly all the states.

Marriage licenses are required in all the states and territories with the exception of New Mexico, New Jersey, New York, North Dakota, Oklahoma and South Carolina.

Marriages between whites and negroes are prohibited by law in Alabama, Arizona,

Arkansas, California, Colorado, Delaware, District of Columbia, Florida, Georgia, Idaho, Indiana, Kentucky, Maryland, Mississippi, Missouri, Nebraska, Nevada, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia and West Virginia. Michigan specifically declares such marriages valid.

Marriages between first cousins are prohibited in Arizona, Arkansas, Illinois, Indiana, Kansas, Louisiana, Missouri, Montana, Nevada, New Hampshire, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota and Wyoming. Step-relatives are not permitted to intermarry except in California, Colorado, Florida, Georgia, Idaho, Minnesota, New Mexico, New York, North Carolina, Oregon, Utah and Wisconsin.

MISSOURI "BEEF-TRUST" CASE.

On the 6th of May, 1902, the beef-packing companies doing business in Missouri were ordered by the state Supreme court to show cause why they should not be cited to appear and answer to the charge of violating the antitrust laws. A hearing followed which resulted in the filing of a suit by the attorney-general against the packers. The testimony was taken by I. H. Kinley, commissioner, who made a report Jan. 3, 1903, adverse to the defendants.

The Supreme court, on the 20th of March, filed its decision declaring that the packers were guilty of the charge made against them. The Armour Packing company, the Cudahy Packing company, Swift & Co., the Hammond Packing company and Schwarzschild & Sulzberger were each fined \$5,000.

In the opinion of the court it was conclusively shown that there was a combination

of the packers to maintain trust prices on beef in Missouri; that the representatives of the packers met on certain days to fix prices for the week; that rebating was done; that the same prices prevailed at all the coolers at the same time, and that no competitor could enter the field against the packers without being undersold and forced out of business. The court declared: "The law has placed the stamp of condemnation upon all arrangements, pools, trusts or conspiracies to fix or maintain the price of articles of prime necessity. The only course the court can pursue is to enforce the law. The statements of the packers that they had built up a demand for their products, increased the price of live stock and distributed millions of dollars among the people in no way or measure condone, even if such allegations be true, their violation of the antitrust law."

PROCEEDINGS AGAINST THE "BEEF TRUST."

Prosecution ordered by the president April 12, 1902.

Petition for injunction against Swift & Co., Armour & Co. and other packers filed May 10, 1902, in the United States Circuit court for the northern district of Illinois. Proceeding based on Sherman antitrust law.

Temporary injunction granted by Judge Peter S. Grosscup May 20, 1902.

Demurrer filed by packers Aug. 4, 1902; petition for injunction attacked on technical grounds.

Demurrer overruled by Judge Grosscup Feb. 13, 1903, and injunction made permanent.

THE SHERMAN ANTITRUST LAW.

Passed by the 51st congress and approved July 2, 1890.

Section 1. Every contract, combination in the form of trust or otherwise, or conspiracy, in restraint of trade or commerce among the several states or with foreign nations, is hereby declared to be illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year or by both said punishments, in the discretion of the court.

Section 2. Every person who shall monopolize or attempt to monopolize or combine or conspire with any person or persons to monopolize any part of the trade or commerce among the several states or with foreign nations shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Section 3. Every contract, combination in form of trust or otherwise, or conspiracy in restraint of trade or commerce in any territory of the United States or of the District of Columbia, or in restraint of trade or commerce between any such territory and another, or between any such territory or territories and any state or states or the District of Columbia or with foreign nations, or between the District of Columbia and any state or states or foreign nations, is hereby declared illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year or by both said punishments, in the discretion of the court.

Section 4. The several Circuit courts of the United States are hereby invested with jurisdiction to prevent or restrain violations of this act; and it shall be the duty of the several district attorneys of the United States, in their respective districts, under the direction of the attorney-general, to institute proceedings in equity to prevent and restrain such violations. Such

proceedings may be by way of petition setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the court shall proceed, as soon as may be, to the hearing and determination of the case; and pending such petition and before final decree the court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises.

Section 5. Whenever it shall appear to the court before which any proceeding under section 4 of this act may be pending that the ends of justice require that other parties should be brought before the court, the court may cause them to be summoned, whether they reside in the district in which the court is held or not; and subpoenas to that end may be served in any district by the marshal thereof.

Section 6. Any property owned under any contract or by any combination or pursuant to any conspiracy (and being the subject thereof) mentioned in section 1 of this act and being in the course of transportation from one state to another or to a foreign country shall be forfeited to the United States and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

Section 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared unlawful by this act may sue therefor in any Circuit court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained and the cost of suit, including a reasonable attorney's fee.

Section 8. That the word "person" or "persons" wherever used in this act be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the territories, the laws of any state or the laws of any foreign country.

ACT EXPEDITING ANTITRUST LITIGATION.

Passed by senate Feb. 4, 1903.

Passed by house Feb. 5.

Approved Feb. 11.

In any suit in equity pending or hereafter brought in any Circuit court of the United States under the act entitled "An act to protect trade and commerce against unlawful restraints and monopolies," approved, July 2, 1890; "An act to regulate commerce," approved Feb. 4, 1887, or any other acts having a like purpose that hereafter may be enacted, wherein the United States is complainant, the attorney-general may file with the clerk of such court a certificate that in his opinion the case is of general public importance, a copy of which shall be immediately furnished by such clerk to each of the Circuit judges of the circuit in which the case is pending. Thereupon such case shall be given precedence over others and in every way expedited and be assigned for hearing at the earliest practicable day before not less than three of the Circuit judges of said circuit, if there be three or more, and if

there be not more than two Circuit judges, then before them and such District judge as they may select. In the event the judges sitting in such case shall be divided in opinion the case shall be certified to the Supreme court for review in like manner as if taken there by appeal as hereinafter provided.

Section 2. That in every suit in equity pending or hereafter brought in any Circuit court of the United States under any of said acts, wherein the United States is complainant, including cases submitted but not yet decided, an appeal from the final decree of the Circuit court will lie only to the Supreme court and must be taken within sixty days from the entry thereof: Provided, that in any case where an appeal may have been taken from the final decree of a Circuit court to the Circuit Court of Appeals before this act takes effect the case shall proceed to a final decree therein and an appeal may be taken from such decree to the Supreme court in the manner now provided by law.

FUNDS FOR PROSECUTING ANTITRUST SUITS.

The following paragraph was made a part of the legislative, executive and judicial appropriation bill approved Feb. 26, 1903:

That for the enforcement of the provisions of the act entitled "An act to regulate commerce," approved Feb. 4, 1887, and all acts amendatory thereof or supplemental thereto, and of the act entitled "An act to protect trade and commerce against unlawful restraints and monopolies," approved July 2, 1890, and all acts amendatory thereof or supplemental thereto, and sections 73, 74, 75 and 76 of the act entitled "An act to reduce taxation, to provide revenue for the government and other purposes," approved Aug. 27, 1894, the sum of \$500,000, to be immediately available, is hereby appropriated out of any money in the treasury not heretofore appropriated, to be expended under the direction of the attorney-general in the employment of special counsel and agents of the department of justice to conduct proceedings, suits and prosecutions under said acts in the courts of the United States. Provided, that no person shall be prosecuted or be subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may testify or produce evidence, documentary or otherwise, in any proceeding, suit or prosecution under

said acts. Provided further, that no person so testifying shall be exempt from prosecution or punishment for perjury committed in so testifying.

In the general deficiency act approved March 3, 1903, it was provided: That under and to be paid from the appropriation of \$500,000 for the enforcement of the provisions of the act entitled "An act to regulate commerce," approved Feb. 4, 1887, and all acts amendatory thereof or supplemental thereto, and other acts mentioned in said appropriation, made in the legislative, executive and judicial appropriation act for the fiscal year 1904, the president is authorized to appoint, by and with the advice and consent of the senate, an assistant to the attorney-general with compensation at the rate of \$7,000 per annum and an assistant attorney-general at a compensation at the rate of \$5,000 per annum, and the attorney-general is authorized to appoint and employ without reference to the rules and regulations of the civil service two confidential clerks at a compensation at the rate of \$1,600 each per annum, to be paid from said appropriation. Said assistant to the attorney-general and assistant attorney-general shall perform such duties as may be required of them by the attorney-general.

THE ELKINS REBATE LAW.

Passed by senate Feb. 3, 1903.

Passed by house Feb. 13.

Approved by the president Feb. 19.

The act amending the interstate-commerce law, known as the Elkins bill, is in substance as follows: Anything done or omitted to be done by a corporation common carrier subject to the act to regulate commerce and amendatory acts which, if done or omitted to be done by any director or officer thereof, would constitute a misdemeanor under the acts named or under this act shall also be held to be a misdemeanor committed by such corporation and upon conviction shall be subject to the penalties prescribed in said acts or by this act with reference to such persons except as such penalties are herein changed.

The willful failure upon the part of any carrier to file and publish the tariffs or rates and charges as required or strictly to observe such tariffs until changed according to law shall be a misdemeanor and upon conviction thereof the corporation offending shall be subject to a fine of not less than \$1,000 nor more than \$20,000 for each offense; and it shall be unlawful for any person, persons or corporation to offer, grant or to give or to solicit, accept or receive any rebate, concession or discrimination in respect of the transportation of any property in interstate or foreign commerce by any common carrier subject to said act to regulate commerce and the acts amendatory thereto whereby any such property shall by any device whatever be transported at a less rate than that named in the tariffs published and filed by such carrier as is required by said act to regulate commerce and the acts amendatory thereto, or whereby any other advantage is given or discrimination is practiced. Every person or corporation who shall offer, grant or give or solicit, accept or receive any such rebates, concession or discrimination shall be deemed guilty of misdemeanor and on

conviction thereof shall be punished by a fine of not less than \$1,000 nor more than \$20,000. In all convictions occurring after the passage of this act for offenses under said acts to regulate commerce no penalty shall be imposed on the convicted party other than the fine prescribed by law, imprisonment wherever now prescribed as part of the penalty being hereby abolished.

In construing and enforcing the provisions of this section the act, omission or failure of any officer, agent or other person acting for or employed by any common carrier acting within the scope of his employment shall in every case be also deemed to be the act, omission or failure of such carrier as well as that of the person. Whenever any carrier files with the interstate-commerce commission or publishes a particular rate under the provisions of the act to regulate commerce or acts amendatory thereto or participates in any rates so filed or published, that rate as against such carrier, its officers or agents in any prosecution begun under this act shall be conclusively deemed to be the legal rate, and any departure from such rate or any offer to depart therefrom shall be deemed to be an offense under this section of this act.

The second section provides that in any proceeding for the enforcement of the provisions of the statutes relating to interstate commerce it shall be lawful to include as parties in addition to the carrier all persons interested in or affected by the rate, regulation or practice under consideration, and inquiries, investigations, orders and decrees may be made with reference to and against such additional parties in the same manner, to the same extent and subject to the same provisions as are or shall be authorized by law with respect to carriers.

Section 3 provides that whenever the interstate-commerce commission shall have reasonable ground for belief that any common

carrier is engaged in the carriage of passengers or freight traffic between given points at less than the published rates on file or is committing any discriminations forbidden by law a petition may be presented alleging such facts to the Circuit court of the United States sitting in equity having jurisdiction, and when the act complained of is alleged to have been committed or as being committed in part in more than one judicial district or state it may be dealt with, tried and determined in either such judicial district or state, whereupon it shall be the duty of the court summarily to inquire into the circumstances upon such notice and in such manner as the court shall direct and without the formal pleadings and proceedings applicable to ordinary suits in equity and to make such other persons or corporations parties thereto as the court may deem necessary, and upon being satisfied of the truth of the allegations of said petition said court shall enforce an observance of the published tariffs or direct and require a discontinuance of such discrimination by proper orders, writs and process, which said orders, writs and process may be enforceable as well against the parties interested in the traffic as against the carrier, subject to the right of appeal as now provided by law. It shall be the duty of the several district attorneys of the United States whenever the attorney-general shall direct, either of his own motion or upon the request of the interstate-commerce commission, to institute and prosecute such proceedings and the proceedings provided for by this act shall not preclude the bringing of suit for the recovery of damages by any party injured or any other action provided by the act

to regulate commerce and the acts amendatory thereof. And in proceedings under this act and the acts to regulate commerce the said courts shall have the power to compel the attendance of witnesses, both upon the part of the carrier and the shipper, who shall be required to answer on all subjects relating directly or indirectly to the matter in controversy and to compel the production of all books and papers, both of the carrier and the shipper, which relate directly or indirectly to such transaction; the claim that such testimony or evidence may tend to criminate the person giving such evidence shall not excuse such person from testifying or such corporation producing its books and papers, but no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may testify or produce evidence documentary or otherwise in such proceeding: Provided, that the provisions of an act entitled "An act to expedite the hearing and determination of suits in equity pending or hereafter brought under the act of July 2, 1890, entitled 'An act to protect trade and commerce against unlawful restraints and monopolies,' 'An act to regulate commerce,' approved Feb. 4, 1887, or any other acts having a like purpose that may be hereafter enacted, approved Feb. —, 1903," shall apply to any case prosecuted under the direction of the attorney-general in the name of the interstate-commerce commission.

Section 4 repeals all conflicting acts and section 5 makes the act effective from its passage.

NORTHERN SECURITIES COMPANY DECISION.

Northern Securities company, incorporated Nov. 13, 1901.

Authorized capital stock, \$400,000,000.

President—James J. Hill.

Suit brought by government March 11, 1902.

Decision against company April 9, 1903.

The Northern Securities company was organized under the laws of New Jersey for the purpose of taking over and holding the stocks of the Northern Pacific and Great Northern Railroad companies. This was deemed by the government to be in restraint of interstate trade and suit was brought in the United States Circuit court at St. Paul, Minn., under the Sherman antitrust act of 1890. In February, 1903, congress passed an act expediting antitrust suits, and in accordance with the provisions of this law (see "Act Expediting Antitrust Litigation") the case was given precedence over other business and was heard before four judges of the 8th circuit—namely, Judges A. M. Thayer, H. C. Caldwell, Walter H. Sanborn and Willis Van Devanter. Their decision, written by Judge Thayer but concurred in by all, was that the Northern Securities company was an illegal combination within the meaning of the act of 1890. A decree was entered adjudging that the stock of the Northern Pacific and Great Northern companies held by the Securities company was acquired in virtue of a combination among the defendants in restraint of trade and commerce among the several states, such as the antitrust act denounces as illegal; enjoining the Securities company from acquiring further stock and from voting such stock at any meeting of the stockholders of either of the railroad companies, or exer-

cising any control or influence over the acts of the companies; enjoining the Northern Pacific and Great Northern companies from permitting such stock to be voted by the Securities company at any corporate election for directors or officers of said companies, and likewise enjoining them from paying any dividends to the Securities company on account of said stock, or permitting the Securities company to exercise any control whatsoever over the corporate acts of the companies or to direct the policy of either; and, finally, permitting the Securities company to return to the stockholders of the Northern Pacific and Great Northern companies any and all shares of stock of those companies which it might have received from such stockholders in exchange for its own stock.

The court, after reciting the facts of the merger, declared: "The scheme which was thus devised and consummated led inevitably to the following results:

"First, it placed the control of the two roads in the hands of a single person—to wit, the Securities company—by virtue of its ownership of a large majority of the stock of both companies.

"Second, it destroyed every motive for competition between two roads engaged in interstate traffic, which were natural competitors for business, by pooling the earnings of the two roads for the common benefit of the stockholders of both companies. * * *

"The general question of law arising upon this state of facts is whether such a combination of interests as that described falls within the inhibition of the antitrust act

or is beyond its reach. The act brands as illegal every contract, combination in the form of trust or otherwise or conspiracy in restraint of trade or commerce among the several states or with foreign nations. The generality of the language employed is, in our opinion, of great significance. It indicates, we think, that congress, being unable to foresee and describe all the plans that might be formed and all the expedients that might be resorted to to place restraints on interstate trade or commerce, deliberately employed words of such general import as in its opinion would comprehend every scheme that might be devised to accomplish that end. * * *

"Moreover, in cases arising under the act it has been held by the highest judicial authority in the nation, and its opinion has been reiterated in no uncertain tone, that the act applies to interstate carriers of freight and passengers as well as to all other persons, natural or artificial; that the words 'in restraint of trade or commerce' do not mean in unreasonable or partial restraint of trade or commerce, but any direct restraint thereof; that an agreement between competing railroads which requires them to act in concert and fixing the rate for carriage of passengers or freight over their respective lines from one state to another, and which by that means restricts temporarily the right of any one of such carriers to name such rates for the carriage of such freight or passengers over its road as it pleases, is a contract in direct restraint of commerce within the meaning of the act in that it tends to prevent competition; that it matters not whether, while acting under such a contract, the rate fixed is reasonable or unreasonable, the vice of such a contract or combination being that it confers the power to establish unreasonable rates and directly restrains commerce by placing obstacles in the way of free and unrestricted competition between carriers who are natural rivals for patronage; and, finally, that congress has the power, under the grant of authority contained in federal legislation to regulate commerce, to say that no contract or combination shall be legal which shall restrain interstate commerce or trade by shutting off the operation of the general law of competition.

"Taking the foregoing propositions for granted, because they have been decided by a court whose authority is controlling, it is almost to plain for argument that the defendants would have violated the antitrust act if they had done through the agency of natural persons what they have accomplished through an artificial person of their own creation. That is to say, if the same individuals who promoted the Securities company, in pursuance of a previous understanding or agreement so to do, had transferred their stock in the two railroad companies to a third party or parties and had agreed to induce other stockholders to do likewise, until a majority of the stock of both companies had been vested in a single individual or association of individuals, and had empowered the holder or holders to vote the stock as their own, receive all the dividends thereon, and pro rata or divide them among all the stockholders of the two companies which had transferred their stock, the result would have been a combination in direct restraint of interstate commerce, because it would have placed in the hands of a small coterie of men the power to suppress competition between two competing interstate carriers whose lines are practically parallel.

"It will not do to say that so long as each railroad company has its own board of directors they operate independently and are not controlled by the owners of the majority of their stock. It is the common experience of mankind that the acts of corporations are dictated and that their policy is controlled by those who own the majority of their stock. Indeed, one of the favorite methods in these days, and about the only method, of obtaining control of a corporation is to purchase the greater part of its stock. It was the method pursued by the Northern Pacific and the Great Northern companies to obtain control of the Chicago, Burlington & Quincy railroad; and so long as directors are chosen by stockholders the latter will necessarily dominate the former and in a real sense determine all important corporate acts. * * * Competition, we think, would not be more effectually restrained than it now is under and by force of the existing arrangement if the two railroad companies were consolidated under a single charter."

Referring to the laws of New Jersey under which the Securities company was incorporated, the court held that presumptively no charter granted by a state is intended to defeat a national law such as that relating to interstate commerce, over which congress has absolute control. The power of congress over interstate commerce is supreme, far-reaching and acknowledges no limitations other than such as are prescribed in the constitution itself. No legislation on the part of a state can curtail or interfere with its exercise, and in view of repeated decisions no one can deny that it is a legitimate exercise of the power in question for congress to say that neither natural nor artificial persons can combine or conspire in any form whatever to place restraints on interstate trade or commerce.

In reply to the contention that such a combination of adverse interests as was formed was lawful and not prohibited by the antitrust act because such restraint as it imposes, if any, is indirect, collateral and remote, the court held that the combination did directly impose restraint upon interstate commerce. It did not matter through how many hands the orders came by which the aims of the company were accomplished. The power was not only acquired by the combination but it was effectually exercised, and it operated directly on interstate commerce, notwithstanding the manner of its exercise, by controlling the means of transportation—to wit, the cars, engines and railroads by which persons and commodities are carried, as well as by fixing the price to be charged for such carriage.

With respect to the contention that if the Securities company was held to be in violation of the antitrust act then the act unduly restricted the right of the individual to make contracts, and for that reason was invalid, the court cited the case of *Addyston Pipe and Steel company vs. the United States*, in which the Supreme court held that the provision of the constitution regarding the liberty of the citizen is to some extent limited by the commerce clause of the constitution, and that the power of congress to regulate interstate commerce comprises the right to enact a law prohibiting the citizen from entering into those private contracts which directly and substantially, and not merely indirectly, remotely, incidentally and collaterally, regulate to a greater or less degree commerce among the states.

In the case of the state of Minnesota

against the Northern Securities company, the Great Northern and Northern Pacific railroad companies Judge Lochren of the United States Circuit court handed down a decision at St. Paul, Minn., Aug. 1, 1903, in which he found for the defendants and dismissed the bill of complaint of the state. He decided that the Northern Securities

company had not violated the state laws forbidding the consolidation of parallel and competing railroads through its ownership of the Great Northern and Northern Pacific stock. The decision did not affect that given in the government's case against the same defendants. In one case state law and in the other federal law was at issue.

DEPARTMENT OF COMMERCE AND LABOR.

Bill passed by senate Jan. 8, 1902.

Passed by house Jan. 17, 1903.

Approved by president Feb. 14, 1903.

The law provides that there shall be at the seat of government an executive department to be known as the department of commerce and labor and a secretary of commerce and labor to be appointed by the president. His salary is fixed at \$8,000 a year and his term of office is to be the same as that of other heads of executive departments. It is also provided that there shall be an assistant secretary of commerce and labor to be appointed in the same way at a salary of \$5,000 a year, a chief clerk, a disbursing clerk and such other clerks as may be authorized by congress.

It is the province of the department to foster, promote and develop the foreign and domestic commerce, the mining, manufacturing, shipping and fishery industries, the labor interests and the transportation facilities of the United States. The following offices, bureaus, divisions and branches of the public service are placed under the jurisdiction of the new department:

- Lighthouse board.
- Lighthouse establishment.
- Steamboat inspection service.
- Bureau of navigation.
- United States shipping commissioners.
- National bureau of standards.
- Coast and geodetic survey.
- Commissioner-general of immigration.
- Commissioners of immigration.
- Bureau of immigration.
- Immigration service at large.
- Bureau of statistics.
- Census office.
- Department of labor.
- Fish commission.
- Commissioner of fish and fisheries.
- Bureau of foreign commerce.
- Bureau of manufactures.
- Bureau of corporations.

The secretary of commerce and labor is given authority to rearrange the statistical work of the various bureaus and to control the gathering and distribution of statistical information. He also has the power to call upon other departments of the government for statistical data and results and to publish such information.

The bureaus of manufactures and corporations are new. The chief of the bureau of manufactures is to be appointed by the president and is to get \$4,000 a year salary. The province of this bureau is to foster, promote and develop the various manufacturing interests of the United States and markets for the same at home and abroad, domestic and foreign, by gathering, compiling and publishing all available and useful information concerning such industries and markets. All consular officers are required to furnish such information and data as may be called for by the secretary.

The section of the law providing for a bureau of corporations was intended as a meas-

ure looking toward the regulation and control of trusts and industrial combinations and is as follows:

"Section 6. That there shall be in the department of commerce and labor a bureau to be called the bureau of corporations, and a commissioner of corporations who shall be the head of said bureau, to be appointed by the president, who shall receive a salary of \$5,000 per annum. There shall also be in said bureau a deputy commissioner who shall receive a salary of \$3,500 per annum and who shall in the absence of the commissioner act as and perform the duties of the commissioner of corporations and who shall also perform such other duties as may be assigned to him by the secretary of commerce and labor or by the said commissioner. There shall also be in the said bureau a chief clerk and such special agents, clerks and other employees as may be authorized by law.

The said commissioner shall have power and authority to make under the direction and control of the secretary of commerce and labor diligent investigation into the organization, conduct and management of any corporation, joint stock company or corporate combination engaged in commerce among the several states and with foreign nations, excepting common carriers, subject to 'An act to regulate commerce,' approved Feb. 4, 1887, and to gather such information and data as will enable the president of the United States to make recommendations to congress for legislation for the regulation of such commerce and to report such data to the president from time to time as he shall require, and the information so obtained or as much thereof as the president may direct shall be made public.

"In order to accomplish the purposes declared in the foregoing part of this section the said commissioner shall have and exercise the same power and authority in respect to corporations, joint stock companies and combinations subject to the provisions hereof as is conferred on the interstate-commerce commission in said 'Act to regulate commerce' and the amendments thereto in respect to common carriers so far as the same may be applicable, including the right to subpoena and compel the attendance and testimony of witnesses and the production of documentary evidence and to administer oaths. All the requirements, obligations, liabilities and immunities imposed or conferred by said 'Act to regulate commerce' and by 'An act in relation to testimony before the interstate-commerce commission' and so forth, approved Feb. 11, 1893, supplemental to said 'Act to regulate commerce' shall also apply to all persons who may be subpoenaed to testify as witnesses or to produce documentary evidence in pursuance of the authority conferred by this section.

"It shall also be the province and duty of said bureau under the direction of the secretary of commerce and labor to gather, compile, publish and supply useful information concerning corporations doing business with-

in the limits of the United States as shall engage in interstate commerce or in commerce between the United States and any foreign country, including corporations engaged in insurance, and to attend to such other duties as may hereafter be provided by law."

The department of commerce and labor is given jurisdiction over the fur-seal, salmon

and other fisheries of Alaska, over the immigration of aliens into the United States and the enforcement of the Chinese exclusion law. The president is authorized to transfer to the new department any other bureau or branch of the public service engaged in statistical or scientific work at any time he may see fit. The secretary is required to make an annual report to congress.

UNITED STATES CIVIL SERVICE.

Civil-Service Act Approved—Jan. 16, 1883.

Officers—Three commissioners are appointed by the president to assist him in classifying the government offices and positions, formulating rules and enforcing the law. Their office is in Washington, D. C. The chief examiner is appointed by the commissioners to secure accuracy, uniformity and justice in the proceedings of the examining boards. The secretary to the commission is appointed by the president.

General Rules—The fundamental rules governing appointments to government positions are found in the civil-service act itself. Based upon these are many other regulations formulated by the commission and promulgated by the president from time to time as new contingencies arise. The present rules were approved March 20, 1903, and went into effect April 15, 1903. In a general way they require that there must be free, open examinations of applicants for positions in the public service; that appointments shall be made from those graded highest in the examinations; that appointments to the service in Washington shall be apportioned among the states and territories according to population; that there shall be a period (six months) of probation before any absolute appointment is made; that no person in the public service is for that reason obliged to contribute to any political fund or is subject to dismissal for refusing to so contribute; that no person in the public service has any right to use his official authority or influence to coerce the political action of any person. Applicants for positions shall not be questioned as to their political or religious beliefs and no discrimination shall be exercised against or in favor of any applicant or employee on account of his religion or politics. The classified civil service shall include all officers and employees in the executive civil service of the United States except laborers and persons whose appointments are subject to confirmation by the senate.

Examinations—These are conducted by boards of examiners chosen from among persons in government employ and are held twice a year in all the states and territories at convenient places. In Illinois, for example, they are usually held at Cairo, Chicago and Peoria. The dates are announced through the newspapers or by other means. They can always be learned by applying to the commission or to the nearest postoffice or custom house. Those who desire to take examination are advised to write to the commission in Washington for the "Manual of Examinations," which is sent free to all applicants. It is revised semiannually to Jan. 1 and July 1. The January edition contains a schedule of the spring examinations and the July edition contains a schedule of the fall examinations. Full information is given as

to the methods and rules governing examinations, manner of making application, qualifications required, regulations for rating examination papers, certification for and chances of appointment, and as far as possible it outlines the scope of the different subjects of general and technical examinations. These are practical in character and are designed to test the relative capacity and fitness to discharge the duties to be performed. It is necessary to obtain an average percentage of 70 to be eligible for appointment, except that applicants entitled to preference because of honorable discharge from the military or naval service for disability resulting from wounds or sickness incurred in the line of duty need obtain but 65 per cent. The period of eligibility is one year.

Qualifications of Applicants—No person will be examined who is not a citizen of the United States; who is not within the age limitations prescribed; who is physically disqualified for the service which he seeks; who has been guilty of criminal, infamous, dishonest or disgraceful conduct; who has been dismissed from the public service for delinquency and misconduct or has failed to receive absolute appointment after probation; who is addicted to the habitual use of intoxicating liquors to excess, or who has made a false statement in his application. The age limitations in the more important branches of the public service are: Postoffice, 18 to 45 years; rural letter carriers, 17 to 55; internal revenue, 21 years and over; railway mail, 18 to 35; lighthouse, 18 to 50; life saving, 18 to 45; general departmental, 20 and over. These age limitations are subject to change by the commission. They do not apply to applicants of the preferred class. Applicants for the position of railway mail clerk must be at least 5 feet 6 inches in height, exclusive of boots or shoes, and weigh not less than 135 pounds in ordinary clothing and have no physical defects. Applicants for certain other positions have to come up to similar physical requirements.

Method of Appointment—Whenever a vacancy exists the appointing officer makes requisition upon the civil-service commission for a certification of names to fill the vacancy, specifying the kind of position vacant, the sex desired and the salary. The commission thereupon takes from the proper register of eligibles the names of the sex called for and certifies them to the appointing officer who is required to make the selection. He may choose any one of the three names, returning the other two to the register to await further certification. The time of examination is not considered, as the highest in average percentage on the register must be certified first. If after a probationary period of six months the

name of the appointee is continued on the roll of the department in which he serves the appointment is considered absolute.

Removals.—No person can be removed from a competitive position except for such cause as will promote the efficiency of the public service and for reasons given in writing. No examination of witnesses nor any trial shall be required except in the discretion of the officer making the removal.

Salaries.—Entrance to the departmental service is usually in the lowest grades, the higher grades being generally filled by promotion. The usual entrance grade is about \$900, but the applicant may be appointed at \$840, \$760 or even \$600.

DISASTER AT HEPNER, ORE.

Sunday afternoon, June 14, 1903, the little city of Heppner, in Morrow county, Oregon, was swept by a sudden flood caused by heavy rains. The water in Willow creek, a mountain stream running through the town, rose from a few inches to twenty feet in less

than ten minutes. Bridges and houses were carried away almost instantly and between 200 and 300 persons were drowned. The larger part of the town, which was located on the bottom land along the banks of the stream, was destroyed.

AWARD OF THE COAL-STRIKE ARBITRATORS.

Anthracite coal strike began May 12, 1902; ended Oct. 21, 1902.

Commissioners to arbitrate strike named Oct. 14, 1902.

Coal-strike inquiry begun Oct. 27, 1902; ended Feb. 17, 1903; award announced March 21, 1903.

The award of the anthracite coal strike arbitrators is, in brief, as follows:

1. That an increase of 10 per cent over and above the rates paid in April, 1902, be paid to all contract miners after Nov. 1, 1902.

2. That other employees be paid 10 per cent increase on their earnings between Nov. 1, 1902, and April 1, 1903; that after that date engineers employed in hoisting water be paid the wages effective in April, 1902, but with eight-hour shifts; that other engineers be given 5 per cent increase with Sundays off without loss of pay, and that all other employees be paid on the basis of a nine-hour day, receiving therefor the same wages as for a ten-hour day in April, 1902.

3. That during the life of the award the present methods of payment for coal mined shall be adhered to unless changed by mutual agreement.

4. That any disagreement arising under this award which cannot be settled in the ordinary way shall be referred to a board of conciliation of six persons, three representing the mine workers and three the operators, and in case the board cannot agree the point of disagreement shall be referred to an umpire to be appointed by the Circuit judges of the 3d judicial circuit of the United States, the decision of the umpire to be final.

5. That whenever requested by a majority of the contract miners of any colliery, check weighmen or check docking bosses, or both, shall be employed at the expense of the miners.

6. That mine cars shall be distributed equitably among miners at work and that there shall be no concerted effort on the part of the miners or mine workers of any colliery or collieries to limit the output of the mines unless such limitation of output be in conformity with an agreement between the operators and an organization representing a majority of the miners.

7. In all cases where miners are paid by the car the increase awarded to the contract

miners is based upon the cars in use, the topping required and the rates paid per car which were in force April 1, 1902.

8. That a sliding scale of wages shall be adopted based upon the wages fixed in the award. For each increase of 5 cents in the average price of white-ash coal sold at or near New York above \$4.50 per ton the employees shall have an increase of 1 per cent in compensation until there is a change in the price, but in no case shall the rate of compensation be less than that fixed in the award.

9. No person shall be refused employment or in any way discriminated against on account of membership or nonmembership in any labor organization and there shall be no interference with any employee who is not a member of any labor organization by members of such organization.

10. All contract miners shall be required to furnish within a reasonable time before each pay day a statement of the amount of money due from them to their laborers, and such money is to be deducted from the amount due the contract miners and paid directly to the laborers.

11. The awards made shall continue in force until March 31, 1906.

In its report the commission declared that riot and bloodshed prevailed at the time of the strike and that the use of militia and armed guards for the protection of life and property was necessary. It held that the right of a citizen to work when he pleases, for whom he pleases and on what terms he pleases cannot be successfully denied. The use of the boycott as practiced in the anthracite strike was declared cruel, immoral and antisocial. The blacklist was condemned in equally severe terms.

The commission recommended the discontinuance of the coal and iron police, a stricter enforcement of the laws relating to child labor and the compulsory investigation of labor troubles. Compulsory arbitration, however, was not favored.

The losses occasioned by the strike, as estimated by the commission, were: To mine owners, \$46,100,000; to employees, \$25,000,000; to transportation companies, \$28,000,000; total, \$99,100,000.

DIFFERENCE IN TIME.

By noting the variation in time between the cities representing the eastern, central, mountain and Pacific divisions in the United States and those in Alaska, Hawaii, Porto Rico and the Philippines and in foreign countries the variation in time between all the other cities in the United States and the places named may be easily calculated. The time in all cases except where otherwise specified is local or actual time.

When it is 12 o'clock noon on Monday, eastern time, in New York the corresponding time in the cities named below is:

RATES OF POSTAGE AND MONEY ORDERS.

DOMESTIC.

Embraces the United States and island possessions, including Hawaii, Porto Rico, the Philippines, Guam and Tutuila.

FIRST CLASS.—Letters and all written or partly written matter, whether sealed or unsealed, and all other matter sealed or otherwise closed against inspection, 2 cents per ounce or fraction thereof. Postal cards issued by the government sold at 1 cent each; double, or reply cards, 2 cents each. Cards must not be changed or mutilated in any way and no printing or writing other than the address is allowable on the address side. "Private mailing cards" (post cards) require 1 cent postage. These cards must conform in shape and quality and weight of paper used to the cards issued by the government. Each card must be an unfolded piece of cardboard not exceeding 3 9-16 by 5 9-16 inches, not less than 2 15-16 by 4 1/4 inches, and must bear at the top of the address side the words "Post Card." Advertisements and illustrations may be printed on either side provided they do not interfere with the distinctness of the address or postmark.

Among the articles requiring first-class postage are blank forms filled out in writing; certificates, checks and receipts filled out in writing; copy (manuscript or type-written) unaccompanied by proof sheets; plans and drawings containing written words, letters or figures; price lists containing written figures changing individual items; old letters sent singly or in bulk; typewritten matter and manifold copies thereof; and stenographic notes.

SECOND CLASS.—All regular newspapers, magazines and other periodicals issued at stated intervals not less frequently than four times a year, when mailed by publishers or news agents, 1 cent a pound or fraction thereof; when mailed by others, 1 cent for each four ounces or fractional parts thereof.

THIRD CLASS.—Books, circulars, pamphlets and other matter wholly in print (not included in second-class matter), 1 cent for each two ounces or fractional part thereof. The following named articles are among those subject to third-class rate of postage: Almanacs, architectural designs, blue prints, bulbs, seeds, roots, scions and plants, calendars, cards, press clippings with name and date of papers stamped or written in, engravings, samples of grain in its natural condition, imitation of hand or type written matter when mailed at postoffice window in a minimum number of twenty identical copies separately addressed; insurance applications and other blank forms mainly in print; printed labels, lithographs, maps, music books, photographs, tags, proof sheets, periodicals having the character of books and publications which depend for their circulation upon offers of premiums.

FOURTH CLASS.—All matter not in the first, second or third class, which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mailbag or harm the person of any one engaged in the postal service, 1 cent an ounce or fraction thereof. Included in fourth-class mail matter are the following articles: Blank books, blank cards or paper, blotters, playing cards, celluloid, coin, crayon pictures, cut flowers, metal or wood cuts, drawings, dried fruit, dried plants,

electrotype plates, framed engravings, envelopes, geological specimens, letterheads, cloth maps, samples of merchandise, metals, minerals, napkins, oil paintings, paper bags or wrapping paper, photograph albums, printed matter on other material than paper, queen bees properly packed, stationery, tintypes, wall paper and wooden rulers bearing printed advertisements.

UNMAILABLE MATTER.—Includes that which is prohibited by law, regulation or treaty stipulation and that which by reason of illegible or insufficient address cannot be forwarded to destination. Among the articles prohibited are poisons, explosives or inflammable articles, articles exhaling bad odors, vinous, spirituous and malt liquors, specimens of disease germs, lottery letters and circulars, indecent and scurrilous matter.

SPECIAL DELIVERY.—Any article of mailable matter bearing a 10-cent special-delivery stamp in addition to the regular postage is entitled to immediate delivery on its arrival at the office of address between the hours of 7 a. m. and 11 p. m., if the office be of the free-delivery class; and between the hours of 7 a. m. and 7 p. m., if the office be other than a free-delivery office.

REGISTRATION.—All mailable matter may be registered at the rate of 8 cents for each package in addition to the regular postage, which must be prepaid. An indemnity not to exceed \$10 for any one piece, or the actual value if less than \$10, will be paid for the loss of first-class registered matter.

LIMITS OF WEIGHT.—No package of third or fourth class matter weighing more than four pounds, except single books, will be received for conveyance by mail. The limit of weight does not apply to second-class matter mailed at the second-class rate of postage, or at the rate of 1 cent for each four ounces, nor is it enforced against matter fully prepaid with postage stamps affixed at the first-class or letter rate of postage.

MONEY-ORDER FEES.—For domestic money orders in denominations of \$100 or less the following fees are charged:

For orders for sums not exceeding \$2.50...	3c
For over \$2.50 and not exceeding \$5.....	5c
For over \$5 and not exceeding \$10.....	8c
For over \$10 and not exceeding \$20.....	10c
For over \$20 and not exceeding \$30.....	12c
For over \$30 and not exceeding \$40.....	15c
For over \$40 and not exceeding \$50.....	18c
For over \$50 and not exceeding \$60.....	20c
For over \$60 and not exceeding \$75.....	25c
For over \$75 and not exceeding \$100.....	30c

SUGGESTIONS.—Direct your mail matter to a postoffice, writing the name of the state plainly; and if to a city, add the street and number or postoffice box of the person addressed. Write or print your name and address, and the contents, if a package, upon the upper left-hand corner of all mail matter. This will insure the immediate return of all first-class matter to you for correction, if improperly addressed or insufficiently paid; and if it is not called for at destination it can be returned to you without going to the dead-letter office. If a letter, it will be returned free. Undelivered second, third and fourth class matter will not be forwarded or returned without a new prepayment of postage. When a return card appears on this matter either the sender or addressee is requested to send the postage. Register all valuable letters and packages.

FOREIGN.

Mall matter may be sent to any foreign country subject to the following rates and conditions:

REGISTRATION.—Eight cents additional to ordinary postage on all articles to foreign countries.

ON LETTERS.—Five cents for each half ounce or fraction thereof—prepayment optional except as to Canada and Mexico. Double rates are collected on delivery of unpaid or short-paid letters.

POST CARDS.—Single, 2 cents each; with paid reply, 4 cents each.

"Private Mailing Cards" (Post Cards).—Two cents each, subject to conditions governing domestic post cards.

On newspapers, books, pamphlets, photographs, sheet music, maps, engravings and similar printed matter, 1 cent for each two ounces or fraction thereof. Prepayment required at least in part.

TO CANADA (including Nova Scotia, New Brunswick, Manitoba and Prince Edward Island).—Letters, 2 cents for each ounce or fraction thereof; postal cards, 1 cent each; books, circulars and similar printed matter, 1 cent for each two ounces or fraction thereof; second-class matter, same as in the United States; samples of merchandise, 1 cent for each two ounces. Minimum postage, 2 cents. Merchandise, 1 cent for each ounce or fraction. Packages must not exceed four pounds in weight—prepayment compulsory.

CUBA.—Rates of postage same as to the United States.

TO MEXICO.—Letters, postal cards and printed matter, same rates as in the United States; samples, 1 cent for each two ounces; 2 cents the least postage on a single package; merchandise other than samples can be sent only by parcels post.

TO SHANGHAI, CHINA.—Letters, 2 cents an ounce or fraction thereof.

LIMITS OF SIZE AND WEIGHT.—Packages of samples of merchandise to foreign countries must not exceed twelve ounces, nor measure more than twelve inches in length, eight in breadth and four in depth; and packages of printed matter must not exceed four pounds six ounces.

PARCELS POST.

Unsealed packages of mailable merchandise may be sent by parcels post to Jamaica, including the Turks and Caicos islands, Barbados, the Bahamas, British Honduras,

Guatemala, republic of Honduras, Mexico, the Leeward Islands, New Zealand, Nicaragua, the republic of Colombia, Salvador, Costa Rica, the Danish West India islands—St. Thomas, St. Croix and St. John—British Guiana, the Windward islands, Newfoundland, Trinidad, including Tobago, and Germany at the postage rate and subject to the conditions herein prescribed. Parcels may also be sent to Chile and Venezuela, subject to these conditions, at the rate of 20 cents per pound or fractional part thereof.

Limit of weight.....11 pounds
Greatest length.....3 feet 6 inches
Postage.....12c a pound or fraction thereof
Greatest length and girth combined...6 feet

Except that parcels for Colombia, Costa Rica and Mexico must not measure more than two feet in length or more than four feet in girth.

A parcel must not be posted in a letter box, but must be taken to the postoffice window and presented to the person in charge, between the hours of 9 a. m. and 5 p. m., where a record will be made and a receipt given therefor.

THE HOMESTEAD LAW.

Any person who is the head of a family, or who is 21 years old and is a citizen of the United States, or has filed his declaration of intention to become such, and who is not the proprietor of more than 160 acres of land in any state or territory, is entitled to enter one-quarter section (160 acres) or less quantity of unappropriated public land under the homestead laws. The applicant must make affidavit that he is entitled to the privileges of the homestead act and that the entry is made for his exclusive use and for actual settlement and cultivation, and must pay the legal fee and that part of the commissions required, as follows: Fee for 160 acres, \$10; commission, \$4 to \$12; fee for eighty acres, \$5; commission, \$2 to \$6. Within six months from the date of entry the settler must take up his residence upon the land and cultivate the same for

five years continuously. At the expiration of this period, or within two years thereafter, proof of residence and cultivation must be established by four witnesses. The proof of settlement, with the certificate of the register of the land office, is forwarded to the general land office at Washington, from which a patent is issued. Final proof cannot be made until the expiration of five years from date of entry, and must be made within seven years. The government recognizes no sale of a homestead claim. After the expiration of fourteen months from date of entry the law allows the homesteader to secure title to the tract, if so desired, by paying for it in cash and making proof of settlement, residence and cultivation for that period.

The law allows only one homestead privilege to any one person.

REVOLUTION IN SERVIA.

Early on the morning of June 11, 1903, a number of military conspirators entered the royal palace in Belgrade, Servia, and assassinated King Alexander and Queen Draga. They also killed Gen. Lazar Petrovich, the king's aid-de-camp; Nicodem and Nikola Lungevica, the queen's brothers; Gen. Markovich, the prime minister; Gen. Paulovich, Gen. Nikovich, M. Todorovich, Capt. Milkovich and Lieut. Gagovich.

The cause given for the coup d'etat was the alleged determination of the king and queen to adopt as heir to the throne Draga's brother, Lieut. Nicodem Lungevica. This was regarded with much dissatisfaction, as his family was not of royal blood. The marriage of King Alexander to Draga, the divorced wife of a physician and at one time lady-in-waiting to Queen Natalie, the king's mother, was also a source of irritation in military circles and unsuccessful efforts had been made to drive her from the throne.

Col. Maschin, the queen's brother-in-law, was the leader of the conspiracy. He had gathered around him a number of officers

opposed to the Obrenovich dynasty and also had the support of the adherents of Peter Karageorgevich, who claimed the throne because of his descent from the family dispossessed in 1859 by the house of Obrenovich. He had made his home in Geneva, Switzerland, and was aware of the plot in his favor, but afterward declared that he was opposed to assassination and deplored the killing of the king and queen. Prince Peter was announced by the conspirators as the choice of the Servian people for their ruler and on the 15th of June he was formally elected to the throne by the parliament in Belgrade. He arrived at the capital June 24 and took the oath of office on the following day. None of the representatives of the foreign powers was present, the ministers by agreement having withdrawn as a protest against the assassination of King Alexander and Queen Draga. King Karageorgevich was recognized officially by Russia and Austria and was personally congratulated by monarchs of other European nations.

THE NOBEL PRIZE FUND.

[Prepared for The Daily News Almanac and Year Book by Dr. D. O. Bell of Stockholm and approved by the Nobel committee in Sweden.]

Alfred Bernhard Nobel, son of Immanuel Nobel, an eminent engineer, was born in Stockholm, Sweden, Oct. 21, 1833. In 1867 he invented dynamite, which he introduced as a blasting agent for industrial purposes. For the manufacture and sale of this and other explosives, such as smokeless powder and callistite, he formed companies and established factories in various parts of the world and soon amassed a considerable fortune. With two brothers he was also largely interested in a naphtha enterprise in Russia. In 1893 he was created honorary doctor of philosophy by the University of Upsala. He died at his villa at San Remo, on the Mediterranean, Dec. 10, 1896, leaving an estate valued at \$8,465,370.14.

PROVISIONS OF THE WILL.

The will disposing of this great property contained provisions for establishing what has since become widely known as the Nobel fund. The essential part of the document as translated from the original Swedish follows:

"With the residue of my convertible estate I hereby direct my executors to proceed as follows: They shall convert my said residue of property into money, which they shall then invest in safe securities; the capital thus secured shall constitute a fund the interest accruing from which shall be annually awarded in prizes to those persons who shall have contributed most materially to benefit mankind during the year immediately preceding. The interest shall be divided into five equal amounts, to be apportioned as follows: One share to the person who shall have made the most important discovery or invention in the domain of physics; one share to the person who shall have made the most important chemical discovery or improvement; one share to the person who shall have made the most important discovery in the domain of physiology or medicine; one share to the person who shall have produced in the field of literature the most distinguished work of an idealistic tendency; and, finally, one share to the person who shall have most or best promoted the fraternity of nations and the abolishment or diminution of standing armies and the formation and increase of peace congresses. The prizes for physics and chemistry shall be awarded by the Swedish Academy of Science (Svenska Vetenskapsakademien) in Stockholm; the one for physiology or medicine by the Caroline Medical Institute (Karolinska Institutet) in Stockholm; the prize for literature by the Academy in Stockholm (i. e., Svenska Akademien), and that for peace by a committee of five persons to be elected by the Norwegian storting. I declare it to be my express desire that in the awarding of prizes no consideration whatever be paid to the nationality of the candidates; that is to say, that the most deserving be awarded the prize, whether of Scandinavian origin or not."

AS OFFICIALLY CONSTRUED.

In order to put the will into practice and complete its stipulations King Oscar II. has approved a code of statutes or rules for the Nobel foundation (in Swedish, "Nobelstiftelsen"), of which the following are the most important:

The term "literature" used in the will

shall be understood to embrace not only works falling under the category of polite literature but also other writings which may claim to possess literary value by reason of their form or their mode of exposition.

The proviso in the will to the effect that for the prize competition only such works or inventions shall be eligible as have appeared "during the preceding year" is to be so understood that a work or an invention for which a reward under the terms of the will is contemplated shall set forth the most modern results of work being done in that of the departments as defined in the will to which it belongs; works or inventions of older standing to be taken into consideration only in case their importance has not previously been demonstrated.

Every written work to qualify for a prize must have appeared in print.

The amount allotted to one prize may be divided equally between two works submitted should each of such works be deemed to merit a prize.

In cases where two or more persons shall have executed a work in conjunction, and that work be awarded a prize, such prize shall be presented to them jointly.

The work of any person since deceased cannot be submitted for award; should, however, the death of the individual in question have occurred subsequent to a recommendation having been made in due course that his work receive a prize, such prize may be awarded.

It shall fall to the lot of each corporation entitled to adjudicate prizes to determine whether the prize or prizes they have to award might likewise be granted to some institution or society.

THE PRIZE ADJUDICATORS.

For Physics and Chemistry—The Royal Academy of Science in Stockholm, founded in 1739 for the purpose of encouraging the study of the sciences and to publish scientific papers and monographs. The institution numbers 100 Swedish and Norwegian and seventy-five foreign members.

For Medicine—The Caroline Medical-Chirurgical Institute in Stockholm, founded in 1815. It corresponds to a university medical faculty, having a staff of twenty-two professors who give theoretical and practical instruction in the medical sciences.

For Literature—The Swedish Academy in Stockholm, founded in 1786 for the purpose of preserving the purity, force and elevation of diction in the Swedish language, especially in works of poetry and elocution, though scientific and religious works are not excluded. Part of its mission is to prepare for publication a dictionary and grammar of the Swedish language and to issue papers and treatises calculated to establish and cultivate good taste. It awards annual prizes to winners of competitions in elocution and poetry. The membership of the academy is fixed at eighteen.

For the Peace Prize—The Norwegian Nobel committee, elected by the Norwegian parliament and consisting in 1903 of the following members: Mr. Löfvand, minister, chairman; Mr. Lund, director of the Bank of Norway; Mr. Steen, ex-prime minister; Mr. Björnsterne Björnson, the poet, and Mr. Horst, president of the storting.

It is essential that every candidate for a prize under the terms of the will be proposed as such in writing by some duly qualified person. A direct application for a prize will not be considered. At each annual adjudication such proposals as have been handed in during the twelve months preceding the 1st of February are considered.

PHYSICS AND CHEMISTRY.

Those who have the right to hand in names of candidates for the physics and chemistry prize are:

1. Home and foreign members of the Royal Academy of Science in Stockholm.
2. Members of the Nobel committees of the physical and chemical sections as defined in the code.
3. Scientists who have received a Nobel prize from the Academy of Science.
4. Professors of the physical and chemical sciences at the Universities of Upsala, Lund, Christiania, Copenhagen and Helsingfors, at the Caroline Medico-Chirurgical Institute and the Royal Technical college in Stockholm, and also those teachers of the same subjects who are on the permanent staff of the Stockholm University college.
5. Holders of similar chairs at other universities or university colleges to the number of at least six, to be selected by the Academy of Science in the way most appropriate for the just representation of the various countries and their respective seats of learning.
6. Other scientists whom the Academy of Science may see fit to select. The selections provided for in the last two paragraphs must be made before the end of September of each year.

FOR MEDICINE.

1. Members of the professorial staff of the Caroline Institute.
2. Members of the medical class in the Royal Academy of Science.
3. Those persons who shall have received a Nobel prize in the medical section.
4. Members of the medical faculties at the Universities of Upsala, Lund, Christiania, Copenhagen and Helsingfors.
5. Members of at least six other medical faculties to be selected by the staff of the Caroline Institute in the way most appropriate for the just representation of the various countries and their respective seats of learning.
6. Scientists whom the said staff may see fit to select. The selections under sections 5 and 6 shall be made within the first half of September, the initial proposal to emanate from the Nobel committee.

FOR LITERATURE.

Members of the Swedish academy and of the academies in France and Spain which are similar to it in constitution and purpose; members also of the humanistic classes of other academies and of those humanistic institutions and societies that are on the same footing as academies, and teachers of æsthetics, literature and history at university colleges.

FOR THE PEACE PRIZE.

Members of the Nobel committee of the Norwegian storting; members of the legislative assemblies and of the governments of the various states; members of the Interparliamentary council; members of the permanent international peace commission; members of the "Institut de Droit International"; professors of law and of political science, history and philosophy in the uni-

versities; persons who have received the Nobel peace prize.

For each of the four sections in which a Swedish corporation is charged with adjudicating the prizes that corporation shall appoint a committee of three or five members to make suggestions with reference to the award. The presidents of the Swedish committees are: Physics, Prof. Hasselberg; chemistry, Prof. Cleve; medicine, Prof. Count Mörner; literature, Dr. af Wirsén.

The adjudicators are authorized to establish institutes to assist in making the awards and to promote the object of the fund in other ways. One Nobel Institute—for literature—has been established in Stockholm. The Norwegian Nobel committee has established a library in Christiania containing literature appertaining to peace and international law.

ADMINISTRATION.

The Nobel fund is administered by a board of control located in Stockholm. The board consists of the following five members.

1. Mr. E. G. Boström, prime minister of Sweden, chairman. Mr. G. F. Gilljam, chancellor of the Swedish universities, is acting chairman at the sittings of the board.
2. Mr. H. Santesson, barrister, managing director.
3. Mr. R. Törneblad, a director of the Bank of Sweden.
4. Mr. R. Sohlman, engineer, one of the executors of Alfred Nobel's will.
5. Baron G. Tamm, ex-minister and ex-governor of Stockholm.

Five auditors pass upon the administration and accounts of the board once a year.

CAPITAL AND INCOME.

The capital of the Nobel fund amounted on Dec. 31, 1902, to \$7,462,563.44 (Swedish crowns 27,845,385.85). The disposition of the annual income is as follows: From that portion of the income derived from the main fund that it falls to the lot of each of the five sections annually to distribute, one-fourth shall be deducted before the distribution is made. The immediate expenses connected with the award having been discharged the remainder of the amount deducted as above directed shall be employed to meet the expenses of the section in maintaining its Nobel Institute. The money which is not absorbed in thus defraying the current expenditures for the year shall form a reserve fund for the future needs of the Institute. One-tenth part of the annual income derived from the main fund shall be added to the capital. To the same fund shall be also added the interest accruing from the sums set aside for prizes while they remain undistributed or have not been carried over to the main or other (special) fund.

The income derived from the main fund in 1902 amounted to \$289,620.92. A deduction therefrom of one-tenth, or \$28,962.09, was added to the main fund and the remainder, \$252,558.83, was divided into five equal parts each of \$50,511.76. From this amount one-fourth, or \$12,627.94, is deducted to meet the expenses as above directed, and three-fourths, or \$37,883.82 (Swedish crowns, 141,357.57), is thus the amount of each of the five Nobel prizes awarded Dec. 10, 1903.

In 1902 each prize amounted to \$38,014.97 and in 1901 (the first year) to \$40,409.64.

 Encyclical on the scriptures Oct. 30, 1902.
 Celebrated 25th anniversary of his election as pope Feb. 20, 1903.
 Celebrated 93d birthday anniversary March 2, 1903.
 Died July 20, 1903.

UNDERGROUND RAILROAD DISASTER IN PARIS.

Nearly 100 persons lost their lives in the tunnel of the Paris Metropolitan Electric railway near the Menilmontant station on the evening of Aug. 10, 1903. A train with a defective motor was being pushed by another train to the repair shops, when both caught fire and were consumed. These trains had been emptied of passengers, but other trains coming from opposite directions were brought to a stop in the tunnel, which

was now dark and full of smoke. A panic ensued during which men and women were trampled to death or killed by the live third rail. Many were suffocated by the dense fumes from the burning cars. The guards and other officials of the road at the scene of the accident lost their presence of mind and only those of the passengers escaped who succeeded in reaching the few and obscure exits.

FAMINE IN SWEDEN AND FINLAND.

Owing to the total failure of the crops in northern Sweden, Finland and Norway in 1902 on account of the continued rains and floods great destitution prevailed among the inhabitants of many districts in the winter of 1902-3. Horses and cattle died for the lack of fodder or were slaughtered for food. Little or no employment of any kind was to be had and thousands were brought to the

verge of actual starvation. Measures to provide relief were taken in Sweden and Russia, but these proved inadequate and appeals for funds were made in the United States. Generous responses were made, especially in Chicago and the northwest generally, and large sums of money were forwarded to the relief committees in Stockholm, Uleaborg and elsewhere.

CARNEGIE INSTITUTION OF WASHINGTON.

[Prepared by Marcus Baker, assistant secretary.]

The Carnegie Institution of Washington, founded by Andrew Carnegie, was incorporated July 4, 1902, and endowed by its founder with \$10,000,000. This endowment and the conduct of the institution were entrusted to a board of twenty-seven trustees chosen by the founder. This board is self-perpetuating. The purpose of the institution is thus declared by its founder:

"It is proposed to be found in the city of Washington an institution which with the co-operation of institutions now or hereafter established, there or elsewhere, shall in the broadest and most liberal manner encourage investigation, research and discovery, show the application of knowledge to the improvement of mankind, provide such buildings, laboratories, books and apparatus as may be needed, and afford instruction of an advanced character to students properly qualified to profit thereby."

To determine how to accomplish these purposes is the duty of the trustees.

A beginning has been made by (1) making about ninety small grants to various scientists to conduct specific researches; (2) by creating a few special committees charged with the duty of investigating and reporting upon certain large projects which it is proposed that the Institution shall take up; (3) by beginning the publication of scientific papers.

The office of the institution is in the Bond building, corner 14th street and New York avenue, Washington, D. C.

DEATH OF LORD SALISBURY.

Robert Arthur Talbot Gascoyne Cecil, marquiss of Salisbury, died at Hatfield House, England, Aug. 22, 1903. He had been in failing health for more than a year, but his condition did not become critical until a day or two before the end came. Lord Salisbury was prime minister in 1885-1886, 1886-1892 and from 1895 to the date of his final retirement.

from public life, July 13, 1902, when he was succeeded by Lord Balfour. From the time that he entered parliament in 1853 until his death he was a leader of the conservative party of England and for the last quarter of a century was looked upon as one of the foremost statesmen of the world.

The order is a military organization with patriotic objects, having for its scope the period of American history since national independence. It stands for the needed and honorable principle of national defense against foreign aggression. The principal feature of the order is the perpetuating of the names, as well as the services, of commissioned officers who served in either the war of the revolution, the war with Tripoli, the war of 1812, the Mexican war or the war with Spain. Veteran companionship is conferred upon such officers and hereditary companionship upon their direct lineal descendants in the male line.

ALASKAN BOUNDARY AWARD.

Jan. 24, 1903, Secretary John Hay and Sir Michael Herbert, British ambassador, signed a treaty to submit the Alaskan boundary question to adjudication by a commission of six jurors, of whom three were to be American and three British. The agreement was ratified by the United States senate Feb. 11.

The jurors chosen for the United States were Secretary of War Elihu Root of New York, Senator Henry Cabot Lodge of Massachusetts and Senator George Turner of Washington; for Great Britain, Lord Chief Justice Alverstone, Sir Louis N. Jette and A. B. Aylesworth.

The claim of the United States was based upon the treaty of 1825 between England and Russia fixing the line of demarcation between the main body of Alaska and British Columbia. In this document it is declared that Prince of Wales island is the southern extremity of the Russian holdings and that between this island and the Alaskan mainland the line of demarcation shall follow the summit of the mountains situated parallel to the coast. It is further declared:

"That wherever the summit of the mountains which extend in a direction parallel to the coast shall prove to be at a distance of more than ten marine leagues (34.6 miles) from the ocean the limit between the British possessions and the line of coast which is to belong to Russia as above mentioned shall be formed by a line parallel to the windings (sinuosities) of the coast and which shall never exceed the distance of ten marine leagues therefrom."

The claim of Great Britain, first made in 1893, was that the boundary was not to be drawn parallel to the windings of the coast, but to a line leaping from headland to headland across all bays, inlets and fiords. If this claim were found tenable it would give several outlets to the sea from upper British Columbia.

The members of the boundary commission assembled in London and the arguments were begun Sept. 1, with Lord Chief Justice Alverstone presiding. The attorneys appearing for Canada were the Hon. Clifford Sifton, Sir Robert Finlay and Mr. Christopher Robinson; those for the United States were Judge John M. Dickinson, John W. Foster, Daniel T. Watson and Hannis Taylor. The sittings were concluded Oct. 17, when it was announced that the decision was in favor of the United States, Chief Justice Alverstone having voted with the American jurors.

The questions formally set forth in the Hay-Herbert treaty and the answers thereto of the commission were:

1. What is intended as the point of commencement of the line? Answer: The line commences at Cape Muzoan.

2. What channel is the Portland channel? Answer: The Portland channel passes north of Pearse and Wales islands and enters the ocean through Tongas passage, between Wales and Sitkian islands.

3. What course should the line take from the point of commencement to the entrance to Portland channel? Answer: A straight line to the middle of the entrance of Tongas passage.

4. From what point on the 56th parallel is the line to be drawn to the head of the Portland channel and what course should it follow between these points? Answer: A straight line between Salmon and Bear rivers direct to the 56th parallel of latitude.

5. In extending the line of demarcation northward from said point on the parallel of the 56th degree of north latitude, following the crest of the mountains situated parallel to the coast until its intersection with the 141st degree of longitude west of Greenwich, subject to the condition that if such line should anywhere exceed the distance of ten marine leagues from the ocean then the boundary between the British and the Russian territory should be formed by a line parallel to the sinuosities of the coast and distant therefrom not more than ten marine leagues, was it the intention of said convention of 1825 that there should remain in the exclusive possession of Russia a continuous fringe or strip of coast on the mainland, not exceeding ten marine leagues in width, separating the British possession from the bays, ports, inlets, havens and waters of the ocean and extending from the said point on the 56th degree of latitude north to a point where such line of demarcation should intersect the 141st degree of longitude west of the meridian of Greenwich? Answer: Yes.

The sixth question required no answer after the fifth question had been answered in the affirmative.

7. What, if any exist, are the mountains referred to as situated parallel to the coast, which mountains when within ten marine leagues from the coast are declared to form the eastern boundary? Answer: The majority of the tribunal selected the line of peaks starting at the head of Portland channel and running along the high mountains on the outer edge of the mountains shown on the maps of survey made in 1893 extending to Mount Whipple and thence along what is known as the Hunter line of 1878, crossing Stikine river about twenty-four miles from its mouth, thence northerly along the high peaks to Kate's Needle, from Kate's Needle to the Devil's Thumb. The tribunal stated that there was not sufficient evidence owing to the absence of a complete survey to identify the mountains which correspond to those intended by the treaty. This contemplates a further survey of that portion by the two governments. From the vicinity of Devil's Thumb the line runs to the continental watershed, thence through White and Talya or Chilkoot passes, westerly to a mountain indicated on the map attached to the treaty as 6,350 feet, thence to another mountain 5,800 feet and from that point in a somewhat curved line across the head of the glaciers to Mount Fairweather. This places the Canadian outpost on the upper water of Chilkat river in British territory and the mining camps of Porcupine and Glacier creek in American territory. From Mount Fairweather the line passes north on high peaks along the mountains indicated on the map by Mounts Pinta, Rubama and Vancouver to Mount St. Elias.

Messrs. Aylesworth and Jette, the Canadian commissioners, declined to sign the award, though they signed the map agreed upon by the majority of the tribunal. They issued an official statement giving the reasons for their dissent. Concerning the Portland channel they said: "There are two channels parallel with each other, with four islands between them. The Canadian contention was that the northern channel should be adopted. The United States contended for the southern channel. On the re-

sult of the decision depended the possession of the four islands, Kannahunut, Sitklan, Wales and Pearse. When the tribunal met after the argument and considered this question the view of the three British commissioners was that the Canadian contention was absolutely unanswerable. A memorandum was prepared and read to the commissioners embodying our views and showing it to be beyond dispute that the Canadian contention in this branch of the case should prevail and that the boundary should

run to the northward of the four islands named, thus giving them to Canada.

"Notwithstanding these facts the members of the tribunal other than ourselves have now signed an award giving two of the islands, Kannahunut and Sitklan, to the United States. These two islands are the outermost of the four. They command the entrance of the Portland channel and the ocean passage to Port Simpson. Their loss wholly destroys the strategic value to Canada of the Wales and Pearse islands."

*"R" signifies the church was founded by the reformation movement. "D" by the diaspora or emigration movement and "H" by the heathen mission movement. †Only regularly ordained ministers are included under pastors. ‡In heathen lands all stations where the gospel is regularly preached are counted as churches. §Baptized members include catechumens or pupils in mission schools, all who are born in the church and will be reared in the baptismal covenant.

THE GENERAL CONVENTION.

The general convention of the protestant episcopal church takes place once in three years. It consists of the house of bishops, which includes the diocesan and missionary bishops, and the house of deputies, made up of four clergymen and four laymen from each diocese. It legislates for the church in the United States. Changes in the constitution or in the Book of Common Prayer must be adopted at one convention, referred to the dioceses and then ratified by a second convention. The next convention will be held in Boston in October, 1904.

Officers—House of Bishops: Presiding bishop, Thomas M. Clark, bishop of Rhode Island (deceased); chairman, Thomas U. Dudley, bishop of Kentucky; secretary, Rev. Samuel Hart, House of Deputies: President, Rev. John S. Lindsay; secretary, Rev. Charles L. Hutchins, Concord, Mass.

METHODIST TWENTIETH CENTURY
THANK OFFERING.

In November, 1898, the bishops of the
 methodist church in America approved of a
 plan to raise a fund of \$20,000,000 to be
 known as the twentieth century thank offer-
 ing of the church and to be used for the fol-
 lowing purposes: Education as represented
 either by particular schools in this or other
 countries or by a general educational fund
 for the aid of needy schools; charitable and
 philanthropic work; city evangelization en-
 dowment; invested funds for the support of
 conference claimants; the payment of debts
 on church property, and any specific objects
 in foreign fields. A commission was ap-
 pointed with Bishop E. G. Andrews as presi-
 dent and Dr. Edmund M. Mills as secretary
 and executive head.

Work began March 20, 1899, and closed
 Dec. 31, 1902, when Dr. Mills reported that
 the total subscription to the fund amounted
 to \$20,800,000. This was in addition to the
 usual gifts for regular benevolences and
 ordinary expenses of the denomination and
 did not include a sum of more than \$16,000-
 000 spent on new churches and parsonages
 and improvements.

RELIGIONS OF THE WORLD.

According to the revised (1898) edition of Mulhall's Dictionary of Statistics there are 376,100,000 Christians and 654,200,000 non-Christians in the world. The same authority places the number of Roman Catholics in Europe, America and Australia at 223,090,000; protestants, 157,050,000, and Greeks, 88,660,000. It has been estimated that there are in the world 256,000,000 followers of Con-

fucius, 190,000,000 Hindoos, 148,000,000 Buddhists, 118,000,000 polytheists, 43,000,000 Taoists, 14,000,000 Shintoists and 12,000,000 Jews. Of the Christians more than 230,000,000 are Catholics, 98,000,000 orthodox Greek, 70,000,000 Lutherans, 21,000,000 episcopalians, 17,000,000 methodists, 11,000,000 baptists, 9,000,000 presbyterians and 4,500,000 congregationalists.

THE RHODES SCHOLARSHIPS.

The first election of scholars in the United States under the terms of the bequest made by Cecil Rhodes will be made between February and May, 1904. The elected scholars will begin residence in the following October. A qualifying examination will be held within this period in each state and territory to which scholarships are assigned and

the scholars will be elected from the candidates who have passed this examination, one for each state and territory. Candidates must have reached the end of their sophomore year at some university or college and must be unmarried citizens between 19 and 25 years of age.

PHILIPPINE CURRENCY LAW.

An act of congress approved Feb. 26, 1903, provides that the unit of value in the Philippine islands shall be the gold peso, consisting of 12.9 grains of gold, nine-tenths fine, the coin to become the unit of value when the government of the island shall have coined or have placed in circulation not less than 5,000,000 of silver pesos provided for in the same act, and the gold coins of the United States at the rate of \$1 for 2 pesos shall be legal tender for all debts, public and private, in the island.

In addition to the coinage authorized for use in the Philippines by the act of July 1, 1902, the government of the islands is authorized to coin to an amount not to exceed 75,000,000 pesos a silver coin of the denomination of 1 peso and of the weight of 416 grains, and the standard of these coins shall be such that of 1,000 parts, by weight, 900 shall be of pure metal and the alloy shall be of copper. This silver peso shall be legal tender for all debts, public or private, unless otherwise specifically provided by contract.

Section 77 of the act of July 1, 1902, is amended by authorizing the Philippine government to issue a coin of the denomination of 50 centavos and of the weight of 208 grains, a coin of the denomination of 20 centavos and of the weight of 83.10 grains, and a coin of the denomination of 10 centavos and of the weight of 41.53 grains. The standard of these coins shall be such that of 1,000 parts, by weight, 900 shall be of pure silver and 100 of copper alloy. The sub-

sidary coins are legal tender to the amount of \$10.

In order to maintain parity between the silver pesos and gold pesos the Philippine government may issue temporary certificates of indebtedness bearing interest at a rate not to exceed 4 per cent annually, payable at periods of three months or more, but not later than one year from the date of issue, which shall be in denominations of \$25 or 50 pesos, or some multiple of such sum, and shall be redeemable in gold coin of the United States, or in lawful Philippine money. The amount of such certificates outstanding at any one time shall not exceed \$10,000,000, or 20,000,000 pesos.

The Mexican silver dollar and Spanish silver coins coined for use in the Philippine islands shall be receivable for public dues at a rate to be fixed from time to time by the civil governor until such date, not earlier than Jan. 1, 1904, as may be fixed by public proclamation, when such coins shall cease to be so receivable. The treasurer of the Philippine islands is authorized to receive deposits of the standard silver coins of 1 peso at the treasury or at any of its branches in sums of not less than 20 pesos, and to issue silver certificates therefor in denominations of not less than 2 pesos nor more than 10 pesos, and coin so deposited shall be retained in the treasury and held for the payment of such certificates on demand. The certificates shall be receivable for customs, taxes and for all public dues.

UNITED STATES ARMY PAY TABLE.

Annual salaries of officers in active service and on retired list:

Grade.	Active.	Retired.
Lieutenant-general	\$11,000	\$8,250
Major-general	7,500	5,625
Brigadier-general	5,500	4,125
Colonel	3,500	2,650
Lieutenant-colonel	3,000	2,250
Major	2,500	1,875
Captain, mounted.....	2,000	1,500
Captain, unmounted.....	1,800	1,350
First lieutenant, mounted....	1,600	1,200
First lieutenant, unmounted..	1,500	1,125

Grade. Active. Retired.

Second lieutenant, mounted.. \$1,500 \$1,125

Second lieutenant, unmounted. 1,400 1,050

After five years' service 10 per cent is added to the salaries at intervals of five years until the increase amounts to 40 per cent of the pay of the grade. Thus a colonel after twenty years' service gets \$4,500 a year.

Noncommissioned officers get from \$18 to \$45 a month and private soldiers get \$13.

Officers and enlisted men serving in the Philippines, Porto Rico, Hawaii and Alaska get 10 and 20 per cent additional, respectively.

THE ARMY STAFF LAW.

Following is a synopsis of the general staff bill passed by the 57th congress and approved Feb. 14, 1903:

There is established a general staff corps to be composed of officers detailed from the army at large under such rules as may be prescribed by the president. The duties of the staff shall be to prepare plans for the national defense and for the mobilization of the military forces in time of war; to consider all questions relating to the efficiency of the army and its state of preparation for military service; to render professional aid to the secretary of war and superior commanders and to act as their agents in informing and co-ordinating the action of all the different officers to the su-

pervision of the chief of staff; and to perform such other duties not otherwise assigned by law as may be prescribed by the president.

The general staff corps shall consist of one chief of staff and two general officers not below the grade of brigadier-general, all to be detailed by the president; four colonels, six lieutenant-colonels and twelve majors, to be detailed under such rules of selection as may be prescribed by the president; and twenty captains to be detailed from officers of the army at large of the grades of captain or first lieutenant. The term of the detail shall be four years. Officers cannot be reappointed to the general staff until after an interval of two years

unless an emergency arises in time of war. The chief of staff shall have supervision of all troops of the line and of the adjutant-general's, inspector-general's, judge advocate's, quartermaster's, subsistence, medical, pay and ordnance departments, the corps of engineers and the signal corps and shall perform such other duties not otherwise assigned by law as the president may direct. Duties now prescribed for the com-

manding general of the army as a member of the board of ordnance and fortification and of the board of commissioners of the soldiers' home shall be performed by the chief of staff or other officer designated by the president. The chief of artillery shall serve as an additional member of the general staff.

The act went into effect Aug. 15, 1903.

ORGANIZATION OF THE MILITIA.

Under an act "to promote the efficiency of the militia," passed by congress in January, 1903, it is provided that the militia of the United States shall consist of every able-bodied male citizen who is more than 18 and less than 45 years of age, and shall be divided into the organized and the reserve militia. The regularly enlisted, organized and unorganized active militia participating in the appropriation provided for by federal law, whether known as national guard, militia or otherwise, shall constitute the organized militia. The organization, armament and discipline shall be the same as that prescribed for the regular and volunteer armies of the United States.

Whenever the United States is invaded, or is in danger of invasion, or of rebellion against the authority of the government, or the president is unable to execute the laws with the other forces at his command, it shall be lawful for the president to call forth, for a period not exceeding nine months, such a number of the militia as he may deem necessary. Every officer and enlisted man so called out and found fit for duty shall be mustered into the United States service by a duly authorized mustering officer of the government. When in the actual service of the United States the militia forces are subject to the same rules and articles of war and are entitled to the same pay and allowances as the forces of the regular army.

The secretary of war is authorized to issue, on the requisition of governors of states and territories, such number of rifles, with ammunition and equipment as are required for the army of the United States, for arming all of the organized militia without charging the cost against the federal appropriation for the militia. The arms and equipment remain the property of the government. It is also provided that the officers and men of the organized militia when engaged in field or camp service for instruction shall be entitled to the same pay, subsistence and travel allowances as officers and enlisted men of the same grade in the regular army. The militia will be allowed upon request to participate in the encampment, maneuvers and field instruction of any part of the regular army at or near any military post or camp.

Officers of the organized militia will be

permitted to study at any military school or college of the United States upon the same terms as officers of the regular army. The annual appropriation made by section 1661, revised statutes, as amended, is made available for the issue to the organized militia of any stores and supplies which are supplied to the army by any department. Each state or territory furnished with materials of war must require every company, troop and battery of the organized militia to participate in practice marches or go into a camp of instruction at least five consecutive days and to assemble for drill and instruction at company, battalion or regimental armories, or for target practice, not less than twenty-four times. Upon application one or more officers of the army may be detailed to attend any encampment of organized militia and give such instruction as may be requested.

When any officer or private of the militia is disabled in the service of the United States he is entitled to the benefits of the pension laws existing at the time and if he dies while in the service his widow and children, if any, are entitled to a pension.

For the purpose of securing a list of persons specially qualified to hold commissions in any volunteer force which may hereafter be called for and organized under the authority of congress, other than a force composed of organized militia, the secretary of war is authorized from time to time to convene boards of officers who shall examine as to their qualifications for the command of troops or for the performance of staff duties all applicants who shall have served in the regular army, in any of the volunteer forces, or in the organized militia, or who shall have attended any military school or college. The names of the applicants who are certified to be qualified shall be registered in the war department and those who are so certified and registered shall constitute an eligible class for commissions in any volunteer force hereafter called for and organized. Appointments made from this list shall be distributed proportionately among the states contributing the volunteers. Officers of any company, troop, battery, battalion or regiment of organized militia which volunteers as a body are not to be displaced by such appointments.

UNITED STATES MILITARY ACADEMY.

(West Point, N. Y.)

The United States military academy is a school for the practical and theoretical training of cadets for the military service of the United States. Upon completing the course satisfactorily cadets are eligible for promotion and commission as second lieutenants in any arm or corps of the army in which there may be a vacancy the duties of which they may have been judged competent to perform. The total number of

graduates from 1802 to 1902 inclusive is 4,121. The maximum number of cadets at present permitted by law is 521. The corps of cadets consists of one from each congressional district, one from each territory, one from the District of Columbia, two from each state at large and forty from the United States at large, all appointed by the president.

THE FLOODS OF MAY AND JUNE, 1903.

Heavy and continued rains in Kansas, Iowa and Nebraska in the latter part of May, 1903, caused a flood not exceeded in extent since that of 1844 and never surpassed in that part of the country in destructiveness to life and property. The inundation began about the 25th of May and lasted some ten days. The total amount of damage done was variously estimated at from \$10,000,000 to \$15,000,000 and the loss of life at approximately 100. Thirty-five persons were drowned at Topeka, Kas.; eight in Kansas City, Mo.; fourteen in East St. Louis, and many others at scattered points in the flooded district. All the railroad bridges over the Kaw at Kansas City were swept away with one exception and the wholesale section between the bluffs and the river was flooded to a depth of several feet.

No account is taken of the smaller towns, although nearly 200 of these were affected by the floods. The lowest estimate of the loss to crops was \$5,000,000.

OTHER FLOODS OF THE YEAR.

Easton, Pa., Aug. 11—Floods in the Delaware cause great damage; many persons made homeless.
Burlington, N. J., Oct. 11—Four-fifths of the town inundated.
Oakford Park, Pa., July 5—Thirty-six persons drowned by collapse of a dam.
Passaic, N. J., Oct. 11—Floods cause a loss of \$2,000,000; hundreds made homeless.
Paterson, N. J., Oct. 11—Flood in Passaic river causes loss of \$2,000,000.
Spartanburg, S. C., June 6—Eight cotton mills swept away by a cloudburst; forty-five lives lost.

MEN OF THE YEAR.

AILEE, James Frank—Born in Dover, Del., in 1857; engaged in the watchmaking and jewelry business; president of Bay State Gas Company of Delaware and the Staten Island Brick company; elected to the state senate as a union republican in 1898 and 1902; was an adherent of J. Edward Addicks in the long senatorial struggle ended in 1903; elected United States senator March 2, 1903; his

term expires in 1907.

ANKENY, Levi—Born in St. Joseph, Mo., 1844; educated at Portland, Ore.; first mayor of Lewiston, Idaho; banker by occupation; home, Walla Walla, Wash.; was chairman of the republican delegation from Washington to the national convention in 1900; was chairman of the Washington commission for the Buffalo exposition in 1901; member of the Walla Walla common council; elected United

States senator Jan. 29, 1903.

BALL, Lewis Heisler—Born Sept. 21, 1861, near Wilmington, Del.; graduated from Delaware college in 1882 and from the University of Pennsylvania in 1885; was state treasurer of Delaware from 1898 to 1900; was elected to the 57th congress by the republicans as a representative; was elected, after a long contest, to the United States senate March 2, 1903, as a republican, for

the short term, which expires in 1905.

FAIRBANKS, Charles W.—Born in Union county, Ohio, May 11, 1852; graduated from the Ohio Wesleyan university at Delaware in 1872; studied law and was admitted to practice in state Supreme court in 1874; removed to Indianapolis and has since made that city his home; was a candidate for United States senator in 1893, but was defeated by David Turpie, democrat; elected senator

in 1897 and re-elected in 1903.

FULTON, Charles W.—Born in Ohio, Aug. 17, 1853; moved to Iowa, where he studied law and was admitted to the bar; moved to Oregon in 1875 and for a time taught school, making his home in Astoria, where he resumed the practice of law; elected state senator four times; president of state senate in 1893 and 1901; elected United States senator Feb. 20, 1903, as a republican; his term of

office expires in 1909.

GALLINGER, Jacob H.—Born in Cornwall, Ont., March 28, 1837; received a common-school and academic education; graduated as a physician in 1858 and practiced in Concord, N. H., his present home; member of the legislature as representative and senator for several terms; elected as a republican to the 49th and 50th congresses; elected to the United States senate in 1891 and re-

elected in 1897 and 1903.

THE PHILIPPINE ISLANDS.

The Philippine islands were ceded to the United States by Spain Dec. 10, 1898. Maj.-Gen. Merritt was the first military governor. He was succeeded in August, 1899, by Maj.-Gen. E. S. Otis, who in turn was followed May, 1900, by Maj.-Gen. Arthur MacArthur. The last named remained in office until July 4, 1901, when the military authority was transferred to Gen. A. R. Chaffee. By order of the president Gen. Chaffee was relieved of his duties as military governor July 4, 1902, and the office terminated. The Philippine commission was at the same time made the superior authority. Sept. 2 the islands were divided into three military departments, to be known as the department of Luzon, the department of Visayas and the department of Mindanao.

OFFICIALS AND SALARIES—The government of the Philippine islands is in the hands of a commission appointed by the president of the United States, consisting in December, 1903, of William H. Taft of Ohio, Prof. Dean C. Worcester of Michigan, Luke E. Wright of Tennessee, Henry C. Ide of Vermont and Prof. Bernard Moses of California. The commission will, it is officially announced, be changed early in 1904, Mr. Taft retiring to become secretary of war. He will be succeeded as governor by Mr. Wright. The officers up to the close of 1903 were:

ISLAND OF PORTO RICO.

Porto Rico, according to the decision of the United States Supreme court in the insular cases May 27, 1901, is a territory appurtenant and belonging to the United States, but not a part of the United States within the revenue clause of the constitution. The island was ceded to the United States by Spain Dec. 10, 1898, and was under military rule until the Foraker law went into effect May 1, 1900. (For the provisions of that law see The Daily News Almanac for 1901.) In accordance with the third section of that act, the legislative assembly of Porto Rico having put into operation a system of local taxation to meet the necessities of government, President McKinley on the 25th of July, 1902, the anniversary of the landing of American troops on the island in 1898—proclaimed free trade between the United States and Porto Rico.

GOVERNMENT—Civil government, under the provisions of the Foraker act, was established May 1, 1900. The upper house consists of eleven members, six of whom are "cabinet" officers appointed by the president; the lower house is made up of thirty-five delegates elected by the people every two years. The governor, who is appointed by the president, has practically the same duties as the governor of any other territory of the United States. The present officers are: Governor, William H. Hunt; secretary, Charles Hartzell; attorney-general, Willis Sweet; commissioner of education, Samuel M. Lindsay.

AREA AND POPULATION—The area of Porto Rico is about 3,600 square miles, and the

population, as shown by the military census of 1899, is 953,243. Of these 941,751 are natives. The whites number 589,426 and the colored 363,817. The colored are subdivided into 304,352 mestizos, 59,390 negroes and 75 Chinese. By departments the population is: Aguadilla, 99,645; Arecibo, 162,308; Bayamon, 147,681; Guayama, 111,986; Humacao, 100,866; Mayaguez, 127,566; Ponce, 203,191. The cities having more than 5,000 inhabitants are: San Juan, 32,048; Ponce, 27,952; Mayaguez, 15,187; Arecibo, 8,008; Aguadilla, 6,425; Yauco, 6,108; Caguas, 5,450; Guayama, 5,334.

EDUCATION—In June, 1902, it was estimated that there were 300,000 children of school age on the island, but of these only 43,000 could be accommodated in the public schools. There were 1,000 teachers, of whom 120 were Americans. Nine hundred schools were open during the year. Textbooks, slates and stationery are furnished free. About 72 per cent of the population can neither read nor write, but illiteracy is chiefly confined to the colored races.

COMMERCE—For the year ended June 30, 1903, the total exports from Porto Rico to foreign countries and the United States amounted to \$14,866,644, while the imports from the United States amounted to \$11,976,134. Of the exports the United States took merchandise valued at \$10,909,147; Spain, \$753,067; Cuba, \$550,477; France, \$1,294,479; Germany, \$342,827; Austria-Hungary, \$267,533.

The leading articles of export are coffee, oranges, brown sugar and tobacco.

Secretary of Public Instruction—Eduardo Yero.

Secretary of Public Works—Manuel Diaz.

Chief Justice of the Supreme Court—Cruz Perez.

President of the Senate—Domingo M. Capote.

Speaker of the House of Representatives—Pelayo Garcia.

Under the constitution the legislative power is exercised by two elective bodies—the house of representatives and the senate, conjointly called congress. The senate is composed of four senators from each of the six provinces, elected for eight years by the provincial councilmen and by a double number of electors constituting together an electoral board.

The house of representatives is composed of one representative for each 25,000 in-

habitants or fraction thereof over 12,500, elected for four years by direct vote. One-half of the members of the house are to be elected every two years. The salary of members of congress is \$3,600 a year.

The president of the republic must be a native or naturalized Cuban citizen in the full possession of all civil and political rights and have attained the age of 40 years. His term of office is four years and he cannot serve more than three consecutive terms. The president's salary is \$25,000 a year.

ORGANIZATION OF THE REPUBLIC—The organization of the republic of Cuba, begun in 1900, was practically completed on the 20th of May, 1902, when the military occupation of the island by the United States came to an end and Gen. Tomas Estrada Palma was inaugurated as the first president. Following is the chronological order of the chief events in the formation of the new state:

Sept. 15, 1900—Delegates to constitutional convention elected pursuant to order of the military governor.

Nov. 5, 1900—Constitutional convention begins its session in Havana.

Feb. 21, 1901—Constitution is signed by members of the convention.

Dec. 31, 1901—First general election held.

Feb. 24, 1902—Presidential electors meet in Havana and cast their votes for Palma and Romero as president and vice-president.

May 5, 1902—First session of the first Cuban congress began.

May 20, 1902—President Palma inaugurated. Gen. Wood, military governor, sails for the United States. Flag of the United States hauled down.

AREA AND POPULATION—The total area of Cuba is 35,394 square miles. The population in 1899, when the last census was taken, was 1,572,797, distributed among the six provinces as follows:

Havana	424,804	Puerto Pri'cipe	88,234
Matanzas	202,444	Santa Clara	356,536
Pinar del Rio	173,069	Santiago	327,715

Population of principal cities:

Cardenas	21,940	Matanzas	36,374
Cienfuegos	30,338	Puerto Pri'cipe	25,102
Havana	235,981	Santiago	43,000

About 67 per cent of the population is white.

IMPORTS AND EXPORTS—The total imports and exports by calendar years since 1899 have been:

Year.	Imports.	Exports.
1899	\$75,303,612	\$49,698,772
1900	70,079,214	51,342,336
1901	67,743,033	66,502,169
1902	62,135,464	64,948,804

The trade of Cuba with the United States during the fiscal years (ended June 30) from 1899 to 1903 was:

Year.	Imports from U. S.	Exports to U. S.
1899	\$17,247,952	\$25,408,828
1900	25,236,808	31,371,704
1901	24,100,453	43,423,088
1902	25,012,109	34,694,684
1903	20,140,132	62,942,790

The principal articles of export are sugar, tobacco and cigars, iron and manganese ore, fruit, coffee, cocoa, molasses and sponges; of import, animals, breadstuffs, coal and

coke, iron and steel, wood, liquor, cotton, chemicals and vegetables. During the fiscal year 1903 Cuba exported to the United States 2,395,927,770 pounds of sugar valued at \$12,697,546; 22,081,413 pounds of tobacco valued at \$9,966,646, and fruit valued at \$670,690. During the same period Cuba imported from the United States \$1,941,690 worth of flour, \$1,047,733 worth of coal and \$3,012,981 worth of provisions.

SUGAR PRODUCTION—The following table shows the amount of sugar produced in the years named:

Year.	Tons.	Year.	Tons.
1800	10,000	1893	816,000
1817	70,000	1894	1,054,000
1830	90,000	1895	1,004,000
1840	200,000	1896	225,000
1850	300,000	1897	212,000
1859	536,000	1898	305,000
1868	749,000	1899	335,000
1876	590,000	1900	284,000
1878	533,000	1901	875,000
1885	631,000	1902	826,646
1890	632,000	1903	975,000

TOBACCO PRODUCTION—The cultivation of the tobacco plant absorbs about 10 per cent of the cultivated area of the island and in raising the crop and in the manufacture of cigars and cigarettes from the leaf nearly 100,000 persons are employed. The season of growth is from September to January. The cutting and curing processes follow and last into February. The fermenting process comes next and after that the leaves are assorted and baled and sent to the factory or the market. Much of the tobacco raised in Cuba is manufactured into cigars and cigarettes in Havana and other Cuban cities and of this manufacture about one-fifth is reserved for home consumption and four-fifths is exported, together with the remainder of the leaf unmanufactured. In 1902, 15,444 tons of leaf tobacco were exported, besides 208,165,000 cigars and 11,509,000 packages of cigarettes. The value of the unmanufactured export was \$12,652,000 and of the manufactured export \$15,751,000.

IRISH LAND-PURCHASE LAW.

Bill introduced March 25, 1903.

Passed by house of commons (317 to 20) July 21.

Passed by house of lords Aug. 11.

In force Nov. 1, 1903.

The main features of the Irish land act of 1903 are as follows: The government provides a cash fund from which tenants of agricultural or pastoral holdings in Ireland will be advanced money with which to buy such holdings from their landlords; it also appropriates a fund with which to pay to the landlords the difference between the price they ask and the price the tenant is able to pay. The sale of lands will be under the control of an estate commission of three men, directed by the lord lieutenant of Ireland.

The act contemplates two different plans of purchase, both substantially alike in results. These are on the basis of what are known as "first term" and "second term" rents. "First term" rents mean rents fixed judicially or agreed to under the Gladstone act of 1881 for a term of fifteen years, or up to 1896; and "second term" rents are those rents similarly fixed since 1896. The average reduction on 343,370 holdings all over Ireland on which "first term" judicial rents were fixed from the passage of the Gladstone act, Aug. 22, 1881, to March 31, 1903, was 20.8 per cent on the former rent. The average additional reduction on the 90,836 holdings on which "second term" judicial rents have been fixed from 1896 down to March 31, 1903, is 21.1 per cent.

Under the new act what is called the "zone" system is set up. This means that in cases where the tenants on an estate and their landlords agree to the purchasing by the tenants of their holdings at figures "not less than 10 nor more than 30 per cent below the existing" or "second term" rents, the land commission "shall"—that is, must—sanction the advance of the purchase money to the tenants. The same is true as to "first term" rents, where the purchase annuity will be "not less than 20 nor more than 40 per cent" reduction on these rents. That is, where the number of years' purchase agreed upon is not less than 18½ years nor more than 24½ years of the "first term" rental and not less than 21½ years nor more than 27.2½ years' rental of the "second term" rent the land commission has no option but to advance the purchase money and sanction the sale.

In a carefully prepared summary of the act the United Irish Land League of America emphasizes these points:

1. The land commission must sanction the advance if the price agreed upon is within the "zones."
2. If, the agreed price is without the "zones" the land commissioner may or may not sanction the advance.
3. Tenants can buy their holdings, even though the whole estate is not sold.

4. Estates may be sold either to the tenants or to the land commission.

5. The bonus goes to the vendor for his own use, even though he is only tenant for life.

6. The state pays the cost of negotiating sales and ascertaining the title to and distributing the purchase money.

7. Subtenants may purchase.

8. Sons of tenants and evicted tenants may purchase parcels of land on the sale of estates.

9. Where three-fourths of the tenants agree to buy, the remaining one-fourth may be forced to do so.

10. No tenant can be compelled to purchase unless three-fourths of his fellow tenants desire it.

11. The land commission may purchase certain congested estates and may sell them to the tenants at a loss to the commission.

12. Advances are repaid by tenants by an annuity at the rate of 3¼ per cent per \$100 for about sixty-eight years.

13. No registration fees or stamp duties are payable on transactions under the act.

14. Tenants evicted from their holdings since August, 1878, may, under certain conditions, be reinstated or placed on adjacent farms.

Other provisions of the act include the following:

To induce him to sell, the landlord gets a bonus from the treasury of 12 per cent in addition to the purchase money from the tenant. This is not to be repaid.

The amount which may be advanced to any one purchaser has been increased from \$15,000 under former acts to \$35,000 under the present act.

In purchasing, the interests of "middlemen" may be redeemed" so that the occupier may become the absolute owner.

Under the act not more than one year's arrears of rent can be demanded or recovered by a landlord selling his property. Quit rents, crown rents, mortgages, legacies, liens, duties and the like are all done away with on purchase, the tenant owning the estate free from all such interests.

A purchaser under the act may pay up the balance of the purchase money at any time before the expiration of the sixty-eight and one-half years prescribed by the act, on the basis of adjusting the rate of 3¼ per cent interest on the balance of the purchase money.

The land commission may freely advance money to enable "evicted tenants" to become owners of equipped holdings in lieu of those from which they were evicted at any time during the last twenty-five years, or to enable tenants on the estate to enlarge their holdings. The same provision holds good in the case of the son or other personal representative of the evicted tenant, nominated by the land commission, where the original tenant may have died in the interval.

ATTACK ON VICE-CONSUL MAGELSSSEN.

Sunday night, Aug. 23, 1903, the United States vice-consul at Beirut, Syria, was shot at from ambush, but not hurt. Some days later the report was received in the United States that he had been murdered and that there was danger of a general massacre of all foreigners in the city. The European squadron, consisting of the Brooklyn, San Francisco and Machias, with Admiral Cotton in command, was at once ordered from

Genoa, Italy, to Beirut to investigate and demand reparation from Turkey. Though the report of Magelssen's death was found to be incorrect, the fleet was permitted to continue on its way and it arrived at its destination Sept. 4. The presence of the warships was effective in putting a stop to the disorders in Beirut, Karput and other cities in the vicinity and in causing the removal of hostile officials.

CUBAN-UNITED STATES RECIPROCITY TREATY.

Signed Dec. 11, 1902.

Ratified by Cuban senate March 11, 1903.

Ratified in amended form by United States senate March 19, 1903.

Bill to carry treaty into effect passed by house in extra session Nov. 19, 1903.

Article 1. During the term of this convention all articles of merchandise being the product of the soil or industry of the United States which are now imported into the republic of Cuba free of duty, and all articles of merchandise being the product of the soil or industry of the republic of Cuba which are now imported into the United States free of duty shall continue to be so admitted by the respective countries free of duty.

Art. 2. During the term of this convention all articles of merchandise not included in the foregoing article 1, and being the product of the soil or industry of the republic of Cuba, imported into the United States, shall be admitted at a reduction of 20 per cent of the rates of duty thereon, as provided by the tariff act of the United States approved July 24, 1897, or as may be provided by any tariff law of the United States subsequently enacted.

Art. 3. During the term of this convention all articles of merchandise not included in the foregoing article 1 and not hereinafter enumerated, being the product of the soil or industry of the United States, imported into the republic of Cuba, shall be admitted at a reduction of 20 per cent of the rates of duty thereon, as now provided in the customs tariff of said republic of Cuba.

Art. 4. Enumerates the articles of merchandise produced in the United States which are to be admitted into Cuba at rates of reduction from the Cuban tariff of from 25 to 40 per cent. Schedule A (to be admitted at a reduction of 25 per cent) includes machinery, glass, certain articles of cotton, ships, alcoholic liquors, fish and earthenware. Schedule B (30 per cent reduction) includes butter, drugs, malt liquors, cutlery,

boots and shoes, manufactures from vegetable fibers, gold and silver plated ware, photographs, writing paper, soaps, pickled or preserved vegetables and wines. Schedule C (40 per cent reduction) includes certain manufactures of cotton, cheese, preserved fruits, paper, pulp, perfumery, porcelain, umbrellas, glucose, watches, wool and manufactures thereof, rice and cattle.

Art. 5. Prohibits the imposition by either country of any charges or fees except the usual consular fees.

Art. 6. It is agreed that the tobacco, in any form, of the United States or of any of its insular possessions shall not enjoy the benefit of any concession or rebate of duty when imported into the republic of Cuba.

Art. 7. It is agreed that similar articles of both countries shall receive equal treatment on their importation into the ports of the United States and the republic of Cuba respectively.

Art. 8. Provides that the rates of duty granted by the United States to Cuba shall be preferential in respect to all like imports from other countries and in return the concession granted on the part of Cuba to the products of the United States shall likewise be preferential in respect to all like imports from other countries.

Art. 9. Provides that any tax that may be imposed by the local or national authorities of either country upon the articles embraced in the treaty, subsequent to importation and prior to entering into consumption, shall be imposed without discrimination upon like articles whencesoever imported.

Arts. 10 and 11. Provide for the termination, under certain conditions, of the treaty by giving six months' notice, and fix the life of the treaty at five years from the time it goes into effect, and from year to year thereafter until the expiration of one year from the day when one of the contracting parties shall give notice to the other of its intention to terminate the same.

MASSACRES OF JEWS IN RUSSIA.

Serious anti-Jewish riots took place in various towns of Russia in 1903, several of which appear to have been encouraged, if not incited, by the local authorities. The most violent outbreak occurred at Kishenev on Monday, April 20, the murder and pillage continuing for several days thereafter. It was officially reported that forty-five Jews were killed and seventy-four seriously and 350 slightly injured. Seven hundred houses were wrecked and 600 shops robbed. The utmost indignation was aroused throughout the civilized world and the United States

went so far as to indorse a petition of the Jews of America to the czar by attempting to forward it through diplomatic channels. Russia, however, notified the American ambassador at St. Petersburg, July 16, that the petition would not be received. Large contributions for the relief of the sufferers were forwarded from various parts of the United States.

Massacres of Jews were also reported as occurring at Tirsopol, Russia, May 11; at Bealystock June 4; at Homel Sept. 12, and at Mohileff Oct. 1.

REVOLT IN MACEDONIA.

Through the efforts of an organization known as the Macedonian committee the chronic state of unrest in Macedonia resulted in 1903 in a considerable uprising which threatened for a time to involve the powers in a war with Turkey and possibly with each other. Battles, skirmishes, massacres and innumerable atrocities of all kinds were reported, some actually having occurred, but many being mere inventions. The most serious trouble took place in the vilayets of Salonika, Monastir and Uskub. Many small towns were destroyed and the inhabitants either killed or made wholly des-

titute. In some cases Turkish garrisons were the victims, but there seems little reason to doubt that the Christian population suffered most severely.

Turkey, under pressure from the powers, promised many reforms and at the same time made every effort to suppress the insurrection, calling out the reserves and putting in the field a larger army than that used in the war with Greece. Early in the fall the leaders of the rebellion became discouraged and by the 1st of November returned to their homes or to places of safety.

RECORDS LOWERED IN 1903.

The year 1903 was a memorable one in the annals of the turf. Nearly all the leading records in trotting, pacing and running were broken, some repeatedly. The attack on the mile trotting and pacing figures was especially successful, the star performers being Lou Dillon, Major Delmar and Dan Patch. The record of 2:02 $\frac{1}{4}$, made by Cresceus at Columbus, O., in 1901, was bettered several times and at the close of the season stood at 1:58 $\frac{1}{2}$, with Lou Dillon as the champion trotter of the world. Following is a list, arranged in chronological order, of the most remarkable performances of the year: June 23—1 mile, trotting to wagon, 2:04 $\frac{1}{4}$, Lou Dillon, Cleveland, O.

June 30— $\frac{3}{4}$ mile, running, 1:11 $\frac{1}{4}$, Dick Welles, Washington park, Chicago.

July 1—1 mile, running, 1:37 $\frac{1}{2}$, Alan-a-Dale, Washington park, Chicago.

July 1— $\frac{7}{8}$ furlongs, running, 1:32 $\frac{1}{2}$, Rag Tag, Washington park, Chicago.

July 2—1 mile and 100 yards, running, 1:44 $\frac{1}{2}$, Glassful, Washington park, Chicago.

July 2— $\frac{6}{8}$ furlongs, running, 1:18 $\frac{1}{2}$, Jane Holly, Washington park, Chicago.

July 7—1 mile and 50 yards, running, 1:41 $\frac{1}{2}$, Haviland, Washington park, Chicago.

July 7—1 $\frac{1}{2}$ miles, running, 2:45 $\frac{1}{2}$, Africander, Sheepshead Bay, N. Y.

July 8—1 $\frac{1}{4}$ miles, running, 2:03 $\frac{1}{2}$, Water Boy, Brighton Beach, N. Y.

July 11—1 mile, trotting, 2:03 $\frac{1}{2}$, Lou Dillon, Cleveland, O.

July 17— $\frac{3}{4}$ mile, pacing, :57 $\frac{1}{4}$, Dan Patch, Columbus, O.

July 17— $\frac{3}{4}$ mile, pacing, :28, Dan Patch, Columbus, O.

July 31—1 mile, trotting, 2:02 $\frac{1}{2}$, Lou Dillon, Cleveland, O.

BASEBALL.

SEASON OF 1903.

The baseball season of 1903 was successful both as to the attendance and the quality of play shown. Most of the clubs in the major leagues and many of those in the minor organizations made money. Harmonious relations were established between interests hitherto in conflict, with the result that better discipline was maintained on the field and the evil of contract-jumping minimized.

Sir Thomas Lipton was, for the third time, the challenger for the America's cup in 1903. His boat was the Shamrock III., built by Fife and navigated by Capt. Robert Wringe. The defender was the Reliance, constructed by the Herreshoffs for C. Oliver Iselin and others of the New York Yacht club and sailed by Capt. Charles Barr. The course was the old one of thirty nautical

miles off Sandy Hook and the race requirements were the same as in 1901. Light winds prevented decisive results Aug. 20, 27 and 31, when the yachts failed to cover the course within the prescribed time limit of four and a half hours. On each occasion the Reliance was in the lead at the finish. Aug. 29 a gale and Sept. 1 and 2 lack of wind caused postponements. The deciding races

took place Aug. 22, 25 and Sept. 3 and Reliance was an easy winner, though the Shamrock III. had a time allowance of 1 minute and 57 seconds. Summary:

RECORD OF PREVIOUS RACES.

1851—Aug. 22. In this, the year of the great exhibition in London, the Royal Yacht club of England offered a cup to the winner of a yacht race around the Isle of Wight. The course was 60 miles in length and was won by the schooner-yacht America, designed by George Steers for John C. Stevens of the New York Yacht club. The America was 94 feet over all, 88 feet on the water line, 22½ feet beam and 11½ feet draft. There was no time allowance and the competing yachts ranged in size from a three-masted 392-ton schooner, the Brilliant, to the 47-ton cutter, the Aurora, which came in second in the race. The time of the America was 10 hours and 34 minutes; that of the Aurora was 24 minutes slower. The cup after that became known as the America's cup and has now been successfully defended for fifty-two years.

FOR THE LIPTON CUP.

The second contest for the silver cup donated by Sir Thomas J. Lipton to the Columbia Yacht club of Chicago, to be competed for annually by 21-foot cabin-class boats, took place Aug. 27, 29 and 31 and Sept. 1, 1903, on Lake Michigan at Chicago. George R. Pearce's La Rita, winner of the cup in 1902, was again successful. The first race was twice over a triangular course, two nautical miles to the leg; the second, twice over a windward and leeward course of six miles; the third, a square course, three miles to each leg; and the fourth, same as the first. First race (start 2 p. m.): La Rita finished at 4:10:50; Sprite, 4:13:15; Hoosier, 4:13:20; Little Shamrock, 4:13:40; Pilot, 4:16:00. Second race (start 2:10 p. m.): Sprite, 4:33:50; Little Shamrock, 4:43:40; Hoosier, 4:46:30; La Rita, 4:51:20; Pilot, 4:51:35. Third race (start 2:20 p. m.): La Rita, 4:38:40; Hoosier, 4:39:20; Sprite, 4:39:40; Pilot, 4:41:00; Little Shamrock, 4:46:00. Fourth race to decide tie in percentage: La Rita won by 3 minutes and 25 seconds.

THE CANADA CUP.

The fourth contest for the Canada cup, a trophy valued at \$1,000, took place at Toronto, Ont., Aug. 8, 10, 11, 12 and 13, 1903. The defender, representing the Royal Canadian Yacht club of Toronto, was the Strathcona, and the challenger the Irondequoit of the Rochester (N. Y.) Yacht club. The Strathcona won the first two and the Irondequoit the last three races, the cup therefore going to the American boat. The record of the Canada cup contests to date is as follows:

1896—Won by the Canada of the Royal Canadian Yacht club at Toledo, O.; challenger, the Vencedor.

1899—Won by the Genesee of Rochester, N. Y. (representing the Chicago Yacht club), at Toronto; challenger, the Beaver.

1901—Won by the Invader of the Royal Canadian Yacht club at Chicago, Aug. 10, 12, 13 and 14; defender, the Cadillac of Detroit, representing the Chicago Yacht club.

1903—Won by the Irondequoit of the Rochester (N. Y.) Yacht club at Toronto, Aug. 8, 10, 11, 12 and 13; defender, the Strathcona of the Royal Canadian Yacht club.

CUP FOR OCEAN RACE.

In October, 1903, Sir Thomas Lipton offered a challenge cup, valued at \$2,500, for a yacht race across the Atlantic. He proposed to make it an annual event open to

ail nations, the trophy being subject to perpetual challenge. A little later Emperor William of Germany offered a cup for a transatlantic yacht race in 1904. In a letter to Sir Thomas Lipton, who on learning of the emperor's intention had withdrawn his offer, the kaiser said that his purpose was to encourage ocean racing and stimulate designers and builders into producing a class capable of keeping the open sea easily and combining seaworthiness with safety and comfort without sacrificing to speed, i. e., to develop a sound type of cruiser. The yacht clubs in New York were unable to agree upon the method of conducting the proposed race, whereupon the emperor, late in November, withdrew his offer.

THE SEAWANHAKA CUP CONTEST.

The annual international competition for the Seawanhaka cup for small yachts took place in Lake St. Louis, near Montreal,

July 30 and 31 and Aug. 1. Thorella, the defender of the Royal St. Lawrence Yacht club, easily defeated Kolutoo, the American challenger representing the Manchester (Mass.) Yacht club, in all of the races. In the first race, which was over a triangular course, the Kolutoo lost her rudder and was left hopelessly behind. In the second race, over a course to windward and return thrice over, giving a total of twelve miles, the elapsed time was: Thorella, 1:50:17; Kolutoo, 2:09:53. The third race was over the triangular course and the elapsed time was: Thorella, 1:56:39; Kolutoo, 2:08:55.

THE PHISTER CUP.

Badger II., owned by W. Thorsen of Milwaukee, won the annual race for the Phister cup, July 4, at Chicago. The course, a triangle nine miles long, was covered in 1 hour and 43 minutes.

The mile record was made at the Empire track, Yonkers, N. Y., July 23, 1903; the records for 2, 3, 4 and 5 miles were made on the same day and track and the remainder on the same track Oct. 3, 1903. The record for 1 mile, straightaway, ¼6, was made by M. Angiers in Paris, Nov. 17, 1902.

PARIS-MADRID RACE.

An international automobile race was to have been run May 24-25 from Paris to Madrid, but owing to numerous fatal accidents the contest was stopped by the authorities when the end of the first stage at Bordeaux had been reached. Seven persons, including Marcel Renault, were killed and a

dozen severely injured along the route. The winner of the run from Paris to Bordeaux was M. Gabriel, who covered the distance in 5:13:31½. His average speed was 66 miles an hour. Louis Renault was second.

GORDON BENNETT RACE IN IRELAND.

The annual race for the James Gordon Bennett cup was run July 2 over a course lying chiefly in the county of Kildare, Ireland, with a length of 368 miles and 765 yards. The finish was at Ballyshannon, about thirty-five miles southwest of Dublin. England, France, America and Germany were represented by three teams each. Jenatz of Germany was first in 6:39; Baron de Knyff, France, second, 6:50:40; Farman, France, third, 6:51:44; Gabriel, France, fourth, 7:11:33; Edge, England, 9:13:48. The American teams failed to finish. Jenatz's average speed was 49¼ miles an hour, excluding stops. The record of the Bennett cup race now stands:

OLYMPIC GAMES AT ST. LOUIS IN 1904.

The third of the modern series of Olympic games will take place in connection with the Louisiana Purchase exposition in St. Louis, Mo., in 1904, during the week beginning Aug. 29 and ending Sept. 3. The first of these contests was held in Athens, Greece, in 1896, and the second in Paris in 1900. The third was originally intended to have been held in Chicago, but was transferred to St. Louis at Chicago's request.

All the games will be under the auspices and rules of the American Amateur Athletic union. Following is the official programme:

Monday, Aug. 29—Olympic events, world's championships; 60 meter run, throwing the 16 pound hammer, 400 meter run, 2,590 meter steeplechase, standing broad jump and running high jump.

Tuesday, Aug. 30—Marathon race, 40 kilometers.

WEDNESDAY, AUG. 31—200 meter run, putting the 16-pound shot, lifting barbell, 400-meter hurdle race, standing high jump and international tug of war.

Thursday, Sept. 1—800-meter run, throwing the 56-pound weight, 200-meter hurdle race, running broad jump, running hop, step and jump and tug of war (finals); the Olympic international world's all-around dumb-bell contest.

Friday, Sept. 2—Olympic events, world's championships, 100 meters; throwing the discus, dumb-bell; second section, 1,500 meters, 4,000-meter steeplechase, 110-meter hurdle race, pole vault for height, three standing jumps and international team race, 5,000 meters, each country entitled to start five men, the country scoring the lowest aggregate to be the winner.

Saturday, Sept. 3—Olympic events, world's championships, 100 meters; throwing the discus, dumb-bell; second section, 1,500 meters, 4,000-meter steeplechase, 110-meter hurdle race, pole vault for height, three standing jumps and international team race, 5,000 meters, each country entitled to start five men, the country scoring the lowest aggregate to be the winner.

FOOTBALL.

In the east Princeton won the football championship of 1903; in the central west Michigan and Minnesota claimed first honors. Scores:

NOTED TRIALS IN 1903.

- Ames—Albert Alonzo Ames, former mayor of Minneapolis, Minn., was charged with accepting a bribe of \$600 while in office. He was indicted by the grand jury June 17, 1902, and his trial began in Minneapolis May 1, 1903, and ended May 7 in a verdict of guilty.
- Tillman—James H. Tillman, lieutenant-governor of South Carolina, was tried at Lexington, S. C., on the charge of killing N. C. Gonzales, editor of the Columbia State, at Columbia, S. C., Jan. 16, 1903. The hearing began Sept. 28 and ended Oct. 15 in a verdict of not guilty. Mr. Tillman's plea was self-defense.
- Rubino—Gennaro Rubino, anarchist, accused of attempting to assassinate King Leopold of Belgium, Nov. 15, 1902, was sentenced to imprisonment for life Feb. 10, 1903. His trial began Feb. 6.
- Powers—Caleb Powers was accused of complicity in the murder of Gov. William Goebel Jan. 30, 1900. His trial began at Georgetown, Ky., Aug. 2, 1903, and resulted Aug. 29 in a verdict of guilty, the punishment being fixed at death. At two former trials he was found guilty and given a life sentence in the penitentiary, but in each case was granted a rehearing by the Appellate court.
- Jett—White—Curtis Jett and Thomas White were charged with the murder of J. B. Marcum, an attorney, at Jackson, Ky., May 4, 1903. They were tried at Jackson in June, but the jury disagreed and a change of venue to Cynthiana for the second trial was taken. They were both found guilty Aug. 14 and sentenced to prison for life. In September Curtis Jett was tried for the murder of Thomas Cockrell, town marshal, was found guilty and sentenced to be executed Dec. 18.

THE TARIFF QUESTION IN ENGLAND.

Differences of opinion as to proposed changes in the fiscal policy of Great Britain toward other nations led to the resignation of Joseph Chamberlain, secretary for the colonies; C. T. Ritchie, chancellor of the exchequer, and Lord George Hamilton, secretary for India, Sept. 17, 1903. The duke of Devonshire, lord president of the council, and others resigned later.

Mr. Chamberlain left office because of his desire to devote his entire time to explaining and popularizing the principles of imperial union and to urge the adoption of a system of retaliatory duties directed against such nations, under protective systems, as hurt British trade. In a speech at Glasgow Oct. 6 he announced that he advocated the free importation of wheat from the British colonies and the imposition of a duty of 6

cents a bushel on its importation from other countries. He would also put a tax of about 5 per cent on foreign meats, but would reduce very much the present duties on tea, sugar, cocoa and coffee. As to manufactured goods, he proposed a duty of about 10 per cent upon the importation of foreign wares. In return for the preference given to bread-stuffs and meats from the colonies he expected that Canada and Australia would give preference to English manufactures.

The resignation of Mr. Chamberlain was with the concurrence of Premier Balfour, whose tariff policy agrees in the main with that of the colonial secretary. The other members of the cabinet who resigned did so because they were opposed to the government's protectionist policy.

THE ISTHMIAN CANAL PROJECT.

Panama canal treaty between the United States and Colombia signed Jan. 22, 1903.
 Treaty ratified by the United States senate March 17.
 Rejected by Colombian senate Aug. 17.
 Panama revolts and establishes a new republic Nov. 3.
 Republic of Panama officially recognized by the United States Nov. 13.
 Canal treaty between the United States and the republic of Panama signed Nov. 18.

The treaty with Colombia provided for the payment to that country of \$10,000,000 upon the ratification of the convention and for the annual payment of \$250,000 after the lapse of nine years. The width of the canal zone was fixed at ten kilometers, or about six miles. The treaty with the republic of Panama provides for the payment of the same amounts of money, but the canal strip is increased to ten miles. This zone, the cities of Colon and Panama with their harbors excepted, is granted to the United States in perpetuity with all the rights, power and authority of sovereignty. The republic of Panama also grants to the United States in perpetuity a monopoly for the construction, maintenance and operation of any system of communication by means of canal

or railroad across its territory between the Caribbean sea and the Pacific ocean. Other salient features of the treaty are:

The United States guarantees and will maintain the independence of the republic of Panama.

The United States is given the right of eminent domain over lands within the cities of Panama and Colon that may be necessary for canal work or for the construction of public and sanitary works.

No customs duties are to be collected by the republic of Panama at any of the ports leading to the canal, that being left to the United States. These ports are to be free to the commerce of the world and no duties or taxes are to be imposed except upon merchandise for consumption in the rest of the republic.

The canal shall be neutral in perpetuity. Panama agrees to annul all treaties that may be in conflict with the present one.

The United States shall have the right to use its police and its land and naval forces and to establish fortifications for the protection of the canal and the ships using it. Lands for coaling stations are granted to the United States.

A commission of four men, two to be appointed by each country, is to decide all disputes that may arise.

THE PRESIDENT'S MESSAGE.

(To the 58th congress, first session.)

To the senate and house of representatives: The country is to be congratulated on the amount of substantial achievement which has marked the past year, both as regards our foreign and as regards our domestic policy.

With a nation, as with a man, the most important things are those of the household, and therefore the country is especially to be congratulated on what has been accomplished in the direction of providing for the exercise of supervision over the great corporations and combinations of corporations engaged in interstate commerce. The congress has created the department of commerce and labor, including the bureau of corporations, with for the first time authority to secure proper publicity of such proceedings of these great corporations as the public has the right to know. It has provided for the expediting of suits for the enforcement of the federal antitrust law, and by another law it has secured equal treatment to all producers in the transportation of their goods, thus taking a long stride forward in making effective the work of the interstate-commerce commission.

The establishment of the department of commerce and labor, with the bureau of corporations thereunder, marks a real advance in the direction of doing all that is possible for the solution of the questions vitally affecting capitalists and wage-workers. The act creating the department was approved on Feb. 14, 1903, and two days later the head of the department was nominated and confirmed by the senate. Since then the work of organization has been pushed as rapidly as the initial appropriations permitted and with due regard to thoroughness and the broad purposes which the department is designed to serve. After the transfer of the various bureaus and branches to the department at the beginning of the current fiscal year, as provided for in the act, the personnel comprised 1,289 employees in Washington and 8,836 in the country at large. The scope of the department's duty and authority embraces the commercial and industrial interests of the nation. It is not designed to restrict or control the fullest liberty of legitimate business action but to secure exact and authentic information which will aid the executive in enforcing existing laws and which will enable the congress to enact additional legislation, if any should be found necessary, in order to prevent the few from obtaining privileges at the expense of diminished opportunities for the many.

The preliminary work of the bureau of corporations in the department has shown the wisdom of its creation. Publicity in corporate affairs will tend to do away with ignorance and will afford facts upon which intelligent action may be taken. Systematic, intelligent investigation is already developing facts the knowledge of which is essential to a right understanding of the needs and duties of the business world. The corporation which is honestly and fairly organized, whose managers in the conduct of its business recognize their obligation to deal squarely with their stockholders, their competitors and the public, has nothing to fear from such supervision. The purpose of this bureau is not to embarrass or assail legitimate business but to aid in bringing

about a better industrial condition—a condition under which there shall be obedience to law and recognition of public obligation by all corporations, great or small. The department of commerce and labor will be not only the clearing house for information regarding the business transactions of the nation but the executive arm of the government to aid in strengthening our domestic and foreign markets, in perfecting our transportation facilities, in building up our merchant marine, in preventing the entrance of undesirable immigrants, in improving commercial and industrial conditions and in bringing together on common ground those necessary partners in industrial progress—capital and labor. Commerce between the nations is steadily growing in volume and the tendency of the times is toward closer trade relations. Constant watchfulness is needed to secure to Americans the chance to participate to the best advantage in foreign trade, and we may confidently expect that the new department will justify the expectation of its creators by the exercise of this watchfulness as well as by the businesslike administration of such laws relating to our internal affairs as are entrusted to its care.

In enacting the laws above enumerated the congress proceeded on sane and conservative lines. Nothing revolutionary was attempted, but a common-sense and successful effort was made in the direction of seeing that corporations are so handled as to subserve the public good. The legislation was moderate. It was characterized throughout by the idea that we were not attacking corporations but endeavoring to provide for doing away with any evil in them; that we drew the line against misconduct, not against wealth, gladly recognizing the great good done by the capitalist who, alone or in conjunction with his fellows, does his work along proper and legitimate lines. The purpose of the legislation which purpose will undoubtedly be fulfilled, was to favor such a man when he does well and to supervise his action only to prevent him from doing ill. Publicity can do no harm to the honest corporation. The only corporation that has cause to dread it is the corporation which shrinks from the light, and about the welfare of such corporations we need not be oversensitive. The work of the department of commerce and labor has been conditioned upon this theory—of securing fair treatment alike for labor and for capital.

CORPORATIONS AND LABOR UNIONS.

The consistent policy of the national government, so far as it has the power, is to hold in check the unscrupulous man, whether employer or employee, but to refuse to weaken individual initiative or to hamper or cramp the industrial development of the country. We recognize that this is an era of federation and combination, in which great capitalistic corporations and labor unions have become factors of tremendous importance in all industrial centers. Hearty recognition is given the far-reaching, beneficent work which has been accomplished through both corporations and unions, and the line as between different corporations, as between different unions, is drawn as it is between different individuals—that is, it is drawn on

conduct, the effort being to treat both organized capital and organized labor alike, asking nothing save that the interest of each shall be brought into harmony with the interest of the general public and that the conduct of each shall conform to the fundamental rules of obedience to law, of individual freedom and of justice and fair dealing toward all. Whenever either corporation, labor union or individual disregards the law or acts in a spirit of arbitrary and tyrannous interference with the rights of others, whether corporations or individuals, then where the federal government has jurisdiction it will see to it that the misconduct is stopped, paying not the slightest heed to the position or power of the corporation, the union or the individual, but only to one vital fact—that is, the question whether or not the conduct of the individual or aggregate of individuals is in accordance with the law of the land. Every man must be guaranteed his liberty and his right to do as he likes with his property or his labor, so long as he does not infringe the rights of others. No man is above the law and no man is below it; nor do we ask any man's permission when we require him to obey it. Obedience to the law is demanded as a right, not asked as a favor.

We have cause as a nation to be thankful for the steps that have been so successfully taken to put these principles into effect. The progress has been by evolution, not by revolution. Nothing radical has been done; the action has been both moderate and resolute. Therefore the work will stand. There shall be no backward step. If in the working of the laws it proves desirable that they shall at any point be expanded or amplified the amendment can be made as its desirability is shown. Meanwhile they are being administered with judgment, but with insistence upon obedience to them, and their need has been emphasized in signal fashion by the events of the past year.

From all sources, exclusive of the postal service, the receipts of the government for the last fiscal year aggregated \$560,396,674. The expenditures for the same period were \$506,099,007, the surplus for the fiscal year being \$54,297,667. The indications are that the surplus for the present fiscal year will be very small, if, indeed, there be any surplus. From July to November the receipts from customs were approximately \$9,000,000 less than the receipts from the same source for a corresponding portion of last year. Should this decrease continue at the same ratio throughout the fiscal year the surplus would be reduced by approximately \$30,000,000. Should the revenue from customs suffer much further decrease during the fiscal year the surplus would vanish. A large surplus is certainly undesirable. Two years ago the war taxes were taken off with the express intention of equalizing the governmental receipts and expenditures, and though the first year thereafter still showed a surplus it now seems likely that a substantial equality of revenue and expenditure will be attained. Such being the case it is of great moment both to exercise care and economy in appropriations and to scan sharply any change in our fiscal revenue system which may reduce our income. The need of strict economy in our expenditures is emphasized by the fact that we cannot afford to be parsimonious in providing for what is essential to our national well-being. Careful economy wherever possible will alone prevent our income from falling be-

low the point required in order to meet our genuine needs.

The integrity of our currency is beyond question and under present conditions it would be unwise and unnecessary to attempt a reconstruction of our entire monetary system. The same liberty should be granted the secretary of the treasury to deposit customs receipts as is granted him in the deposit of receipts from other sources. In my message of Dec. 2, 1902, I called attention to certain needs of the financial situation and I again ask the consideration of the congress for these questions.

During the last session of the congress, at the suggestion of a joint note from the republic of Mexico and the imperial government of China and in harmony with an act of congress appropriating \$25,000 to pay the expenses thereof, a commission was appointed to confer with the principal European countries in the hope that some plan might be devised whereby a fixed rate of exchange could be assured between the gold-standard countries and the silver-standard countries. This commission has filed its preliminary report, which has been made public. I deem it important that the commission be continued and that a sum of money be appropriated sufficient to pay the expenses of its further labors.

THE MERCHANT MARINE.

A majority of our people desire that steps be taken in the interests of American shipping, so that we may once more resume our former position in the ocean carrying trade. But hitherto the differences of opinion as to the proper method of reaching this end have been so wide that it has proved impossible to secure the adoption of any particular scheme. Having in view these facts, I recommend that the congress direct the secretary of the navy, the postmaster-general and the secretary of commerce and labor, associated with such a representation from the senate and house of representatives as the congress in its wisdom may designate, to serve as a commission for the purpose of investigating and reporting to the congress at its next session what legislation is desirable or necessary for the development of the American merchant marine and American commerce and incidentally of a national ocean mail service of adequate auxiliary naval cruisers and naval reserves. While such a measure is desirable in any event, it is especially desirable at this time, in view of the fact that our present governmental contract for ocean mail with the American line will expire in 1905. Our ocean mail act was passed in 1891. In 1895 our twenty-knot transatlantic mail line was equal to any foreign line. Since then the Germans have put on twenty-three-knot steamers and the British have contracted for twenty-four-knot steamers. Our service should equal the best. If it does not the commercial public will abandon it. If we are to stay in the business it ought to be with a full understanding of the advantages to the country on one hand and on the other with exact knowledge of the cost and proper methods of carrying it on. Moreover, lines of cargo ships are of even more importance than fast mail lines, save so far as the latter can be depended upon to furnish swift auxiliary cruisers in time of war. The establishment of new lines of cargo ships to South America, to Asia and elsewhere would

be much in the interest of our commercial expansion.

IMMIGRATION.

We cannot have too much immigration of the right kind and we should have none at all of the wrong kind. The need is to devise some system by which undesirable immigrants shall be kept out entirely, while desirable immigrants are properly distributed throughout the country. At present some districts which need immigrants have none, and in others, where the population is already congested, immigrants come in such numbers as to depress the conditions of life for those already there. During the last two years the immigration service at New York has been greatly improved and the corruption and inefficiency which formerly obtained there have been eradicated. This service has just been investigated by a committee of New York citizens of high standing—Messrs. Arthur V. Briesen, Lee K. Frankel, Eugene A. Philbin, Thomas W. Hynes and Ralph Trautman. Their report deals with the whole situation at length and concludes with certain recommendations for administrative and legislative action. It is now receiving the attention of the secretary of commerce and labor.

The special investigation of the subject of naturalization under the direction of the attorney-general and the consequent prosecutions reveal a condition of affairs calling for the immediate attention of congress. Forgeries and perjuries of shameless and flagrant character have been perpetrated not only in the dense centers of population but throughout the country, and it is established beyond doubt that very many so-called citizens of the United States have no title whatever to that right and are asserting and enjoying the benefits of the same through the grossest frauds. It is never to be forgotten that citizenship is, to quote the words recently used by the Supreme court of the United States, "an inestimable heritage," whether it proceeds from birth within the country or is obtained by naturalization; and we poison the sources of our national character and strength at the fountain if the privilege is claimed and exercised without right and by means of fraud and corruption. The body politic cannot be sound and healthy if many of its constituent members claim their standing through the prostitution of the high right and calling of citizenship. It should mean something to become a citizen of the United States, and in the process no loophole whatever should be left open to fraud.

The methods by which these frauds—now under full investigation with a view to meting out punishment and providing adequate remedies—are perpetrated include many variations of procedure by which false certificates of citizenship are forged in their entirety; or genuine certificates fraudulently or collusively obtained in blank are filled in by the criminal conspirators; or certificates are obtained on fraudulent statements as to the time of arrival and residence in this country; or imposition and substitution of another party for the real petitioner occur in court; or certificates are made the subject of barter and sale and transferred from the rightful holder to those not entitled to them; or certificates are forged by erasure of the original names and the insertion of the names of other persons not entitled to the same.

It is not necessary for me to refer here

at large to the causes leading to this state of affairs. The desire for naturalization is heartily to be commended where it springs from a sincere and permanent intention to become citizens and a real appreciation of the privilege. But it is a source of untold evil and trouble where it is traceable to selfish and dishonest motives, such as the effort by artificial and improper means in wholesale fashion to create voters who are ready-made tools of corrupt politicians, or the desire to evade certain labor laws creating discriminations against alien labor. All good citizens, whether naturalized or native born, are equally interested in protecting our citizenship against fraud in any form and, on the other hand, in affording every facility for naturalization to those who in good faith desire to share alike our privileges and our responsibilities.

The federal grand jury lately in session in New York city dealt with this subject and made a presentment which states the situation briefly and forcibly and contains important suggestions for the consideration of the congress. This presentment is included as an appendix to the report of the attorney-general.

TRUST LAWS.

In my last annual message, in connection with the subject of the due regulation of combinations of capital which are or may become injurious to the public, I recommended a special appropriation for the better enforcement of the antitrust law as it now stands, to be expended under the direction of the attorney-general. Accordingly (by the legislative, executive and judicial appropriation act of Feb. 25, 1903, 32 stat., 854, 904) the congress appropriated, for the purpose of enforcing the various federal trust and interstate-commerce laws, the sum of \$500,000 to be expended under the direction of the attorney-general in the employment of special counsel and agents in the department of justice to conduct proceedings and prosecutions under said laws in the courts of the United States. I now recommend as a matter of the utmost importance and urgency the extension of the purposes of this appropriation so that it may be available, under the direction of the attorney-general, and until used, for the due enforcement of the laws of the United States in general and especially of the civil and criminal laws relating to public lands and the laws relating to postal crimes and offenses and the subject of naturalization. Recent investigations have shown a deplorable state of affairs in these three matters of vital concern. By various frauds and by forgeries and perjuries thousands of acres of the public domain, embracing lands of different character and extending through various sections of the country, have been dishonestly acquired. It is hardly necessary to urge the importance of recovering these dishonest acquisitions, stolen from the people, and of promptly and duly punishing the offenders. I speak in another part of this message of the widespread crimes by which the sacred right of citizenship is falsely asserted and that "inestimable heritage" perverted to base ends.

By similar means—that is, through frauds, forgeries, and perjuries, and by shameless bribes—the laws relating to the proper conduct of the public service in general and to the due administration of the postoffice department have been notoriously violated and

many indictments have been found and the consequent prosecutions are in course of hearing or on the eve thereof. For the reasons thus indicated and so that the government may be prepared to enforce promptly and with the greatest effect the due penalties for such violations of law and to this end may be furnished with sufficient instrumentalities and competent legal assistance for the investigations and trials which will be necessary at many different points of the country, I urge upon the congress the necessity of making the said appropriation available for immediate use for all such purposes, to be expended under the direction of the attorney-general.

Steps have been taken by the state department looking to the making of bribery an extraditable offense with foreign powers. The need of more effective treaties covering this crime is manifest. The exposures and prosecutions of official corruption in St. Louis, Mo., and other cities and states have resulted in a number of givers and takers of bribes becoming fugitives in foreign lands. Bribery has not been included in extradition treaties heretofore, as the necessity for it has not arisen. While there may have been as much official corruption in former years, there has been more developed and brought to light in the immediate past than in the preceding century of our country's history. It should be the policy of the United States to leave no place on earth where a corrupt man fleeing from this country can rest in peace. There is no reason why bribery should not be included in all treaties as extraditable. The recent amended treaty with Mexico whereby this crime was put in the list of extraditable offenses has established a salutary precedent in this regard. Under this treaty the state department has asked and Mexico has granted the extradition of one of the St. Louis bribe-givers.

There can be no crime more serious than bribery. Other offenses violate one law, while corruption strikes at the foundation of all law. Under our form of government all authority is vested in the people and by them delegated to those who represent them in official capacity. There can be no offense heavier than that of him in whom such a sacred trust has been reposed, who sells it for his own gain and enrichment, and no less heavy is the offense of the bribe-giver. He is worse than the thief, for the thief robs the individual, while the corrupt official plunders an entire city or state. He is as wicked as the murderer, for the murderer may only take one life against the law, while the corrupt official and the man who corrupts the official alike aim at the assassination of the commonwealth itself. Government of the people, by the people, for the people, will perish from the face of the earth if bribery is tolerated. The givers and takers of bribes stand on evil pre-eminence of infamy. The exposure and punishment of public corruption is an honor to a nation, not a disgrace. The shame lies in toleration, not in correction. No city or state, still less the nation, can be injured by the enforcement of law. As long as public plunderers when detected can find a haven of refuge in any foreign land and avoid punishment, just so long encouragement is given them to continue their practices. If we fail to do all that in us lies to stamp out corruption we cannot escape our share of responsibility for the guilt. The first requisite of successful self-government is unflinching enforcement of the law and the cutting out of corruption.

ALASKAN BOUNDARY SETTLEMENT.

For several years past the rapid development of Alaska and the establishment of growing American interests in regions therefore unsurveyed and imperfectly known brought into prominence the urgent necessity of a practical demarcation of the boundaries between the jurisdictions of the United States and Great Britain. Although the treaty of 1825 between Great Britain and Russia, the provisions of which were copied in the treaty of 1867, whereby Russia conveyed Alaska to the United States, was positive as to the control, first by Russia and later by the United States, of a strip of territory along the continental mainland from the western shore of Portland canal to Mount St. Elias, following and surrounding the indentations of the coast and including the islands to the westward, its description of the landward margin of the strip was indefinite, resting on the supposed existence of a continuous ridge or range of mountains skirting the coast, as figured in the charts of the early navigators. It had at no time been possible for either party in interest to lay down, under the authority of the treaty, a line so obviously exact according to its provisions as to command the assent of the other. For nearly three-fourths of a century the absence of tangible local interests demanding the exercise of positive jurisdiction on either side of the border left the question dormant. In 1878 questions of revenue administration on the Stikine river led to the establishment of a provisional demarcation crossing the channel between two high peaks on either side about twenty-four miles above the river mouth. In 1899 similar questions growing out of the extraordinary development of mining interests in the region about the head of Lynn canal brought about a temporary *modus vivendi* by which a convenient separation was made at the watershed divides of the White and Chilkoot passes and to the north of Klukwan, on the Klennal river. These partial and tentative adjustments could not, in the very nature of things, be satisfactory or lasting. A permanent disposition of the matter became imperative.

After unavailing attempts to reach an understanding through a joint high commission, followed by prolonged negotiations, conducted in an amicable spirit, a convention between the United States and Great Britain was signed Jan. 24, 1903, providing for an examination of the subject by a mixed tribunal of six members, three on a side, with a view to its final disposition. Ratifications were exchanged on March 3 last, whereupon the two governments appointed their respective members. These on behalf of the United States were Elihu Root, secretary of war; Henry Cabot Lodge, a senator of the United States, and George Turner, an ex-senator of the United States; while Great Britain named the Rt.-Hon. Lord Alverstone, lord chief justice of England; Sir Louis Amable Jette, K. C. M. G., retired judge of the Supreme court of Quebec, and A. B. Aylesworth, K. C., of Toronto. The tribunal met in London on Sept. 3, under the presidency of Lord Alverstone. The proceedings were expeditious and marked by a friendly and conscientious spirit. The respective cases, counter cases and arguments presented the issues clearly and fully. On the 20th of October a majority of the tribunal reached and signed an agreement on all the questions submitted by the terms of the convention. By this award the right of the United States to

the control of a continuous strip or border of the mainland shore skirting all the tide-water inlets and sinuosities of the coast is confirmed; the entrance to Portland canal (concerning which legitimate doubt appeared) is defined as passing by Tongass inlet and to the northward of Wales and Pearse islands; a line is drawn from the head of Portland canal to the 56th degree of north latitude; and the interior border line of the strip is fixed by lines connecting certain mountain summits lying between Portland canal and Mount St. Elias, and running along the crest of the divide separating the coast slope from the inland watershed at the only part of the frontier where the drainage ridge approaches the coast within the distance of ten marine leagues stipulated by the treaty as the extreme width of the strip around the heads of Lynn canal and its branches.

While the line so traced follows the provisional demarcation of 1878 at the crossing of the Stikine river, and that of 1893 at the summits of the White and Chilkoot passes, it runs much farther inland from the Klehini than the temporary line of the later *modus vivendi* and leaves the entire mining district of the Porcupine river and Glacier creek within the jurisdiction of the United States.

The result is satisfactory in every way. It is of great material advantage to our people in the far northwest. It has removed from the field of discussion and possible danger a question liable to become more acutely accentuated with each passing year. Finally, it has furnished a signal proof of the fairness and good will with which two friendly nations can approach and determine issues involving national sovereignty and by their nature incapable of submission to a third power for adjudication.

The award is self-executing on the vital points. To make it effective as regards the others it only remains for the two governments to appoint, each on its own behalf, one or more scientific experts, who shall, with all convenient speed, proceed together to lay down the boundary line in accordance with the decision of the majority of the tribunal. I recommend that the congress make adequate provision for the appointment, compensation and expenses of the members to serve on this joint boundary commission on the part of the United States.

CLAIMS AGAINST VENEZUELA.

It will be remembered that during the second session of the last congress Great Britain, Germany and Italy formed an alliance for the purpose of blockading the ports of Venezuela and using such other means of pressure as would secure a settlement of claims due, as they alleged, to certain of their subjects. Their employment of force for the collection of these claims was terminated by an agreement brought about through the offices of the diplomatic representatives of the United States at Caracas and the government at Washington, thereby ending a situation which was bound to cause increasing friction and which jeopardized the peace of the continent. Under this agreement Venezuela agreed to set apart a certain percentage of the customs receipts of two of her ports to be applied to the payment of whatever obligations might be ascertained by mixed commissions appointed for that purpose to be due from her, not only to the three powers already mentioned, whose proceedings against her had resulted in a state of war, but also to the United States, France, Spain, Belgium, the Netherlands, Sweden and Norway,

and Mexico, which had not employed force for the collection of the claims alleged to be due to certain of their citizens.

A demand was then made by the so-called blockading powers that the sums ascertained to be due to their citizens by such mixed commissions should be accorded payment in full before anything was paid upon the claims of any of the so-called peace powers. Venezuela, on the other hand, insisted that all her creditors should be paid upon a basis of exact equality. During the efforts to adjust this dispute it was suggested by the powers in interest that it should be referred to me for decision, but I was clearly of the opinion that a far wiser course would be to submit the question to the permanent court of arbitration at The Hague. It seemed to me to offer an admirable opportunity to advance the practice of the peaceful settlement of disputes between nations and to secure for The Hague tribunal a memorable increase of its practical importance. The nations interested in the controversy were so numerous and in many instances so powerful as to make it evident that beneficent results would follow from their appearance, at the same time before the bar of that august tribunal of peace.

Our hopes in that regard have been realized. Russia and Austria are represented in the persons of the learned and distinguished jurists who compose the tribunal, while Great Britain, Germany, France, Spain, Italy, Belgium, the Netherlands, Sweden and Norway, Mexico, the United States and Venezuela are represented by their respective agents and counsel. Such an imposing concourse of nations presenting their arguments to and invoking the decision of that high court of international justice and international peace can hardly fail to secure a like submission of many future controversies. The nations now appearing there will find it far easier to appear there a second time, while no nation can imagine its just pride will be lessened by following the example now presented. This triumph of the principle of international arbitration is a subject of warm congratulation and offers a happy augury for the peace of the world.

There seems good ground for the belief that there has been a real growth among the civilized nations of a sentiment which will permit a gradual substitution of other methods than the method of war in the settlement of disputes. It is not pretended that as yet we are near a position in which it will be possible wholly to prevent war, or that a just regard for national interest and honor will in all cases permit of the settlement of international disputes by arbitration; but by a mixture of prudence and firmness with wisdom we think it is possible to do away with much of the provocation and excuse for war, and at least in many cases to substitute some other and more rational method for the settlement of disputes. The Hague court offers so good an example of what can be done in the direction of such settlement that it should be encouraged in every way.

Further steps should be taken. In President McKinley's annual message of Dec. 5, 1898, he made the following recommendations: "The experiences of the last year bring forcibly home to us a sense of the burdens and the waste of war. We desire, in common with most civilized nations, to reduce to the lowest possible point the damage sustained in time of war by peaceable trade and commerce. It is true we may suffer in such cases less than other communities, but

all nations are damaged more or less by the state of uneasiness and apprehension into which an outbreak of hostilities throws the entire commercial world. It should be our object, therefore, to minimize, so far as practicable, this inevitable loss and disturbance. This purpose can probably best be accomplished by an international agreement to regard all private property at sea as exempt from capture or destruction by the forces of belligerent powers. The United States government has for many years advocated this humane and beneficent principle and is now in a position to recommend it to other powers without the imputation of selfish motives. I therefore suggest for your consideration that the executive be authorized to correspond with the governments of the principal maritime powers with a view of incorporating into the permanent law of civilized nations the principle of the exemption of all private property at sea, not contraband of war, from capture or destruction by belligerent powers." I cordially renew this recommendation.

The Supreme court, speaking on Dec. 11, 1899, through Justice Peckham, said: "It is, we think, historically accurate to say that this government has always been, in its views, among the most advanced of the governments of the world in favor of mitigating, as to all noncombatants, the hardships and horrors of war. To accomplish that object it has always advocated those rules which would in most cases do away with the right to capture the private property of an enemy on the high seas."

I advocate this as a matter of humanity and morals. It is anachronistic when private property is respected on land that it should not be respected at sea. Moreover, it should be borne in mind that shipping represents, internationally speaking, a much more generalized species of private property than is the case with ordinary property on land—that is, property found at sea is much less apt than is the case with property found on land really to belong to any one nation. Under the modern system of corporate ownership the flag of a vessel often differs from the flag which would mark the nationality of the real ownership and money control of the vessel; and the cargo may belong to individuals of yet a different nationality. Much American capital is now invested in foreign ships, and among foreign nations it often happens that the capital of one is largely invested in the shipping of another. Furthermore, as a practical matter, it may be mentioned that while commerce destroying may cause serious loss and great annoyance, it can never be more than a subsidiary factor in bringing to terms a resolute foe. This is now well recognized by all of our naval experts. The fighting ship, not the commerce destroyer, is the vessel whose feats add renown to a nation's history and establish her place among the great powers of the world.

Last year the interparliamentary union for international arbitration met at Vienna, 600 members of the different legislatures of civilized countries attending. It was provided that the next meeting should be in 1904 at St. Louis, subject to our congress extending an invitation. Like The Hague tribunal, this interparliamentary union is one of the forces tending toward peace among the nations of the earth and it is entitled to our support. I trust the invitation can be extended.

RELATIONS WITH TURKEY.

Early in July, having received intelligence, which happily turned out to be erroneous, of

the assassination of our vice-consul at Beirut, I dispatched a small squadron to that port for such service as might be found necessary on arrival. Although the attempt on the life of our vice-consul had not been successful, yet the outrage was symptomatic of a state of excitement and disorder which demanded immediate attention. The arrival of the vessels had the happiest result. A feeling of security at once took the place of the former alarm and disquiet; our officers were cordially welcomed by the consular body and the leading merchants and ordinary business resumed its activity. The government of the sultan gave a considerate hearing to the representations of our minister; the official who was regarded as responsible for the disturbed condition of affairs was removed. Our relations with the Turkish government remain friendly; our claims founded on inequitable treatment of some of our schools and missions appear to be in process of amicable adjustment.

The signing of a new commercial treaty with China, which took place at Shanghai on the 8th of October, is a cause for satisfaction. This act, the result of long discussion and negotiation, places our commercial relations with the great oriental empire on a more satisfactory footing than they have ever heretofore enjoyed. It provides not only for the ordinary rights and privileges of diplomatic and consular officers, but also for an important extension of our commerce by increased facility of access to Chinese ports and for the relief of trade by the removal of some of the obstacles which have embarrassed it in the past. The Chinese government engages, on fair and equitable conditions, which will probably be accepted by the principal commercial nations, to abandon the levy of "liken" and other transit dues throughout the empire and to introduce other desirable administrative reforms.

Larger facilities are to be given to our citizens who desire to carry on mining enterprises in China. We have secured for our missionaries a valuable privilege—the recognition of their right to rent and lease in perpetuity such property as their religious societies may need in all parts of the empire. And, what was an indispensable condition for the advance and development of our commerce in Manchuria, China, by treaty with us, has opened to foreign commerce the cities of Mukden, the capital of the province of Manchuria, and Antung, an important port on the Yalu river, on the road to Korea. The full measure of development which our commerce may rightfully expect can hardly be looked for until the settlement of the present abnormal state of things in the empire, but the foundation for such development has at last been laid.

I call your attention to the reduced cost in maintaining the consular service for the fiscal year ended June 30, 1903, as shown in the annual report of the auditor for the state and other departments, as compared with the year previous. For the year under consideration the excess of expenditures over receipts on account of the consular service amounted to \$26,125.12, as against \$96,972.50 for the year ended June 30, 1902, and \$147,040.16 for the year ended June 30, 1901. This is the best showing in this respect for the consular service for the past fourteen years, and the reduction in the cost of the service to the government has been made in spite of the fact that the expenditures for the year in question were more than \$20,000 greater than for the previous year.

RURAL FREE DELIVERY.

The rural free-delivery service has been steadily extended. The attention of the congress is asked to the question of the compensation of the letter carriers and clerks engaged in the postal service, especially on the new rural free-delivery routes. More routes have been installed since the 1st of July last than in any like period in the department's history. While a due regard to economy must be kept in mind in the establishment of new routes, yet the extension of the rural free-delivery system must be continued for reasons of sound public policy. No governmental movement of recent years has resulted in greater immediate benefit to the people of the country districts. Rural free delivery, taken in connection with the telephone, the bicycle and the trolley, accomplishes much toward lessening the isolation of farm life and making it brighter and more attractive. In the immediate past the lack of just such facilities as these has driven many of the more active and restless young men and women from the farms to the cities; for they rebelled at loneliness and lack of mental companionship. It is unhealthy and undesirable for the cities to grow at the expense of the country; and rural free delivery is not only a good thing in itself, but is good because it is one of the causes which check this unwholesome tendency toward the urban concentration of our population at the expense of the country districts. It is for the same reason that we sympathize with and approve of the policy of building good roads. The movement for good roads is one fraught with the greatest benefit to the country districts.

I trust that the congress will continue to favor in all proper ways the Louisiana Purchase exposition. This exposition commemorates the Louisiana purchase, which was the first great step in the expansion which made us a continental nation. The expedition of Lewis and Clark across the continent followed thereon and marked the beginning of the process of exploration and colonization which thrust our national boundaries to the Pacific. The acquisition of the Oregon country, including the present states of Oregon and Washington, was a fact of immense importance in our history, first giving us our place on the Pacific seaboard and making ready the way for our ascendancy in the commerce of the greatest of the oceans. The centennial of our establishment upon the western coast by the expedition of Lewis and Clark is to be celebrated at Portland, Ore., by an exposition in the summer of 1905, and this event should receive recognition and support from the national government.

DEVELOPMENT OF ALASKA.

I call your special attention to the territory of Alaska. The country is developing rapidly and it has an assured future. The mineral wealth is great and has as yet hardly been tapped. The fisheries, if wisely handled and kept under national control, will be a business as permanent as any other and of the utmost importance to the people. The forests, if properly guarded, will form another great source of wealth. Portions of Alaska are fitted for farming and stock raising, although the methods must be adapted to the peculiar conditions of the country. Alaska is situated in the far north; but so are Norway and Sweden and Finland; and Alaska can prosper and play its part in the new world just as those nations have prospered and played their parts in the old world. Proper land laws

should be enacted and the survey of the public lands immediately begun. Coal-land laws should be provided whereby the coal-land entryman may make his location and secure patent under methods kindred to those now prescribed for homestead and mineral entrymen. Salmon hatcheries, exclusively under government control, should be established. The cable should be extended from Sitka westward. Wagon roads and trails should be built and the building of railroads promoted in all legitimate ways. Light-houses should be built along the coast. Attention should be paid to the needs of the Alaskan Indians; provision should be made for an officer, with deputies, to study their needs, relieve their immediate wants and help them adapt themselves to the new conditions.

The commission appointed to investigate, during the season of 1903, the conditions and needs of the Alaskan salmon fisheries has finished its work in the field and is preparing a detailed report thereon. A preliminary report reciting the measures immediately required for the protection and preservation of the salmon industry has already been submitted to the secretary of commerce and labor for his attention and for the needed action.

I recommend that an appropriation be made for building lighthouses in Hawaii and taking possession of those already built. The territory should be reimbursed for whatever amounts it has already expended for lighthouses. The governor should be empowered to suspend or remove any official appointed by him, without submitting the matter to the legislature.

INSULAR POSSESSIONS.

Of our insular possessions, the Philippines and Porto Rico, it is gratifying to say that their steady progress has been such as to make it unnecessary to spend much time in discussing them. Yet the congress should ever keep in mind that a peculiar obligation rests upon us to further in every way the welfare of these communities. The Philippines should be knit closer to us by tariff arrangements. It would, of course, be impossible suddenly to raise the people of the islands to the high pitch of industrial prosperity and the governmental efficiency to which they will in the end by degrees attain; and the caution and moderation shown in developing them have been among the main reasons why this development has hitherto gone on so smoothly. Scrupulous care has been taken in the choice of governmental agents and the entire elimination of partisan politics from the public service. The condition of the islanders is in material things far better than ever before, while their governmental, intellectual and moral advance has kept pace with their material advance. No one people ever benefited another people more than we have benefited the Filipinos by taking possession of the islands.

The cash receipts of the general land office for the last fiscal year were \$11,024,743.65, an increase of \$4,762,816.47 over the preceding year. Of this sum, approximately, \$8,461,493 will go to the credit of the fund for the reclamation of arid land, making the total of this fund up to the 30th of June, 1903, approximately \$16,191,836.

A gratifying disposition has been evinced by those having unlawful inclosures of public land to remove their fences. Nearly 2,000,000 acres so inclosed have been thrown open on demand. In but comparatively few

cases has it been necessary to go into court to accomplish this purpose. This work will be vigorously prosecuted until all unlawful inclosures have been removed.

LAND LAWS.

Experience has shown that in the western states themselves, as well as in the rest of the country, there is widespread conviction that certain of the public-land laws and the resulting administrative practice no longer meet the present needs. The character and uses of the remaining public lands differ widely from those of the public lands which congress had especially in view when these laws were passed. The rapidly increasing rate of disposal of the public lands is not followed by a corresponding increase in home building. There is a tendency to mass in large holdings public lands, especially timber and grazing lands, and thereby to retard settlement. I renew and emphasize my recommendation of last year that so far as they are available for agriculture in its broadest sense and to whatever extent they may be reclaimed under the national irrigation law the remaining public lands should be held rigidly for the home builder.

The attention of the congress is especially directed to the timber and stone law, the desert-land law and the commutation clause of the homestead law, which in their operation have in many respects conflicted with wise public-land policy. The discussions in the congress and elsewhere have made it evident that there is a wide divergence of opinion between those holding opposite views on these subjects and that the opposing sides have strong and convinced representatives of weight both within and without the congress. The differences being not only as to matters of opinion but as to matters of fact. In order that definite information may be available for the use of the congress, I have appointed a commission composed of W. A. Richards, commissioner of the general land office; Gifford Pinchot, chief of the bureau of forestry of the department of agriculture, and F. H. Newell, chief hydrographer of the geological survey, to report at the earliest practicable moment upon the condition, operation and effect of the present land laws and on the use, condition, disposal and settlement of the public lands. The commission will report especially what changes in organization, laws, regulations and practice affecting the public lands are needed to effect the largest practicable disposition of the public lands to actual settlers who will build permanent homes upon them, and to secure in permanence the fullest and most effective use of the resources of the public lands; and it will make such other reports and recommendations as its study of these questions may suggest. The commission is to report immediately upon those points concerning which its judgment is clear; on any point upon which it has doubt it will take the time necessary to make investigation and reach a final judgment.

The work of reclamation of the arid lands of the west is progressing steadily and satisfactorily under the terms of the law setting aside the proceeds from the disposal of public lands. The corps of engineers known as the reclamation service, which is conducting the surveys and examinations, has been thoroughly organized, especial pains being taken to secure under the civil-service rules a body of skilled, experienced and efficient men. Surveys and examinations are progressing throughout the arid states and ter-

ritories, plans for reclaiming works being prepared and passed upon by boards of engineers before approval by the secretary of the interior. In Arizona and Nevada, in localities where such work is pre-eminently needed, construction has already been begun. In other parts of the arid west various projects are well advanced toward the drawing up of contracts, these being delayed in part by necessities of reaching agreements or understanding as regards rights of way or acquisition of real estate. Most of the works contemplated for construction are of national importance, involving interstate questions or the securing of stable, self-supporting communities in the midst of vast tracts of vacant land. The nation as a whole is, of course, the gainer by the creation of these homes, adding, as they do, to the wealth and stability of the country and furnishing a home market for the products of the east and south. The reclamation law, while perhaps not ideal, appears at present to answer the larger needs for which it is designed. Further legislation is not recommended until the necessities of change are more apparent.

The study of the opportunities of reclamation of the vast extent of arid land shows that, whether this reclamation is done by individuals, corporations or the state, the sources of water supply must be effectively protected and the reservoirs guarded by the preservation of the forests at the headwaters of the streams. The engineers making the preliminary examinations continually emphasize this need and urge that the remaining public lands at the headwaters of the important streams of the west be reserved to insure permanency of water supply for irrigation. Much progress in forestry has been made during the past year. The necessity for perpetuating our forest resources, whether in public or private hands, is recognized now as never before. The demand for forest reserves has become insistent in the west, because the west must use the water, wood and summer range which only such reserves can supply. Progressive lumbermen are striving through forestry, to give their business permanence. Other great business interests are awakening to the need of forest preservation as a business matter. The government's forest work should receive from the congress hearty support, and especially support adequate for the protection of the forest reserves against fire. The forest-reserve policy of the government has passed beyond the experimental stage and has reached a condition where scientific methods are essential to its successful prosecution. The administrative features of forest reserves are at present unsatisfactory, being divided between three bureaus of two departments. It is therefore recommended that all matters pertaining to forest reserves, except those involving or pertaining to land titles, be consolidated in the bureau of forestry of the department of agriculture.

The cotton-growing states have recently been invaded by a weevil that has done much damage and threatens the entire cotton industry. I suggest to the congress the prompt enactment of such remedial legislation as its judgment may approve.

In granting patents to foreigners the proper course for this country to follow is to give the same advantages to foreigners here that the countries in which these foreigners dwell extend in return to our citizens—that is, to extend the benefits of our patent laws on inventions and the like where in return

the articles would be patentable in the foreign countries concerned—where an American could get a corresponding patent in such countries.

The Indian agents should not be dependent for their appointments or tenure of office upon considerations of partisan politics; the practice of appointing, when possible, ex-army officers or bonded superintendents to the vacancies that occur is working well. Attention is invited to the widespread illiteracy due to lack of public schools in the Indian Territory. Prompt heed should be paid to the need of education for the children in this territory.

In my last annual message the attention of the congress was called to the necessity of enlarging the safety-appliance law, and it is gratifying to note that this law was amended in important respects. With the increasing railway mileage of the country, the greater number of men employed and the use of larger and heavier equipment the urgency for renewed effort to prevent the loss of life and limb upon the railroads of the country, particularly to employees, is apparent. For the inspection of water craft and the life-saving service upon the water congress has built up an elaborate body of protective legislation and a thorough method of inspection and is annually spending large sums of money. It is encouraging to observe that the congress is alive to the interests of those who are employed upon our wonderful arteries of commerce—the railroads—who so safely transport millions of passengers and billions of tons of freight. The federal inspection of safety appliances, for which the congress is now making appropriations, is a service analogous to that which the government has upheld for generations in regard to vessels, and it is believed will prove of great practical benefit both to railroad employees and the traveling public. As the greater part of commerce is interstate and exclusively under the control of the congress the needed safety and uniformity must be secured by national legislation.

No other class of our citizens deserves so well of the nation as those to whom the nation owes its very being, the veterans of the civil war. Special attention is asked to the excellent work of the pension bureau in expediting and disposing of pension claims. During the fiscal year ended July 1, 1903, the bureau settled 251,932 claims, an average of 825 claims for each working day of the year. The number of settlements since July 1, 1903, has been in excess of last year's average, approaching 1,000 claims for each working day, and it is believed that the work of the bureau will be current at the close of the present fiscal year.

THE CIVIL SERVICE.

During the year ended June 30 last 25,566 persons were appointed through competitive examinations under the civil-service rules. This was 12,672 more than during the preceding year and 40 per cent of those who passed the examinations. This abnormal growth was largely occasioned by the extension of classification to the rural free-delivery service and the appointment last year of over 9,000 rural carriers. A revision of the civil-service rules took effect on April 15 last, which has greatly improved their operation. The completion of the reform of the civil service is recognized by good citizens everywhere as a matter of the highest public importance and the success of the merit system largely depends upon the effectiveness of the rules and the machinery provided for

their enforcement. A very gratifying spirit of friendly co-operation exists in all the departments of the government in the enforcement and uniform observance of both the letter and spirit of the civil-service act. Executive orders of July 3, 1902; March 26, 1903, and July 8, 1903, require that appointments of all unclassified laborers, both in the departments at Washington and in the field service, shall be made with the assistance of the United States civil-service commission, under a system of registration to test the relative fitness of applicants for appointment or employment. This system is competitive and is open to all citizens of the United States qualified in respect to age, physical ability, moral character, industry and adaptability for manual labor; except that in case of veterans of the civil war the element of age is omitted. This system of appointment is distinct from the classified service and does not classify positions of mere laborers under the civil-service act and rules. Regulations in aid thereof have been put in operation in several of the departments and are being gradually extended in other parts of the service. The results have been very satisfactory, as extravagance has been checked by decreasing the number of unnecessary positions and by increasing the efficiency of the employees remaining.

The congress, as the result of a thorough investigation of the charities and reformatory institutions in the District of Columbia by a joint select committee of the two houses, which made its report in March, 1898, created in the act approved June 6, 1900, a board of charities for the District of Columbia, to consist of five residents of the district, appointed by the president of the United States, by and with the advice and consent of the senate, each for a term of three years, to serve without compensation. President McKinley appointed five men who had been active and prominent in the public charities of Washington, all of whom upon taking office July 1, 1900, resigned from the different charities with which they had been connected. The members of the board have been reappointed in successive years. The board serves under the commissioners of the District of Columbia. The board gave its first year to a careful and impartial study of the special problems before it and has continued that study every year in the light of the best practice in public charities elsewhere. Its recommendations in its annual reports to congress through the commissioners of the District of Columbia "for the economical and efficient administration of the charities and reformatories of the District of Columbia," as required by the act creating it, have been based upon the principles commended by the joint select committee of the congress in its report of March, 1898, and approved by the best administrators of public charities and made for the desired systematization and improvement of the affairs under its supervision. They are worthy of favorable consideration by the congress.

THE ARMY AND NATIONAL GUARD.

The effect of the laws providing a general staff for the army and for the more effective use of the national guard has been excellent. Great improvement has been made in the efficiency of our army in recent years. Such schools as those erected at Fort Leavenworth and Fort Riley and the institution of full maneuver work accomplish satisfactory results. The good effect of these maneuvers

upon the national guard is marked, and ample appropriation should be made to enable the guardsmen of the several states to share in the benefit. The government should as soon as possible secure suitable permanent camp sites for military maneuvers in the various sections of the country. The service thereby rendered not only to the regular army but to the national guard of the several states will be so great as to repay many times over the relatively small expense. We should not rest satisfied with what has been done, however. The only people who are contented with a system of promotion by mere seniority are those who are contented with the triumph of mediocrity over excellence. On the other hand, a system which encouraged the exercise of social or political favoritism in promotions would be even worse. But it would surely be easy to devise a method of promotion from grade to grade in which the opinion of the higher officers of the service upon the candidates should be decisive upon the standing and promotion of the latter. Just such a system now obtains at West Point. The quality of each year's work determines the standing of that year's class, the man being dropped or graduated into the next class in the relative position which his military superiors decide to be warranted by his merit. In other words, ability, energy, fidelity and all other similar qualities determine the rank of a man year after year in West Point and his standing in the army when he graduates from West Point; but from that time on all effort to find which man is best or worst and reward or punish him accordingly is abandoned; no brilliancy, no amount of hard work, no eagerness in the performance of duty, can advance him and no slackness or indifference that falls short of a court-martial offense can retard him. Until this system is changed we cannot hope that our officers will be of as high grade as we have a right to expect, considering the material upon which we draw. Moreover, when a man renders such service as Capt. Pershing rendered last spring in the Moro campaign it ought to be possible to reward him without at once jumping him into the grade of brigadier-general.

THE NAVY.

Shortly after the enunciation of that famous principle of American foreign policy now known as the "Monroe doctrine," President Monroe, in a special message to congress on Jan. 30, 1823, spoke as follows: "The navy is the arm from which our government will always derive most aid in support of our rights. Every power engaged in war will know the strength of our naval power, the number of our ships of each class, their condition and the promptitude with which we may bring them into service, and will pay due consideration to that argument."

I heartily congratulate the congress upon the steady progress in building up the American navy. We cannot afford a let-up in this great work. To stand still means to go back. There should be no cessation in adding to the effective units of the fighting strength of the fleet. Meanwhile the navy department and the officers of the navy are doing well their part by providing constant service at sea under conditions akin to those of actual warfare. Our officers and enlisted men are learning to handle the battleships, cruisers and torpedo boats with high efficiency in fleet and squadron formations and the standard of marksmanship is being

steadily raised. The best work ashore is indispensable, but the highest duty of a naval officer is to exercise command at sea.

The establishment of a naval base in the Philippines ought not to be longer postponed. Such a base is desirable in time of peace; in time of war it would be indispensable and its lack would be ruinous. Without it our fleet would be helpless. Our naval experts are agreed that Subig bay is the proper place for the purpose. The national interests require that the work of fortification and development of a naval station at Subig bay be begun at an early date, for under the best conditions it is a work which will consume much time.

It is eminently desirable, however, that there should be provided a naval general staff on lines similar to those of the general staff lately created for the army. Within the navy department itself the needs of the service have brought about a system under which the duties of a general staff are partially performed; for the bureau of navigation has under its direction the war college, the office of naval intelligence and the board of inspection, and has been in close touch with the general board of the navy. But though under the excellent officers at their head these boards and bureaus do good work, they have not the authority of a general staff and have not sufficient scope to insure a proper readiness for emergencies. We need the establishment by law of a body of trained officers who shall exercise a systematic control of the military affairs of the navy and be authorized advisers of the secretary concerning it.

THE ISTHMIAN CANAL.

By the act of June 23, 1902, the congress authorized the president to enter into treaty with Colombia by the building of the canal across the Isthmus of Panama; it being provided that in the event of failure to secure such treaty after the lapse of a reasonable time recourse should be had to building a canal through Nicaragua. It has not been necessary to consider this alternative, as I am enabled to lay before the senate a treaty providing for the building of the canal across the Isthmus of Panama. This was the route which commended itself to the deliberate judgment of the congress and we can now acquire by treaty the right to construct the canal over this route. The question now, therefore, is not by which route the isthmiian canal shall be built, for that question has been definitely and irrevocably decided. The question is simply whether or not we shall have an isthmiian canal.

When the congress directed that we should take the Panama route under treaty with Colombia the essence of the condition, of course, referred not to the government which controlled that route, but to the route itself; to the territory across which the route lay, not to the name which for the moment the territory bore on the map. The purpose of the law was to authorize the president to make a treaty with the power in actual control of the Isthmus of Panama. This purpose has been fulfilled.

In the year 1846 this government entered into a treaty with New Granada, the predecessor upon the isthmus of the republic of Colombia and of the present republic of Panama, by which treaty it was provided that the government and citizens of the United States should always have free and open right of way or transit across the Isthmus of Panama by any modes of communication that might be constructed, while

in return our government guaranteed the perfect neutrality of the above-mentioned isthmus with the view that the free transit from the one to the other sea might not be interrupted or embarrassed. The treaty vested in the United States a substantial property right carved out of the rights of sovereignty and property which New Granada then had and possessed over the said territory. The name of New Granada has passed away and its territory has been divided. Its successor, the government of Colombia, has ceased to own any property in the isthmus. A new republic, that of Panama, which was at one time a sovereign state and at another time a mere department of the successive confederations known as New Granada and Colombia, has now succeeded to the rights which first one and then the other formerly exercised over the isthmus. But as long as the isthmus endures the mere geographical fact of its existence and the peculiar interest therein which is required by our position perpetuate the solemn contract which binds the holders of the territory to respect our right to freedom of transit across it and binds us in return to safeguard for the isthmus and the world the exercise of that inestimable privilege. The true interpretation of the obligations upon which the United States entered in this treaty of 1846 has been given repeatedly in the utterances of presidents and secretaries of state. Secretary Cass in 1858 officially stated the position of this government as follows:

"The progress of events has rendered the interoceanic route across the narrow portion of Central America vastly important to the commercial world, and especially to the United States, whose possessions extend along the Atlantic and Pacific coasts and demand the speediest and easiest modes of communication. While the rights of sovereignty of the states occupying this region should always be respected, we shall expect that these rights be exercised in a spirit befitting the occasion and the wants and circumstances that have arisen. Sovereignty has its duties as well as its rights, and none of these local governments, even if administered with more regard to the just demands of other nations than they have been, would be permitted, in a spirit of eastern isolation, to close the gates of intercourse on the great highways of the world, and justify the act by the pretension that these avenues of trade and travel belong to them and that they choose to shut them, or, what is almost equivalent, to encumber them with such unjust relations as would prevent their general use."

OPINIONS OF OTHER STATESMEN.

Seven years later, in 1865, Mr. Seward in different communications took the following position:

"The United States have taken and will take no interest in any question of internal revolution in the state of Panama, or any state of the United States of Colombia, but will maintain a perfect neutrality in connection with such domestic altercations. The United States, will, nevertheless, hold themselves ready to protect the transit trade across the isthmus against invasion of either domestic or foreign disturbers of the peace of the state of Panama. * * * Neither the text nor the spirit of the stipulation in that article by which the United States engages to preserve the neutrality of the Isthmus of Panama imposes an obligation on this government to comply with the requisi-

tion [of the president of the United States of Colombia for a force to protect the isthmus of Panama from a body of insurgents of that country]. The purpose of the stipulation was to guarantee the isthmus against seizure or invasion by a foreign power only."

Attorney-General Speed, under date of Nov. 7, 1865, advised Secretary Seward as follows:

"From this treaty it cannot be supposed that New Granada invited the United States to become a party to the internecine troubles of that government, nor did the United States become bound to take sides in the domestic broils of New Granada. The United States did guarantee New Granada in the sovereignty and property over the territory. This was as against other and foreign governments."

For 400 years, ever since shortly after the discovery of this hemisphere, the canal across the isthmus has been planned. For two-score years it has been worked at. When made it is to last for the ages. It is to alter the geography of a continent and the trade routes of the world. We have shown by every treaty we have negotiated or attempted to negotiate with the peoples in control of the isthmus and with foreign nations in reference thereto our consistent good faith in observing our obligations on the one hand to the people of the isthmus and on the other hand to the civilized world whose commercial rights we are safeguarding and guaranteeing by our action. We have done our duty to others in letter and in spirit and we have shown the utmost forbearance in exacting our own rights.

Last spring, under the act above referred to, a treaty concluded between the representatives of the republic of Colombia and of our government was ratified by the senate. This treaty was entered into at the urgent solicitation of the people of Colombia and after a body of experts appointed by our government especially to go into the matter of the routes across the isthmus had pronounced unanimously in favor of the Panama route. In drawing up this treaty every concession was made to the people and to the government of Colombia. We were more than just in dealing with them. Our generosity was such as to make it a serious question whether we had not gone too far in their interest at the expense of our own, for in our scrupulous desire to pay all possible heed not merely to the real but even to the fancied rights of our weaker neighbor, who already owed so much to our protection and forbearance, we yielded in all possible ways to her desires in drawing up the treaty. Nevertheless the government of Colombia not merely repudiated the treaty but repudiated it in such manner as to make it evident by the time the Colombian congress adjourned that not the scantiest hope remained of ever getting a satisfactory treaty from them. The government of Colombia made the treaty, and yet when the Colombian congress was called to ratify it the vote against ratification was unanimous. It does not appear that the government made any real effort to secure ratification.

REPUBLIC OF PANAMA.

Immediately after the adjournment of the congress a revolution broke out in Panama. The people of Panama had long been discontented with the republic of Colombia and they had been kept quiet only by the

prospect of the conclusion of the treaty, which was to them a matter of vital concern. When it became evident that the treaty was hopelessly lost the people of Panama rose literally as one man. Not a shot was fired by a single man on the isthmus in the interest of the Colombian government. Not a life was lost in the accomplishment of the revolution. The Colombian troops stationed on the isthmus, who had long been unpaid, made common cause with the people of Panama, and with astonishing unanimity the new republic was started. The duty of the United States in the premises was clear. In strict accordance with the principles laid down by Secretaries Cass and Seward in the official documents above quoted, the United States gave notice that it would permit the landing of no expeditionary force the arrival of which would mean chaos and destruction along the line of the railroad and of the proposed canal and an interruption of transit as an inevitable consequence. The de facto government of Panama was recognized in the following telegram to Mr. Ehrman:

"The people of Panama have, by apparently unanimous movement, dissolved their political connection with the republic of Colombia and resumed their independence. When you are satisfied that a de facto government, republican in form and without substantial opposition from its own people, has been established in the state of Panama you will enter into relations with it as the responsible government of the territory and look to it for all due action to protect the persons and property of citizens of the United States and to keep open the isthmian transit, in accordance with the obligations of existing treaties governing the relations of the United States to that territory."

The government of Colombia was notified of our action by the following telegram to Mr. Beaupre:

"The people of Panama having, by an apparently unanimous movement, dissolved their political connection with the republic of Colombia and resumed their independence and having adopted a government of their own, republican in form, with which the government of the United States has entered into relations, the president of the United States, in accordance with the ties of friendship which have so long and so happily existed between the respective nations, most earnestly commends to the governments of Colombia and Panama the peaceful and equitable settlement of all questions at issue between them. He holds that he is bound, not merely by treaty obligations but by the interests of civilization, to see that the peaceful traffic of the world across the Isthmus of Panama shall not longer be disturbed by a constant succession of unnecessary and wasteful civil wars."

ISTHMIAN OUTBREAKS SINCE 1846.

When these events happened fifty-seven years had elapsed since the United States had entered into its treaty with New Granada. During that time the governments of New Granada and of its successor, Colombia, have been in a constant state of flux. The following is a partial list of the disturbances on the isthmus during the period in question as reported to us by our consuls. It is not possible to give a complete list, and some of the reports that speak of "revolutions" must mean unsuccessful revolutions:

May 22, 1850—Outbreak; two Americans killed. War vessel demanded to quell outbreak.

October, 1850—Revolutionary plot to bring about independence of the isthmus.

July 22, 1851—Revolution in four southern provinces.

Nov. 14, 1851—Outbreak at Chagres. Man-of-war requested for Chagres.

June 27, 1853—Insurrection at Bogota and consequent disturbance on isthmus. War vessel demanded.

May 23, 1854—Political disturbances. War vessel requested.

June 28, 1854—Attempted revolution.

Oct. 24, 1854—Independence of isthmus demanded by provincial legislature.

April, 1856—Riot and massacre of Americans.

May 4, 1856—Riot.

May 18, 1856—Riot.

June 3, 1856—Riot.

Oct. 2, 1856—Conflict between two native parties. United States forces landed.

Dec. 18, 1858—Attempted secession of Panama.

April, 1859—Riots.

September, 1860—Outbreak.

Oct. 4, 1860—Landing of United States forces in consequence.

May 23, 1861—Intervention of the United States forces required by intendente.

Oct. 2, 1861—Insurrection and civil war.

April 4, 1862—Measures to prevent rebels crossing isthmus.

June 13, 1862—Mosquera's troops refused admittance to Panama.

March, 1865—Revolution and United States troops landed.

August, 1865—Riots; unsuccessful attempt to invade Panama.

March, 1866—Unsuccessful revolution.

April, 1867—Attempt to overthrow government.

August, 1867—Attempt at revolution.

July 5, 1868—Revolution; provisional government inaugurated.

Aug. 29, 1868—Revolution; provisional government overthrown.

April, 1871—Revolution, followed, apparently, by counter-revolution.

April, 1873—Revolution and civil war, which lasted to October, 1875.

August, 1876—Civil war, which lasted until

April, 1877.

July, 1878—Rebellion.

December, 1878—Revolt.

April, 1879—Revolution.

June, 1879—Revolution.

March, 1883—Riot.

May, 1883—Riot.

June, 1884—Revolutionary attempt.

December, 1884—Revolutionary attempt.

January, 1885—Revolutionary disturbances.

March, 1885—Revolution.

April, 1887—Disturbance on Panama railroad.

November, 1887—Disturbance on line of canal.

January, 1889—Riot.

January, 1895—Revolution, which lasted until April.

March, 1895—Incendiary attempt.

October, 1899—Revolution.

February, 1900, to July, 1900—Revolution.

January, 1901—Revolution.

July, 1901—Revolutionary disturbances.

September, 1901—City of Colon taken by rebels.

March, 1902—Revolutionary disturbances.

July, 1902—Revolution.

The above is only a partial list of the

revolutions, rebellions, insurrections, riots and other outbreaks that have occurred during the period in question, yet they number fifty-three for the fifty-seven years. It will be noted that one of them lasted for nearly three years before it was quelled; another for nearly a year. In short, the experience of over half a century has shown Colombia to be utterly incapable of keeping order on the isthmus. Only the active interference of the United States has enabled her to preserve so much as a semblance of sovereignty. Had it not been for the exercise by the United States of the police power in her interest her connection with the isthmus would have been sundered long ago. In 1856, in 1860, in 1873, in 1885, in 1901 and again in 1902 sailors and marines from United States warships were forced to land in order to patrol the isthmus to protect life and property and to see that the transit across the isthmus was kept open. In 1861, in 1862, in 1885 and in 1900 the Colombian government asked that the United States government would land troops to protect its interests and maintain order on the isthmus. Perhaps the most extraordinary request is that which has just been received and which runs as follows:

"Knowing that revolution has already commenced in Panama [an eminent Colombian] says that if the government of the United States will land troops to preserve Colombian sovereignty and the transit, if requested by Colombian charge d'affaires, this government will declare martial law; and, by virtue of vested constitutional authority when public order is disturbed, will approve by decree the ratification of the canal treaty as signed; or, if the government of the United States prefers, will call extra session of the congress—with new and friendly members—next May to approve the treaty. [An eminent Colombian] has the perfect confidence of vice-president, he says, and if it become necessary will go to the isthmus or send representatives there to adjust matters along above lines to the satisfaction of the people there."

CONTRAST TO FORMER TREATMENT.

This dispatch is noteworthy from two standpoints. Its offer of immediately guaranteeing the treaty to us is in sharp contrast with the positive and contemptuous refusal of the congress which has just closed its sessions to consider favorably such a treaty. It shows that the government which made the treaty really had absolute control over the situation but did not choose to exercise this control. The dispatch further calls on us to restore order and secure Colombian supremacy in the isthmus from which the Colombian government has just, by its action, decided to bar us by preventing the construction of the canal.

The control, in the interest of the commerce and traffic of the whole civilized world, of the means of undisturbed transit across the Isthmus of Panama has become of transcendent importance to the United States. We have repeatedly exercised this control by intervening in the course of domestic dissension and by protecting the territory from foreign invasion. In 1853 Mr. Everett assured the Peruvian minister that we should not hesitate to maintain the neutrality of the isthmus in the case of war between Peru and Colombia. In 1864 Co-

lombia, which has always been vigilant to avail itself of its privileges conferred by the treaty, expressed its expectation that in the event of war between Peru and Spain the United States would carry into effect the guaranty of neutrality. There have been few administrations of the state department in which this treaty has not, either by the one side or the other, been used as a basis of more or less important demands. It was said by Mr. Fish in 1871 that the department of state had reason to believe that an attack upon Colombian sovereignty on the isthmus had on several occasions been averted by warning from this government. In 1886, when Colombia was under the menace of hostilities from Italy in the Cerruti case, Mr. Bayard expressed the serious concern that the United States could not but feel that a European power should resort to force against a sister republic of this hemisphere, as to the sovereign and uninterrupted use of a part of whose territory we are guarantors under the solemn faith of a treaty.

The above recital of facts establishes beyond question, first, that the United States has for over half a century patiently and in good faith carried out its obligations under the treaty of 1846; second, that when for the first time it became possible for Colombia to do anything in requital of the services thus repeatedly rendered to it for fifty-seven years by the United States the Colombian government peremptorily and offensively refused thus to do its part, even though to do so would have been to its advantage and immeasurably to the advantage of the state of Panama, at that time under its jurisdiction; third, that throughout this period revolutions, riots and factional disturbances of every kind have occurred one after the other in almost uninterrupted succession, some of them lasting for months and even for years, while the central government was unable to put them down or to make peace with the rebels; fourth, that these disturbances instead of showing any sign of abating have tended to grow more numerous and more serious in the immediate past; fifth, that the control of Colombia over the Isthmus of Panama could not be maintained without the armed intervention and assistance of the United States. In other words, the government of Colombia, though wholly unable to maintain order on the isthmus, has nevertheless declined to ratify a treaty the conclusion of which opened the only chance to secure its own stability and to guarantee permanent peace on and the construction of a canal across the isthmus.

Under such circumstances the government of the United States would have been guilty of folly and weakness, amounting in their sum to a crime against the nation, had it acted otherwise than it did when the revolution of Nov. 3 last took place in Panama. This great enterprise of building the inter-oceanic canal cannot be held up to gratify the whims, or out of respect to the governmental impotence or to the even more sinister and evil political peculiarities of people who, though they dwell afar off, yet against the wish of the actual dwellers on the isthmus assert an unreal supremacy over the territory. The possession of a territory fraught with such peculiar capacities as the isthmus in question carries with it obligations to mankind. The course of events has shown that this canal cannot be built by private enterprise or by any other nation

than our own. Therefore it must be built by the United States.

NEW CANAL TREATY.

Every effort has been made by the government of the United States to persuade Colombia to follow a course which was essentially not only to our interests and to the interests of the world but to the interests of Colombia itself. These efforts have failed, and Colombia, by her persistence in repulsing the advances that have been made, has forced us, for the sake of our own honor and of the interest and well-being not merely of our own people but of the people of the Isthmus of Panama and the people of the civilized countries of the world, to take decisive steps to bring to an end a condition of affairs which had become intolerable. The new republic of Panama immediately offered to negotiate a treaty with us. This treaty I herewith submit. By it our interests are better safeguarded than in the treaty with Colombia which was ratified by the senate at its last session. It is better in its terms than the treaties offered to us by the republics of Nicaragua and Costa Rica. At last the right to begin this great undertaking is made available. Panama has done her part. All that remains is for the American congress to do its part and forthwith this republic will enter upon the execution of a project colossal in its size and of well-nigh incalculable possibilities for the good of this country and the nations of mankind.

By the provisions of the treaty the United States guarantees and will maintain the independence of the republic of Panama. There is granted to the United States in perpetuity the use, occupation and control of a strip ten miles wide and extending three nautical miles into the sea at either

terminal, with all lands lying outside of the zone necessary for the construction of the canal or for its auxiliary works, and with the islands in the bay of Panama. The cities of Panama and Colon are not embraced in the canal zone, but the United States assumes their sanitation and, in case of need, the maintenance of order therein. The United States enjoys within the granted limits all the rights, power and authority which it would possess were it the sovereign of the territory to the exclusion of the exercise of sovereign rights by the republic. All railway and canal property rights belonging to Panama and needed for the canal pass to the United States, including any property of the respective companies in the cities of Panama and Colon. The works, property and personnel of the canal and railways are exempted from taxation as well in the cities of Panama and Colon as in the canal zone and its dependencies. Free immigration of the personnel and importation of supplies for the construction and operation of the canal are granted. Provision is made for the use of military force and the building of fortifications by the United States for the protection of the transit. In other details, particularly as to the acquisition of the interests of the new Panama Canal company and the Panama railway by the United States and the condemnation of private property for the uses of the canal, the stipulations of the Hay-Herran treaty are closely followed, while the compensation to be given for these enlarged grants remains the same, being \$10,000,000 payable on exchange of ratifications, and, beginning nine years from that date, an annual payment of \$250,000 during the life of the convention.

THEODORE ROOSEVELT.

White house, Dec. 7, 1903.

THE REPUBLIC OF PANAMA.

Area, 31,571 square miles.

Population, about 300,000.

Independence declared, Nov. 3, 1903.

Recognized by United States, Nov. 13, 1903.

The rejection by Colombia of the Hay-Herran treaty for the construction of a canal across the Isthmus of Panama led to a revolution in the state of Panama early in November, 1903. The people were practically unanimous for separation and the revolt was immediately successful. The Colombian troops in the city of Panama made no resistance, though the little government navy made a pretense of bombarding the town. In Colon the situation was threatening until marines were landed from the United States gunboat Nashville for the protection of the railroad property and American interests. Col. Torres, in command of the Colombian troops, was convinced of the uselessness of opposition and with his men departed for Cartagena on the steamer Orinoco.

In Panama city a provisional government was organized with Jose Augustin Arjano, Frederico Boyd and Thomas Arias at the head. One of the first acts of the junta was to send M. Philippe Bunau-Varilla as diplomatic agent to the United States. On Nov. 6 the state department sent the following dispatch to the consul-general of the United States at Panama:

"The people of Panama have by an apparently unanimous movement dissolved their political connection with the republic of Colombia and resumed their independence. When you are satisfied that a de

facto government, republican in form and without substantial opposition from its own people, has been established in the state of Panama you will enter into relations with it as the responsible government of the territory and look to it for all due action to protect the persons and property of citizens of the United States and to keep open the isthmian transit in accordance with the obligations of existing treaties governing the relations of the United States to that territory."

On the 7th of November M. Bunau-Varilla was made minister to the United States by Panama and as such was formally received by President Roosevelt Nov. 13. This amounted to an official recognition of the republic. France, Russia and other foreign nations followed the example of the United States within a few weeks.

Colombia protested vigorously and threatened war but instead of resorting to arms sent Gen. Reyes as a mediator to the United States. His mission resulted in failure. The United States had in the meantime negotiated a canal treaty with Panama, in which the independence of the republic was guaranteed, and consequently no action looking to the resumption of control by Colombia could be taken. A synopsis of the treaty will be found in another part of this volume. It is also discussed in the president's message, given above in full. The convention had not been ratified by the senate of the United States up to the time this edition of The Daily News Almanac and Year Book went to press.

*Includes scattering, blank and defective votes.

In Kansas the democratic and people's parties had each an electoral ticket, but the names were identical on both. In some counties the clerks gave all the democratic and populist votes to the populist ticket, and in others they were separated as cast. For this reason it is impossible to tell exactly how many votes the democrats cast and how many the populists cast. Of the Bryan vote of 162,601 the returns indicate that 60,185 were cast by the democrats and 102,416 by the populists. There was no Barker, or middle-of-the-road populist, ticket in the field. The same condition existed four years previously in some states in which the two parties voted for the same electors, but upon separate tickets, as county officers then, as now, combined the votes on electors and credited them all to one or the other party.

Vote of States and Territories by Counties.

For governor, in 1898, Higgins, Pro., received 5,216 votes; Long, M.P., 1,770, and Hammond S. L., 1,647.

*Nash was nominated by petition as a social democrat, but the courts decided he had no right to the designation democrat, so he went before the people as the candidate of no party.

ARCTIC AND ANTARCTIC EXPLORATION.

The most notable achievement in exploration recorded in 1903 was that of the British expedition which sailed from England Aug. 6, 1901, on the *Discovery*, commanded by Capt. Scott, for Victoria Land, in the Antarctic ocean. The steamer reached the coast on Jan. 6, 1902, and spent the winter at the foot of Mount Erebus. In September, or at the beginning of the antarctic spring, a sledge party, led by Capt. Scott, began a trip toward the south and southeast, finally reaching 82 degrees and 17 seconds, south latitude, or a point 532.45 miles from the south pole. This surpasses the record made by Borchgrevink in 1900 by 238.05 miles.

Lieut. Robert Peary announced his intention of organizing a new expedition to the arctic regions. The start will be made, it is thought, in the summer of 1904.

The record of the principal polar expeditions since 1871 now stands:

POPULATION STATISTICS OF ILLINOIS.

GROWTH IN POPULATION.

Illinois was organized as a territory March 1, 1809, and admitted as a state Dec. 3, 1818. The appended table prepared by the census bureau shows the increase of population at each census from 1810.

YEAR.	Population.	Increase in numbers.	Per cent.	YEAR.	Population.	Increase in numbers.	Per cent.
1900.....	4,821,550	995,499	26.0	1850.....	851,470	375,287	78.8
1890.....	3,826,351	748,480	24.8	1840.....	476,183	318,798	202.4
1880.....	3,077,871	537,980	21.1	1830.....	157,445	102,283	185.4
1870.....	2,539,891	827,940	48.3	1820.....	55,162	42,880	349.1
1860.....	1,711,951	860,481	101.0	1810.....	12,282		

The total land surface of the state is about 56,000 square miles, so that in 1900 the average number of persons to the square mile was 86, while in 1890 it was 68.3.

ILLINOIS ANTITRUST LAW.

The essential portion of the act approved June 11, 1891, as amended by the act approved June 10, 1897, for the punishment of persons, copartnerships or corporations forming pools, trusts and combines is as follows:

"If any corporation organized under the laws of this or any other state or country for transacting or conducting any kind of business in this state or any partnership or individual or other association of persons whosoever shall create, enter into, become a member of or a party to any pool, trust, agreement, combination, confederation or understanding with any other corporation, partnership, individual or other person or association of persons, to regulate or fix the price of any article of merchandise or commodity, or shall enter into, become a member of or party to any pool, agreement, contract, combination or confederation to fix or limit the amount or quantity of any article, commodity or merchandise to be manufactured, mined, produced or sold in

this state, such corporation, partnership or individual or other association of persons shall be deemed and adjudged guilty of a conspiracy to defraud and be subject to indictment and punishment as provided in this act: Provided, however, that in the mining, manufacture or production of articles of merchandise, the cost of which is mainly made up of wages, it shall not be unlawful for persons, firms or corporations doing business in this state to enter into joint arrangements of any sort, the principal object or effect of which is to maintain or increase wages."

The punishment for the first violation of this act by a corporation is fixed by a fine of not less than \$500 nor more than \$2,000; for the second offense not less than \$2,000 nor more than \$5,000; for a third offense not less than \$5,000 nor more than \$10,000. Any individual convicted of violating the act may be punished by a fine of not less than \$200 nor more than \$1,000 or by confinement in the county jail not to exceed one year, or both.

DESTRUCTIVE HURRICANE IN JAMAICA.

On the 11th and 12th of August, 1903, Jamaica was visited by one of the most destructive storms in the history of the island. It was especially severe in the northern and eastern districts, where practically everything in the way of buildings and crops was laid waste. Port Antonio was almost completely destroyed and Kingston was badly damaged. The owners of fruit, coffee and

sugar plantations lost about everything they had except their land. Shipping suffered severely. Five steamers of the United Fruit company were driven ashore at Port Antonio, five vessels were wrecked in Kingston harbor and scores of small schooners were lost on the north coast. The loss of life was estimated at fifty and the damage to property at about \$10,000,000.

ILLINOIS LEGISLATION.

Important laws enacted by the 43d general assembly.

MUELLER MUNICIPAL OWNERSHIP LAW.

(Passed by the house of representatives May 1, 1903; by the senate May 5; approved May 18; in force July 1, 1903.)

1. Be it enacted by the people of the state of Illinois represented in the general assembly, that every city in this state shall have the power to own, construct, acquire, purchase, maintain and operate street railways within its corporate limits, and to lease the same or any part of the same to any company incorporated under the laws of this state for the purpose of operating street railways for any period not longer than twenty years, on such terms and conditions as the city council shall deem for the best interests of the public.

But no city shall proceed to operate street railways unless the proposition to operate shall first have been submitted to the electors of such city as a separate proposition and approved by three-fifths of those voting thereon. It shall be lawful for any such city to incorporate in any grant of the right to construct or operate street railways a reservation of the right on the part of such city to take over all or part of such street railways at or before the expiration of such grant upon such terms and conditions as may be provided in the grant; it shall also be lawful to provide in any such grant that in case such reserved right be not exercised by the city and it shall grant a right to another company to operate a street railway in the streets and parts of streets occupied by its grantee under the former grant the new grantee shall purchase and take over the street railway of the former grantee upon the terms that the city might have taken it over and it shall be lawful for the city council of any city to make a grant containing such a reservation for either the construction or operation or both the construction and operation of a street railway in, upon and along any of the streets or public ways therein or portions thereof, in which street-railway tracks are already located at the time of the making of such grant, without the petition or consent of any of the owners of the land abutting or fronting upon any street or public way or portion thereof covered by such grant.

No ordinance authorizing a lease for a longer period than five years, nor any ordinance renewing any lease, shall go into effect until the expiration of sixty days from and after its passage. And if within such sixty days there is filed with the city clerk of such city a petition signed by 10 per cent of the voters voting at the last preceding election for mayor in such city asking that such ordinance be submitted to a popular vote, then such ordinance shall not go into effect unless the question of the adoption of such ordinance shall first be submitted to the electors of such city and approved by a majority of those voting thereon.

The signatures to such petition need not all be appended to one paper, but each signer shall add to his signature, which shall be in his own handwriting, his place of residence, giving the street and number. One of the signers of each such paper shall make an oath before an officer competent to administer oaths that each signature to the paper appended is the genuine signature of the person whose name purports to be thereto subscribed.

The city council of any city that shall decide by popular vote as in this act provided to operate street railways shall have the power to make all needful rules and regulations respecting the operation of the same, including the power to fix and prescribe rates and charges, but such rates and charges shall be high enough to produce a revenue sufficient to bear all costs of maintenance and operation, and to meet interest charges on all bonds or certificates issued on account of such railways and to permit the accumulation of a surplus or sinking fund that shall be sufficient to meet all such outstanding bonds or certificates at maturity. Street railways owned and operated by any such city or owned by the city and leased for operating purposes to a private company may carry passengers and their ordinary baggage, parcels, packages and United States mail and may be utilized for such other purposes as the city council of such city may deem proper. Such street railways may be operated by such motive power as the city council may approve except steam locomotives.

For the purpose of acquiring street railways either by purchase or construction as provided for in this act or for the equipment of any such street railways any city may borrow money and issue its negotiable bonds therefor, pledging the faith and credit of the city; but no such bonds shall be issued unless the proposition to issue the same shall first have been submitted to the electors of such city and approved by two-thirds of those voting thereon, nor in an amount in excess of the cost to the city of the property for which said bonds are issued, ascertained as elsewhere provided in this act, and ten (10) per cent of such cost in addition thereto. In the exercise of the powers or any of them granted by this act any such city shall have the power to acquire, take and hold any and all necessary property, real, personal or mixed, for the purposes specified in this act either by purchase or condemnation in the manner provided by law for the taking and condemning of private property for public use, but in no valuation of street-railway property for the purpose of any such acquisition except of street railways now operated under existing franchises shall any sum be included as the value of any earning power of such property or of the unexpired portion of any franchise granted by said city. In the case of the leasing by any city of any street railway owned by it rental reserved shall be based on both the actual value of the tangible property and of the franchise contained in such lease, and such rental shall not be less than a sufficient sum to meet the annual interest upon all outstanding bonds or street-railway certificates issued by said city on account of such street railway.

2. In lieu of issuing bonds pledging the faith and credit of the city as provided for in section 1 of this act any city may issue and dispose of interest-bearing certificates to be known as "street-railway certificates," which shall under no circumstances be or become an obligation or liability of the city or payable out of any general fund thereof, but shall be payable solely out of a specified portion of the revenues or income to be derived from the street-railway property for the acquisition of which they were issued. Such certificates shall not be issued and secured on any street-railway property in

amount in excess of the cost to the city of such property as hereinbefore provided and ten (10) per cent of such cost in addition thereto. In order to secure the payment of any such street-railway certificates and the interest thereon the city may convey by way of mortgage or deed of trust any or all of the street-railway property acquired or to be acquired through the issue thereof; which mortgage or deed of trust shall be executed in such manner as may be directed by the city council and acknowledged and recorded in the manner provided by law for the acknowledgment and recording of mortgages of real estate and may contain such provisions and conditions not in conflict with the provisions of this act as may be deemed necessary to fully secure the payment of the street-railway certificates described therein. Any such mortgage or deed of trust may carry the grant of a privilege or right to maintain and operate the street-railway property covered thereby for a period not exceeding twenty years from and after the date such property may come into the possession of any person or corporation as the result of foreclosure proceedings; which privilege or right may fix the rates of fare which the person or corporation securing the same as the result of foreclosure proceedings shall be entitled to charge in the operation of said property for a period not exceeding twenty (20) years. Whenever and as often as default shall be made in the payment of any street-railway certificates issued and secured by a mortgage or deed of trust, as aforesaid, or in the payment of the interest thereon when due, and any such default shall have continued for the space of twelve (12) months after notice thereof has been given to the mayor and financial officer of the city issuing such certificates it shall be lawful for any such mortgagee or trustee upon the request of the holder or holders of a majority amount of the certificates issued and outstanding under such mortgage or deed of trust to declare the whole of the principal of all such certificates as may be outstanding to be at once due and payable, and to proceed to foreclose such mortgage or deed of trust in any court of competent jurisdiction. At a foreclosure sale the mortgagee or the holders of such certificates may become the purchaser or purchasers of the property and the rights and privileges sold if he or they be the highest bidders. Any street railways acquired by any such foreclosure shall be subject to regulation by the corporate authorities of the city to the same extent as if the right to construct, maintain and operate such property had been acquired through a direct grant without the intervention of foreclosure proceedings. Provided, however, that no street-railway certificates or mortgage shall ever be issued by any city under the provisions of this act unless and until the question of the adoption of the ordinance of the city council making provision for the issue thereof shall have first been submitted to popular vote and approved by a majority of the qualified voters of the city voting upon such question.

3. Every such city owning or owning and operating street railways shall keep the books of account for such street railways distinct from other city accounts and in such manner as to show the true and complete financial results of such city ownership or ownership and operation, as the case may be. Such accounts shall be so kept as to show the actual cost to such city of street railways owned; all costs of maintenance, extension and improvement; all operating expenses of

every description, in case of such city operation; the amounts set aside for sinking-fund purposes; if water or other service shall be furnished for the use of such street railway without charge, the accounts shall show as nearly as possible the value of such service and also the value of such similar service rendered by the street railways to any other city department without charge; such accounts shall also show reasonable allowances for interest, depreciation and insurance and also estimates of the amount of taxes that would be chargeable against such property if owned by a private corporation. The city council shall cause to be printed annually for public distribution a report showing the financial results in form as aforesaid of such city ownership or ownership and operation. The accounts of such street railways, kept as aforesaid, shall be examined at least once a year by an expert accountant who shall report to the city council the results of his examination. Such expert accountant shall be selected in such manner as the city council may direct and he shall receive for his services such compensation to be paid out of the income or revenues from such street railways as the city council may prescribe.

4. This act shall not be in force in any city until the question of its adoption in such city shall first have been submitted to the electors of such city and approved by a majority of those voting thereon. The city council of any such city may by ordinance direct that the question of the adoption of this act in such city be submitted to popular vote at any general, city or special election in and for the entire city coming not sooner than thirty days from and after the passage of the ordinance. If the city council of any city shall incorporate in any grant to a private company of the right to construct or operate street railways a provision reserving to such city the right to take over such street railways at or before the expiration of the grant in case the people of such city shall later adopt this act as herein provided such provision shall be as valid and effective for all purposes, in case such city shall later adopt this act as herein provided, as if the said provision were made a part of such grant after the adoption of this act by such city.

5. In all cases provided in this act for the submission of questions or propositions to popular vote the city council shall pass an ordinance stating the substance of the proposition or question to be voted upon and designating the election at which such question or proposition is to be submitted, which may be any general, city or special election in and for the entire city coming not sooner than thirty days from and after the passage of said ordinance. The city clerk of such city shall promptly certify the passage of such ordinance to the proper election officials and it shall thereupon be the duty of such election officials to submit such question or proposition to popular vote.

6. Nothing in this act contained shall be construed to authorize any city to make any street-railway grant or to lease any street-railway property for a period exceeding twenty (20) years from the making of such grant or lease. Provided, that when a right to maintain and operate a street railway for a period not exceeding twenty (20) years is contained in a mortgage or deed of trust to secure street-railway certificates (and no such right shall be implied) such period shall commence as provided in section two (2) of this act.

ILLINOIS VOTING MACHINE LAW.

An act to provide for the use of voting machines at elections for casting, registering, recording and counting ballots or votes; also creating a board of voting-machine commissioners and defining its duties.

Section 1. Be it enacted by the people of the state of Illinois represented in general assembly that any body or board of public officials or any officer or officers charged by law with the duty of providing material and supplies for holding an election or elections in any city, village, incorporated town, county, precinct, election district or other civil division of the state may at any general or special election submit a proposition to the qualified voters thereof to adopt a voting machine or voting machines and whenever a majority of the electors of any such city, village, incorporated town, county, precinct, election district or other civil division voting upon said proposition shall have declared therefor may purchase or lease a voting machine or voting machines for any or all of the election precincts for which he, it or they are by law charged with the duty of providing material and supplies for holding an election or elections at the expense of the city, village, incorporated town, county, precinct, election district or other civil division of the state now chargeable by law with the expenses of the material and supplies for holding general elections in such civil division or divisions. If the question of using a voting machine or voting machines be not submitted to the voters by the proper public officials a petition signed by 10 per cent of the voters of any city, village, incorporated town, county, precinct, election district or other civil division of the state and addressed to them at least sixty days before any general election asking the submission of the question of adopting a voting machine or voting machines shall compel the submission of the question to the voters at that election. Use of such machines may be discontinued on resubmission of the question and a vote in favor thereof at any subsequent election; provided, however, that no such voting machine shall be used, purchased, leased or adopted until the board of voting-machine commissioners hereinafter provided for or a majority thereof shall have made and filed a report certifying that they have examined such machine: that it affords each elector an opportunity to vote in absolute secrecy; that it enables each elector to vote a straight party ticket; that it enables each elector to vote a ticket selected in part from the nominees of one party and in part from the nominees of any or all other parties and in part from an independent nomination and in part of persons not in nomination by any party or upon any independent ticket; that it enables each elector to vote a written or printed ballot of his own selection for any person for any office for which he may desire; that it enables each elector to vote for all candidates for whom he is entitled to vote and prevents him from voting for any candidate for any office more than once, unless he is lawfully entitled to cast more than one vote for one candidate, and in that event permits him to cast only as many votes for that candidate as he is by law entitled and no more; that it prevents the elector from voting for more than one person for the same office unless he is lawfully entitled to vote for more than one person therefor, and in that event permits him to vote for as many persons for that office as he is by law entitled and no more, and

that such machine will register correctly by means of exact counters every vote cast for the regular tickets thereon, and has the capacity to contain the tickets of seven political parties with the names of all the candidates thereon together with all propositions to be voted upon, except that it be so constructed that the names of all candidates for presidential electors shall not occur thereon, but in lieu thereof one ballot label in each party column or row shall contain only the words "Presidential Electors," preceded by the party name. That all votes cast on the machine on a regular ballot or ballots shall be registered; that voters may by means of irregular ballots or otherwise vote for any person for any office, although such person may not have been nominated by any party and his name may not appear on such machine, then when a vote is cast for any person for any such office, when his name does not appear on the machine, the elector cannot vote for any name on the machine for the same office; that each elector can understandingly and within the period of one minute cast his vote for all candidates of his choice; that in case the machine is so constructed that the candidates for presidential electors of any party can be voted for only by voting for the ballot label containing the words "Presidential Electors" by voting an irregular ticket as hereinafter defined the elector may vote for any person or persons he may choose for presidential electors; that the machine is provided with a lock or locks by the use of which any movement of the voting or registering mechanism is absolutely prevented so that it cannot be tampered with or manipulated for any fraudulent purposes; that the machine is susceptible of being closed during the progress of the voting so that no person can see or know the number of votes registered for any candidate: Provided, also, that no such machine or machines shall be purchased unless the party or parties making the sale shall guarantee in writing to keep the machine or machines in good working order for five years without additional cost and shall give a sufficient bond conditional to that effect.

Sec. 2. The voting machine or machines to be used, adopted, leased or purchased as herein provided must be so constructed as to meet all requirements specified in this act.

Sec. 3. The secretary of state and two persons appointed by the governor, who shall be mechanical experts and not members of the same political party, shall constitute a board of voting-machine commissioners. Their term of office shall be four years, except that the commissioners appointed by the governor shall be subject to removal at his pleasure and that any secretary of state on surrendering the duties of his office shall be succeeded on the board by the succeeding secretary of state. If the office of secretary of state for any reason shall become vacant the attorney-general of the state shall be a member of the board until the office of secretary of state is filled. No member of the board shall have any interest in any voting machine. Any person or corporation owning or being interested in any voting machine may apply to said board to examine such machine and report on its accuracy, efficiency, capacity and safety. The commissioners shall examine the machine and make full report thereon in the office of the secretary of state. They shall state in the report whether or not the kind of machine so examined complies with the requirements of this act and can

be safely used by voters at elections under the conditions prescribed in this act. If the report be in the affirmative upon said questions the machine shall be deemed approved by the board and machines of its kind may be adopted for use at elections as herein provided. When the machine has been so approved any improvement or change that does not impair its accuracy, capacity or safety shall not render necessary a re-examination or reapproval thereof. Any form of voting machine not so approved cannot be used at any election. Each of the two mechanical experts on the board shall be entitled to one hundred dollars (\$100) for his compensation and expenses in making such examination and report, to be paid by the person or corporation applying for such examination, which sum may be demanded in advance of making the examination and which shall be the sole compensation to be received by any such expert. The board may, if it consents to do so, go to any point in the state for the purpose of examining a machine, but it shall not be compelled to make such examination at any place other than the capital of the state. Provided, that each of the two commissioners appointed as mechanical experts shall not receive and retain to exceed fifteen hundred dollars (\$1,500) and reasonable expenses in any one year and all sums collected for such examinations over and above said maximum salaries and reasonable expenses shall be turned into the state treasury.

Sec. 4. The authorities of any city, village, incorporated town, county, precinct, election district or other civil division authorized by section 1 of this act to adopt a voting machine or voting machines may provide for the experimental use at any election or elections in one or more election precincts of a machine which it might lawfully adopt without a formal adoption thereof, and its use at such elections shall be as valid for all purposes as if it had been lawfully adopted.

Sec. 5. The local authorities on the adoption and lease or purchase of a voting machine or voting machines may provide for the payment therefor in such manner as may be deemed for the best interest of the city, village, incorporated town or county. They may for that purpose make leases, issue bonds, certificates of indebtedness or other obligations which shall be a charge on the city, village, incorporated town or county. Such bonds, certificates or other obligations may be issued with or without interest, payable at such time or times as the authorities may determine, but shall not be issued or sold at less than par.

Sec. 6. For any election in any city, village, incorporated town, county, election district or other civil division in which voting machines are to be used the election precincts in which such machines are to be used may be created by the officers charged with the duty of creating election precincts so as to contain as near as may be 600 voters each. Such redistricting or redivision shall be made under such regulations as to time and manner as are now provided by law. Thereafter, so long as voting machines are used, no redivision of such election precincts shall be made until at some general election the number of votes cast in one or more of such precincts shall exceed 700.

Sec. 7. The local authorities adopting a voting machine or voting machines shall as soon as practicable thereafter provide for each polling place a voting machine in complete working order and shall thereafter pre-

serve and keep it in repair and shall have the custody thereof and of the furniture and equipment of the polling place when not in use at an election. If it shall be impracticable to supply each election precinct with a voting machine at the election following such adoption, as many may be supplied as it is practicable to procure, and the same may be used in such election precinct or precincts within the city, village, incorporated town, county, election district or other civil division as the officers adopting the same may direct.

Sec. 8. The room in which the election is held shall have a railing separating the part of the room occupied by the judges and clerks of election from that part of the room occupied by the voting machine. The exterior of the voting machine and every part of the polling place shall be in plain view of the election officers. The voting machine shall be placed at least three feet from every wall and partition of the polling place and at least four feet from any election officer or table used by them, and it shall be so placed that no person on the opposite side of the railing can see or determine from the outside of the room how the voter casts his vote. After the opening of the polls the election judges shall allow no person to pass within the railing to the part of the room where the machine is situated, except for the purpose of voting, except as is provided in the next succeeding section of this act, and they shall not permit more than one voter at a time to be in such part of the room. They shall not themselves remain or permit any other person to remain in any position or near any position that would permit one to see or ascertain how a voter votes or how he has voted. No voter shall remain within the voting booth or compartment longer than one minute, and if any voter shall refuse to leave after the lapse of that time he shall at once be removed by the election officers or upon their order.

Sec. 9. Any voter who may declare upon oath that he cannot read the English language or that by reason of physical disability he is unable to use the voting machine shall upon request be assisted by two of the election officers of different parties to be selected from the judges and clerks of the precinct in which they are to act to be designated by the judges of election at the opening of the polls. Such officers in the voter's presence and in the presence of each other shall register his vote upon the machine for the candidates of his choice and shall thereafter give no information regarding the same. The clerks of election shall enter upon the poll list after the name of any elector who received such assistance in registering his vote a memorandum of the fact. Intoxication shall not be regarded as a physical disability and no intoxicated person shall be entitled to assistance in registering his vote.

Sec. 10. In case any elector after entering the voting-machine booth shall ask for further instructions concerning the manner of voting two judges of opposite political parties shall give such instructions to him, but no judge or other election officer or person assisting an elector shall in any manner request, suggest or seek to persuade or induce any such elector to vote any particular ticket or for any particular candidate or for or against any particular amendment, question or proposition. After receiving such instructions such elector shall vote as in the case of an unassisted voter.

Sec. 11. That portion of cardboard, paper

or other material placed on the front of the machine and containing the names of the candidates or a statement of the proposed constitutional amendment or other question or proposition to be voted on shall be known in this act as a ballot label. The ballot label shall be supplied by the official or officials charged by law with providing material for the holding of an election or elections and shall be printed in black ink on clear white material of such size as will fit the machine and in plain, clear type as large as the space will reasonably permit. The party name or other designation shall be prefixed to the list of candidates of such party. The order of the lists of candidates of the several parties shall be arranged as is now provided by law, except that the lists may be placed in horizontal rows or vertical columns, which parties may if desired be divided into parallel and contiguous rows or columns, and except that where presidential electors are to be voted for at any election and the machine to be used will not carry the names of all candidates for such electors then there may be placed on the ballot label the words "Presidential Electors" under the name of each political party.

Sec. 12. The officers or board charged with the duty of providing ballots and ballot labels for any polling place shall provide therefor two sample ballot labels which shall be arranged in the form of a diagram showing the entire front of the voting machine as it will appear after the official ballot labels are arranged for voting on election day. Such sample ballot labels shall be displayed for public inspection at such polling place during the day preceding election day.

Sec. 13. Four sets of ballot labels for use in the voting machine shall be provided for each polling place for each election by the officer or officers now charged by law with the duty of furnishing such election precincts with ballots. In such manner shall be furnished also all other necessary material for the use of the voting machines. The same officer or officers shall before the day of election cause the proper ballot labels to be put upon each machine corresponding with the sample ballot labels herein provided for and the machine in every way to be put in order, set and adjusted ready for use in voting when delivered at the precinct, and for the purpose of so labeling the machine, putting in order, setting and adjusting the same they may employ one or more competent persons and cause him or them to be paid in the same manner as other election officers are paid. And the same officer or officers shall cause the machine so labeled in order, set and adjusted to be delivered at the voting precinct, together with all necessary furniture and appliances that go with the same, in the room where the election is to be held in the precinct not later than 6 o'clock p. m. of the day preceding the election. After the delivery of the machine and on the same day the judges and clerks of election of the precinct may meet at said room, open the package containing the sample ballots and if necessary the ballot labels and see that the machine is correctly labeled, set and adjusted ready for use in voting, and if the same is not so labeled, set and adjusted and in order they shall cause it to be done. On the morning of the election the election officers shall meet in the said room at least one hour before the time for the opening of the polls. They shall see that the sample ballot labels and instruction cards are posted properly and everything put

in readiness for the voting at the hour of opening the polls. The officers shall compare ballot labels on the machine with the sample ballots, see that they are correct, examine and see that all the counters in the machine are set at naught or zero (0) and that the machine is otherwise in perfect order and they shall not thereafter permit the counters to be operated or moved except by electors in voting and they shall also see that all necessary arrangements and adjustments are made for voting irregular ballots on the machine.

Sec. 14. Ballots voted for any person whose name does not appear on the ballot label on the machine as a candidate for office are herein referred to as irregular ballots. In voting for presidential electors a voter may vote an irregular ticket made up of the names of persons in nomination by different parties or partially of the names of persons so in nomination and partially of persons not in nomination by any party. Such irregular ballot shall be deposited, written or affixed in or upon the receptacle or device provided on the machine for that purpose.

Sec. 15. As soon as the polls are closed the voting machine shall be locked against voting and the counting compartment opened in the presence of all the judges and clerks of election and all persons who may be lawfully within the room, giving full view of the numbers announcing the votes cast for each candidate and for and against the various constitutional amendments, questions or other propositions.

Sec. 16. The election officers shall then ascertain the number of votes which the candidates have received both on the machine and by the voting of irregular ballots, if any, and one of the judges shall publicly announce in a distinct voice the total vote for each candidate thus ascertained in the order of the offices as their titles are arranged on the ballot label. He shall then announce in the same manner the vote on each constitutional amendment, proposition or other question. Before leaving the room and before closing and locking the counting compartment the election officers shall make and sign written statements or returns of such election, as now required by law. When irregular ballots have been voted they shall be returned, preserved and finally destroyed as is now provided by law in the case of other election ballots. The written statements or returns so made, after having been properly signed, shall be distinctly and clearly read in the hearing of all persons present and ample opportunity shall be given to compare the results so certified with the counter dials of the machine. After such comparison and correction, if any is made, the election officers shall then close the counting compartment and lock the same. Thereafter the machine shall remain locked for a period of at least thirty days unless otherwise ordered by a court of competent jurisdiction.

Sec. 17. When the machine is locked at the close of an election in the manner required by this act the judges shall place all keys of the machine on a single piece of flexible wire, unite the ends of such wire in a firm knot, label the same with the make and number of the machine and the precinct at which it was used at such election and return such keys along with the written statements or returns of such election.

Sec. 18. A voting machine which possesses all the qualities required by this act may be supplied in addition with any recording de-

vice on which all the votes registered on the mechanical counters will be separately recorded. When a machine is supplied with such device the same shall not be taken out or examined by the election officers who make the return from the precinct, but such machine shall be locked with such device therein and so remain for a period of at least thirty days unless within that time the machine shall be ordered opened by some court of competent jurisdiction. At the end of thirty days such device may be taken out unless otherwise ordered by a court of competent jurisdiction.

Sec. 19. Any person not an election officer or other public officer who shall tamper or attempt to tamper with such voting machine or voting machines or in any way intentionally impair or attempt to impair its use, and any such person who shall be guilty of or shall attempt any dishonest practice upon any such machine or with or by its use, shall be deemed guilty of a felony and shall be punishable by a fine of from \$100 to \$1,000 or by imprisonment for a term of from one to five years or by both fine and imprisonment.

Sec. 20. Any clerk or judge of an election or any other public officer authorized to take part in the holding of an election or in preparing for an election who with intent to cause or permit any voting machine to fail to register correctly all votes cast thereon; who tampers with or disarranges such machine in any way or any part or appliance thereof or who causes or consents to said machine being used for voting at any election with knowledge of the fact that the same is not in order or not perfectly set and adjusted so that it will correctly register all votes cast thereon, or who with the purpose of defrauding or deceiving any voter or of causing it to be doubtful for what ticket or candidate or candidates or proposition any vote is cast or of causing it to appear on said machine that votes cast for one ticket, candidate or proposition were cast for another ticket, candidate or proposition, removes, changes or mutilates any ballot label on said machine or any part thereof or does any other thing intended to interfere with the validity of the election shall be deemed guilty of a felony and upon conviction shall be imprisoned in the state prison not less than one year nor more than ten years, to which may be added a fine not exceeding \$1,000.

Sec. 21. Any public officer or any election officer upon whom any duty is imposed by this act and who shall willfully omit or neglect to perform such duty or who shall do any act prohibited herein for which punishment is not otherwise provided herein shall upon conviction be imprisoned in the state prison for not less than one year nor more than ten years or be fined in any sum not exceeding \$1,000 or may be punished by both such imprisonment and fine.

Sec. 22. All the provisions of the election law not inconsistent with this act shall apply to all the elections in the precincts where such voting machines are used. Any provisions of law which conflict with the use of such voting machine or machines as herein set forth shall not apply to the precinct or precincts in which an election is conducted by the use of such machine or machines. (Approved May 14, 1903.)

NEW CHARTER FOR CHICAGO.

The movement for securing a new charter

for Chicago was begun at a convention held in the city council chamber Oct. 23, 1902. It was composed of delegates representing the Civic federation, city council, Chicago Bar association, board of trade, Union League club and other organizations. Committees were appointed and at a meeting held Dec. 15 a draft of an amendment to the state constitution providing for various changes in the government of Chicago was adopted. This was brought before the legislature in the form of a joint resolution which after amendment was passed by the house and senate April 22, 1903. The resolution follows:

Resolved, by the house of representatives of the state of Illinois, the senate concurring therein, That there shall be submitted to the electors of this state for adoption or rejection at the next election of members of the general assembly a proposition to amend the constitution of this state as follows:

Resolved, That article 4 of the constitution of this state be amended by adding thereto a section to be numbered and known as section 34 and reading as follows, to wit:

Section 34. The general assembly shall have power, subject to the conditions and limitations hereinafter contained, to pass any law (local, special or general) providing a scheme or charter of local municipal government for the territory now or hereafter embraced within the limits of the city of Chicago. The law or laws so passed may provide for consolidating (in whole or in part) in the municipal government of the city of Chicago the powers now vested in the city, board of education, township, park and other local governments and authorities having jurisdiction confined to or within said territory or any part thereof and for the assumption by the city of Chicago of the debts and liabilities (in whole or in part) of the governments or corporate authorities whose functions within its territory shall be vested in said city of Chicago, and may authorize said city in the event of its becoming liable for the indebtedness of two or more of the existing municipal corporations lying wholly within said city of Chicago to become indebted to an amount (including its existing indebtedness and the indebtedness of all municipal corporations lying wholly within the limits of said city and said city's proportionate share of the indebtedness of said county and sanitary district, which share shall be determined in such manner as the general assembly shall prescribe), in the aggregate not exceeding 5 per centum of the full value of all property within its limits as ascertained by the last assessment either for state or municipal purposes previous to the incurring of such indebtedness; but no new bonded indebtedness other than for funding purposes shall be incurred until the proposition therefor shall be consented to by a majority of the legal voters of said city voting on the question at any election, general, municipal or special; and it may provide for the assessment of property and the levy and collection of taxes within said city for corporate purposes in accordance with the principles of equality and uniformity prescribed by this constitution; and may abolish all offices the function of which shall be otherwise provided for; and may provide for the annexation of territory to or disconnection of territory from said city of Chicago by the consent of a majority of the legal voters (voting on the question at any election, general, municipal or special) of the said city and of a majority of the voters of such territory

voting on the question at any election, general, municipal or special; and in case the general assembly shall create municipal courts in the city of Chicago it may abolish the offices of justices of the peace, police magistrates and constables in and for that territory within said city, and may limit the jurisdiction of justices of the peace in the territory of said county of Cook outside of said city to that territory, and in such case the jurisdiction and practice of said municipal courts shall be such as the general assembly shall prescribe; and the general assembly may pass all laws which it may deem requisite to effectually provide a complete system of local municipal government in and for the city of Chicago.

No law based upon this amendment to the constitution affecting the municipal government of the city of Chicago shall take effect until such law shall be consented to by a majority of the legal voters of said city voting on the question at any election, general, municipal or special; and no local or special law based upon this amendment affecting specially any part of the city of Chicago shall take effect until consented to by a majority of the legal voters of such part of said city voting on the question at any election, municipal or special. Nothing in this section contained shall be construed to repeal, amend or affect section 4 of article 11 of the constitution of this state.

SANITARY DISTRICT EXTENSION.

The corporate limits of the sanitary district of Chicago are extended so as to include the Evanston district as far as Lake county on the north and the Calumet district as far as township 36 on the south. The trustees are empowered to provide for the drainage of the annexed territory into the main sanitary channel in such manner as shall best accomplish the end sought. They have the right to use the Calumet feeder of the Illinois and Michigan canal and they may also construct a channel across the canal named. Gates for shutting off the flow of water into the Calumet channel must be constructed at or near its junction with the Calumet river. Before the channel across the Illinois and Michigan canal is built the main drainage channel must be connected with the upper basin of the Illinois and Michigan canal at Joliet so as to permit navigation without interruption.

The sanitary district has no power to levy and collect any special assessment or tax upon the added territory for any work heretofore done by the district or for any main channel to be hereafter constructed in the territory annexed. It is authorized, however, to levy and collect in each year, for a period of three years, a tax of not exceeding one-fourth of 1 per cent of the value of the taxable property within the corporate limits of the district, as the same shall be assessed and equalized for the state and county taxes of the year in which the levy is made. This is in addition to the taxes already authorized.

The sanitary district is authorized to construct all such dams, water wheels and other works north of the upper basin of the Illinois and Michigan canal as may be necessary to develop and render available the water power of the main or auxiliary drainage channels. Such power may be used to transmit electrical energy to various cities, villages or towns for lighting and other purposes or it may be disposed of to any other person or corporation upon such terms or

conditions as may be agreed to by the trustees.

This act will not become effective unless it is approved by a majority of the legal voters of the enlarged sanitary district voting at the general election to be held Nov. 3, 1903. (Approved by governor May 14.)

CRERAR LIBRARY IN GRANT PARK.

The law entitled "An act concerning free public libraries in public parks" authorizes the corporate authorities of cities and park districts or any board of park commissioners having the control of any park or parks to permit any free public library to erect and maintain at its own expense its library building within such park. If any owner or owners of lands or lots abutting or fronting on any such park or adjacent thereto or any other person or persons have any right, easement, interest or property in such public park which would be interfered with by the erection and maintenance of any free public library building or any right to have such public park remain open and free from any buildings, the corporate authorities or the board of park commissioners may condemn the same under the act providing for the exercise of the right of eminent domain. Upon the written request of the directors or trustees of a free public library for permission to erect a building for it in a park the question shall be submitted to the voters of the city or park district at the next municipal election, and if a majority of those voting shall favor the request permission shall be granted. (Approved May 14.)

(The law, it is thought, will enable the trustees of the Crerar library to put up a building on the lake front in Grant park in spite of the opposition of certain property owners on Michigan avenue.)

FIELD MUSEUM IN GRANT PARK.

The act of June 17, 1893, concerning museums in public parks was so amended as to authorize the corporate authorities of cities and park districts to purchase, erect and maintain within any public park under their control edifices to be used as museums for the collection and display of objects of natural history or the arts and sciences or to permit the directors or trustees of any such museum to erect and maintain it within any park. Fees of 25 cents for grown persons and 10 cents for children under 10 may be charged, but the museum must be open three days in each week free of charge. Entrance for school children must be free at all times. The private right, easement, interest or property of the owner or owners of any land or lots adjacent to or fronting on such park may be condemned under the law of eminent domain. The park authorities are permitted to levy a museum maintenance tax of $\frac{1}{2}$ mill if the proposition is approved by a majority vote at an election in the district. (Approved May 14.)

(The act was passed to permit the location of the Field museum in Grant park on the lake front notwithstanding the opposition of Michigan avenue property owners.)

LAND FOR CONNECTING BOULEVARD.

The act of June 15, 1895, enabling park commissioners having control of any park bordering upon the public waters of this state to enlarge the same from time to time and granting submerged lands for such enlargement was amended so as to permit the commissioners to acquire such riparian rights

and lands as they may deem necessary by purchase or condemnation proceedings. It was also provided that in all cases where the commissioners shall have acquired the riparian rights of the owners of any land along the shore adjoining such submerged land the owners may file a petition or bill in chancery in the Circuit court asking that the boundary line between their lands and the lands acquired by the park commissioners under this act may be defined and established by a decree of the court. The proceedings are to be the same as in other suits in chancery and the court shall have the power to establish a permanent dividing or boundary line not to be changed thereafter either by accretions or erosions. (Act approved May 14.)

(The act contemplates and makes legally possible the connection of the north and south side park systems of Chicago by a boulevard on the lake front.)

ADDITIONAL LANDS FOR PARKS.

The act of April 21, 1899, enabling commissioners to enlarge the park systems under their control was amended so as to permit of the acquisition by gift, purchase, condemnation or otherwise of such tracts of land as may be required. If the park commissioners cannot agree with the owners of the land as to its value they may have it condemned under the law of eminent domain. They are also given the power to close any highway, street or alley which may pass through the land so acquired, provided they have the consent of the municipal authorities in control. For the purpose of buying and improving the additional park lands the commissioners are empowered to issue and sell interest-bearing bonds and to levy and collect taxes for the payment of the same, provided that the question of issuing such bonds is submitted to the voters of the park district and is approved by a majority of those voting upon the proposition. (Act approved and in force April 29, 1903.)

(At the judicial election in Cook county June 1, 1903, the issue of \$3,000,000 bonds by the south park commissioners was approved by a majority vote.)

The act of April 21, 1899, was further amended (act approved May 14, 1903) so as to authorize the park commissioners to levy an annual tax of 2 mills on the dollar for park improvement and maintenance.

EXTENSION OF LINCOLN PARK.

The act provides that upon the request of the commissioners of a public park fronting on a lake and lying within two towns the proper town authorities shall issue bonds not to exceed \$1,000,000 in addition to the amount previously authorized. The bonds shall be in the name of the town and shall bear interest not to exceed 5 per cent per annum. The proceeds from the sale of the bonds shall be used exclusively for the extension of the park in question. A referendum clause is added requiring the submission of the question to the voters of the town in which the bonds are to be issued and in which the park is to be extended. (Act approved and in force May 14, 1903.)

(This act is applicable to Lincoln park and permits the addition of an area of about 215 acres by filling in the lake front from Fullerton avenue to Cornelia avenue in the town of Lake View. The bond question was sub-

mitted to the voters of the town at the judicial election June 1, 1903, and was approved.)

FUNDS FOR SMALL PARKS IN CHICAGO.

The act of May 10, 1901, enabling corporate authorities to raise funds for additional small parks was amended so as to permit any board of park commissioners to issue and sell in addition to bonds previously authorized interest-bearing bonds to an amount not exceeding \$1,000,000 and to levy and collect a direct tax upon the property within its jurisdiction for the payment of the interest and principal of the bonds when they fall due. The commissioners were also authorized to levy and collect an additional tax of not to exceed $\frac{1}{2}$ mill. The proceeds of the bonds shall be used exclusively for the purchase and improvement of land for small parks or pleasure grounds and the proceeds of the annual tax of $\frac{1}{2}$ mill shall be used exclusively for the maintenance of parks or pleasure grounds having an area of not to exceed ten acres each and also for the purchase of land which may from time to time be selected for additional small parks. (Approved May 14.)

CHILD-LABOR LAW.

The act forbids the employment of any child under the age of 14 years in any theater, concert hall or any place of amusement where intoxicating liquors are sold or in any mercantile institution, store, office, hotel, laundry, manufacturing establishment, bowling alley, passenger or freight elevator, factory or workshop or as a messenger or driver therefor within the state. No child under 14 shall be employed at any work for wages while the public schools are in session, nor at work between the hours of 6 in the evening and 7 in the morning. No child shall be allowed to work more than eight hours in any one day. Persons or corporations employing minors over 14 and under 16 years of age in places of the kind mentioned must keep a register giving the name, age and residence of every such minor and must file an age and school certificate for every child employed. If five or more such minors are employed a list giving the name, age and residence of each must be posted in a conspicuous place on the premises. No child under 16 and over 14 years of age who cannot produce an age and school certificate shall be employed. Certificates must be approved by school superintendents or by a person authorized by the school board. Duplicates of such certificates must be sent to the state factory inspector's office.

No person shall employ any minor over 14 and under 16 years of age who cannot read at sight and write legibly simple sentences while a public evening school is maintained in the town or city in which such minor is living unless such minor is a regular attendant at such evening school. Where there is no public or parochial evening school an age and school certificate shall not be approved for any child who cannot read at sight and write legibly simple sentences.

Among the employments forbidden children under 16 years of age are sewing belts, oiling or cleaning machinery, operating band saws, wood shapers, wood jointers, planers, sandpaper or wood-polishing machinery, emery or polishing wheels, wood-turning or boring machinery, stamping machines in sheet-metal and tinware manufacturing or in washer and nut factories or operating cor-

rugating rolls, passenger or freight elevators, steam generating apparatus, cracker machinery, wire or iron straightening machinery, rolling-mill machinery, punches or shears and laundry machinery. Children shall not be employed in any capacity in preparing any composition in which dangerous or poisonous acids are used or in the manufacture of paints, colors or white lead; nor shall they be employed in any capacity whatever in the manufacture of goods for immoral purposes or in any other work which may be considered dangerous to their lives or limbs or injurious to their health or morals; nor shall girls under 16 years of age be employed at any kind of work compelling them to stand constantly.

The penalty for each violation of the law is a fine of not less than \$5 nor more than \$25. The enforcement of the law is placed in the hands of the state factory inspector. (Approved May 15.)

COMPENSATION FOR DEATH.

The act of Feb. 12, 1853, requiring compensation for causing death by wrongful act, neglect or default is so amended as to increase the amount authorized to be recovered from \$5,000 to \$10,000. Action must be brought within one year after the death for which damages are sought. (Approved May 13.)

EXTENSION OF TORRENS LAND TITLE SYSTEM.

This is an amendment to the Torrens law of 1897. It requires all executors and administrators, appointed after the adoption of the amendment, and trustees holding title or power of sale under wills admitted to probate after that date to apply within six months after their appointment to have registered the titles to all nonregistered estates and interests in land situated in any county in which the act is in force at the time which the several decedents they represent might have registered in their lifetime in their own right. In cases where registration may appear to be a hardship the court of probate jurisdiction may excuse such registration.

Before the amendatory act goes into effect it must be approved by a majority vote at a judicial election or at the election on the first Tuesday after the first Monday in November. In Cook county the petition asking for the submission of the question to the voters must be signed by 2,500 legal electors; in other counties the signatures of half of the voters are required. (Approved May 18.)

SALE OF COCAINE REGULATED.

Two new sections were added to the pharmacy law of 1901 and section 16 was amended. It is made unlawful for any druggist or other person to retail, sell or give away any cocaine, cocaine compound or article containing cocaine, except upon the written prescription of a licensed physician or druggist. Selling at wholesale to retailers is permitted. The selling of cocaine to or the prescribing of the drug for any person addicted to the habitual use of cocaine is punishable by a fine of not less than \$50 nor more than \$200 for the first offense and for each subsequent offense of not less than \$200 nor more than \$1,000. If the person so offending shall have a license as a physician, dentist or pharmacist such license shall be revoked. (Approved May 13.)

OTHER LEGISLATION.

Justices of Peace in Chicago—The number for each town is fixed at: West Chicago, 10; South Chicago, 10; North Chicago, 5; Lake View, 5; Jefferson, 5; Hyde Park, 7; Calumet, 3; Norwood Park, 1.

Lunacy Inquests—It is required that inquests in lunacy shall be by two licensed physicians in active practice and that the inquiries may be in open court, in chambers or at the home of the patient, at the discretion of the court. Spectators may be excluded.

Certified Public Accountants—The University of Illinois is empowered to issue certificates to persons who shall have passed an examination permitting them to practice as public expert accountants. They must be 21 years of age or more, of good moral character and have a high-school or equivalent education. The examination fee is \$25. No one without a certificate may style himself a "certified public accountant."

Licenses for Elevator Operators—City councils are empowered to pass ordinances providing for the examination and licensing of starters and operators of passenger and freight elevators.

Changes in Supreme Court Districts—The 4th Supreme court district is made to consist of these counties: Rock Island, Mercer, Warren, Henderson, Fulton, McDonough, Hancock, Adams, Schuyler, Brown, Mason, Menard, Morgan and Cass. Rock Island county is taken from the 6th district and the counties of Mercer, Warren and Henderson from the 5th. Pike and Scott are taken from the 4th and added to the 2d district.

No Additional Judges—The act of May 10, 1901, providing for additional judges of the Circuit and Superior courts of Cook county was repealed.

Desertion of Wife and Children—Any person who shall abandon his wife or minor children under the age of 12 years may be fined from \$100 to \$500 or imprisoned from one to twelve months or may be both fined and imprisoned.

Willard Statue—The sum of \$9,000 was appropriated for a life-sized marble or bronze statue of the late Frances E. Willard to be placed in the national statuary hall of the capitol at Washington.

Vicksburg Monuments—The sum of \$150,000 was appropriated for the erection of a state monument, markers and memorials in the national military park at Vicksburg, Miss.

Altgeld Relief—The sum of \$5,000 was appropriated for the relief of Mrs. John P. Altgeld, widow of the former governor.

Famine Relief—The sum of \$5,000 was appropriated for the famine sufferers of northern Sweden and Finland.

St. Charles Home for Boys—The sum of \$350,000 was appropriated for the St. Charles Home for Boys in Kane county. Of the total \$300,000 is to be expended for buildings and equipment and the remainder for expenses to June 30, 1905.

Bickerdyke Memorial—The sum of \$5,000 was appropriated for a memorial to Mary A. Bickerdyke, an Illinois nurse in the civil war familiarly known as "Mother Bickerdyke." The money is to be expended by the "Mother Bickerdyke Memorial association" of Illinois.

GENERAL ELECTIONS IN 1904.

National—Electors to choose a president and vice-president of the United States will be voted for in all the states Tuesday, Nov. 8. Each state is entitled to as many electors as it has senators and representatives in congress and under the new apportionment the winning candidates must have 239 of a total of 476 electoral votes. (See index, "Electoral College.")

Congressmen will be elected on the same day (Nov. 8) in all the states and delegates in the territories.

State—Besides choosing presidential electors and congressmen, most of the states

will elect governors and other officials. Louisiana will have a state election in April, Oregon in June, Arkansas, Maine and Vermont in September and Georgia in October. In the other states the election takes place Nov. 8.

In Illinois the state officials to be voted for Nov. 8 are governor, lieutenant-governor, secretary of state, treasurer, attorney-general, auditor, senators in even-numbered districts, representatives in all districts, members of the state board of equalization and three trustees of the University of Illinois.

CHICAGO WATERWORKS SYSTEM.

The following table shows the growth of Chicago's waterworks system by decades since 1854, when the first large pumping

station at Chicago avenue and the lake was built. [From compilations made by Assistant City Engineer J. H. Spengler.]

YR.	Pop. (school census)	Gallons pumped per day.	Gals. per cap.	Water pipe mil'ge.	Total revenue.	YR.	Pop. (school census)	Gallons pumped per day.	Gals. per cap.	Water pipe mil'ge.	Total revenue.

In 1902 the total amount of water pumped was 130,892,288,020 gallons and the total revenue was \$3,225,661.18. For the first six months of 1903 the amount pumped was 67,774,834,612 gallons and the revenue \$1,801,864.75.

The pumping stations, with the year of construction and capacity per day in gallons, are:

Chicago avenue (1852).....	99,000,000
West station (1875).....	60,000,000
Harrison street (1889).....	36,000,000

Central Park (1900).....	60,000,000
Springfield avenue (1901).....	60,000,000

Total capacity.....529,500,000

The lake and land tunnels supplying the city with water have a total length of a little over thirty-eight miles.

POPULATION OF CHICAGO.

POPULATION OF CHICAGO BY WARDS.

[United States census of 1900.]

NOTE—The figures in this and other tables, unless otherwise specified, are for the wards as they were constituted in 1900, when the federal census was taken. The boundaries were changed in 1901.

									Total, 1,638,575

Of Chicago's population in 1900, 863,408 were males and 835,167 females; 30,150 were negroes, 1,209 Chinese, 68 Japanese and 8 Indians; 511,038 were males 21 years of age and over.

CITY'S DIRECTORY ESTIMATE.

The Chicago city directory for 1903, issued in July, contains 654,000 names or 28,500 more than in 1902. Based on the federal census of 1900, this would, according to the estimate of the publishers, give the city a population of 1,902,000. Taking the census of 1890 as a basis, they compute that the city had 2,231,000 inhabitants in July, 1903; and this, they claim, is the correct figure, as in their opinion the last federal census was grossly inaccurate. The health department used a midyear estimate of 1,885,000 as its basis for computing the city's death rate in 1903.

INHERITANCE TAX IN ILLINOIS.

The Illinois law taxing gifts, legacies and inheritances was passed by the legislature in 1895 and amended in 1901. Its constitutionality was contested, but the United States Supreme court in a decision rendered Jan 19, 1903, held it to be valid.

Under the provisions of this law all property, real, personal and mixed, which shall pass by will or by the intestate laws of the state from any resident of the state or any one whose property is in this state to any person or persons is subject to a tax at the following rates: When the beneficial interests to any property or income therefrom shall pass to any father, mother, husband, wife, child, brother, sister, wife or widow of the son or the husband of the daughter, or any adopted child or children, or to any lineal descendant born in lawful wedlock, the rate of tax shall be \$1 on every \$100 of the clear market value of such property received by each person and at the same rate

for any less amount, provided that any estate which may be valued at less than \$20,000 shall not be subject to any such tax; and the tax is to be levied in the above cases only upon the excess of \$20,000 received by each person.

When the property passes to any uncle, aunt, niece, nephew or any lineal descendant of the same the rate shall be \$2 on every \$100 in excess of \$2,000.

In all other cases the rate shall be as follows: On each and every \$100 of the clear market value of all property and at the same rate for any less amount; on all estates of \$10,000 and less, \$3; on all estates of over \$10,000 and not exceeding \$20,000, \$4; on all estates over \$20,000 and not exceeding \$50,000, \$5, and on all estates over \$50,000, \$6; provided, that an estate in the above case which may be valued at a less sum than \$500 shall not be subject to any tax.

The objects of the association are to promote the beautifying of the streets, public buildings and places of Chicago; to bring to the attention of the officials and people of the city the best methods for instituting artistic municipal improvements and to stimulate civic pride in the care and improvement of private property. The membership of the board of directors of the league includes the mayor of the city or the commissioner of public works, three park commissioners, three sculptors, three architects and three painters. The league is merely advisory and is not invested with any authority from the city.

FRAUDS IN POSTOFFICE DEPARTMENT.

As the result of an investigation begun by Postmaster-General Payne and Congressman Loud in December, 1902, the following post-office officials were indicted or dismissed in 1903, the charges in most cases being bribery or conspiracy to defraud the government:

James N. Tyner, assistant attorney-general for postoffice department; appointed special agent, postoffice department; March 7, 1861; with intervals of a few years has been in the service ever since, and was postmaster-general under President Grant for several months; removed April 22, 1903; indicted three times.

A. W. Machen, general superintendent free delivery system; appointed clerk in post-office at Toledo, Ohio, March 1, 1887; continuously in service ever since save for three years; removed May 27, 1903; indicted four times.

George W. Beavers, general superintendent of salaries and allowances; appointed to clerkship in New York postoffice January, 1881; continuous service ever since; resignation accepted to take effect March 31, 1903; indicted eight times.

James T. Metcalf, superintendent money-order system; appointed postoffice inspector Feb. 2, 1882; has been in postal service ever since; removed June 17, 1903; indicted once.

Daniel V. Miller, assistant attorney, post-office department; appointed July 1, 1902; removed May 25, 1903; indicted once; after one mistrial was retried and acquitted.

Louis Kempner, superintendent registry system; appointed clerk in New York post-office August, 1886; removed Oct. 21, 1903.

Charles Hedges, superintendent of city free delivery service; appointed assistant superintendent free delivery service July 1, 1898; removed July 22, 1903.

James W. Erwin, assistant superintendent free delivery service; appointed postoffice inspector June 27, 1887; removed Sept. 16, 1903; indicted once.

W. Scott Towers, superintendent Station C, Washington, D. C.; appointed clerk, Washington postoffice, Nov. 1, 1890; removed Oct. 1, 1903; indicted times.

Otto F. Weis, assistant superintendent registry division, New York postoffice; appointed clerk, New York postoffice, June, 1890; removed Oct. 21, 1903.

T. W. McGregor, clerk free delivery division, in charge of supplies; appointed post-office department March 11, 1891; removed June 5, 1903; indicted twice.

C. E. Upton, clerk free delivery division; appointed July 1, 1900; removed June 5, 1903; indicted once.

M. W. Louis, superintendent supply division; appointed Kansas City postoffice April 17, 1897; removed Oct. 21, 1903.

Charles B. Terry, clerk supply division; appointed Sept. 20, 1900; removed Oct. 21, 1903.

A number of others outside the department were also indicted for complicity in the frauds. These were nearly all in connection with the purchase of supplies for the post-offices of the country, such as canceling machines, money-order blanks, mail bags, typewriters, badges, etc. Other charges concerned the use of the mails by "get-rich-quick" and other fraudulent companies.

THE CHICAGO DAILY NEWS.

CHICAGO, Dec. 3, 1903.

Messrs. E. W. Blatchford Co.,

Fulton and Clinton Streets, City.

Gentlemen: In response to your request we are glad to say that we have used your stereotype metal continuously for several years past and your linotype metal almost continuously since we have used the linotype machines. We would add that both of these metals are giving us entire satisfaction. Very truly yours, VICTOR F. LAWSON.

The Best Printers Use the Best

TYPE

It is Superior Copper-Mixed Type
Cast on Barnhart's Lining System

Superior Copper-Mixed Type is, first and last, the hardest, toughest, most accurate, lightest, finest finished, most artistic, most durable type made. So say our customers; so said the award committee at the Chicago World's Fair.

The Barnhart Lining System—the system that's Point-Line, Point-Set, Point-Body—the system that cuts out kerned descenders the press will break—the system with perfectly graded sizes—the system allowing the largest use of two-point leads in justifying different sizes together. Ask us about this.

Superior Copper-Mixed Type gives you the greatest value for your money. It costs no more than other type; but it's worth lots more.

TAXATION IN CHICAGO.

List of the eleven boards making annual levies within the city limits:

1. **STATE TAX**—For state purposes. The governor, auditor and treasurer constitute the board which ascertains the rate per cent required to produce the amount of taxes levied by the general assembly. "The state school tax" is levied in the same manner. The rate for all state purposes varies from 50 to 60 cents on the \$100 assessed valuation.
2. **COUNTY TAX**—The county board levies the taxes for all county purposes, the aggregate of which is limited to 75 cents on the \$100.
3. **CITY TAX**—The city council, acting with the mayor, levies the taxes for all city purposes, which is limited to \$2 on the \$100.
4. **SCHOOL TAX**—The city council and the mayor make a separate levy for this purpose, which is limited to \$2.50 on the \$100.
5. **LIBRARY TAX**—The city council and the mayor make a separate levy for this purpose. The levy is 10 cents on the \$100.
6. **SANITARY DISTRICT**—The tax is levied by the board of trustees. The rate now is 50 cents on the \$100.
7. **SOUTH PARK SYSTEM**—The south park

commissioners levy for park purposes in the towns of South Chicago, Hyde Park and Lake.

8. **WEST PARK SYSTEM**—The West Chicago park commissioners levy for park purposes in the town of West Chicago. The rate for 1902 was \$1.15 on the \$100.
 9. **LINCOLN PARK**—The Lincoln park commissioners are not "corporate authorities," the Lincoln park act not having been adopted by popular vote. The levy for Lincoln park is made by the county treasurer, acting as ex-officio supervisor.
 10. **RIDGE PARK**—A small park district in Rogers Park, organized under the law providing for local park districts by popular vote. The board of five commissioners levies for the district, its last levy being \$1 on the \$100.
 11. **THE NORTH SHORE PARK DISTRICT**—Organized the same as Ridge Park. The last levy was 42 cents on the \$100.
- * By an act of the legislature approved May 11, 1901, and by the vote of the people at the spring election in 1902 the townships lying within the limits of Chicago were consolidated and the powers of the town boards transferred to the city council. This reduced the taxing boards in Chicago from eighteen to eleven as above.

LABOR TROUBLES IN 1903.

Disagreements between employees and employers were as numerous in 1903 as in preceding years, though none was as serious as that between the eastern coal roads and the anthracite coal miners in 1902. Among the strikes attracting the most attention were those of the building trades in New York, the textile workers in Philadelphia and vicinity, the miners in Colorado, Wyoming and other western states and the street-car men in Chicago.

Among the important strikes in Chicago in 1903 were the following:

Feb. 5—Elevator men and janitors for more pay and recognition of union.
 Feb. 10—Sheet metal workers employed by E. A. Rysdon & Co., because firm withdrew from Contractors' association.
 March 3—Gashouse workers for permission to organize.
 March 22—Carriage and wagon makers for increase in wages.
 March 23—Picture frame makers and molders for closed shop and increased wages.

March 29—Tanners and curriers for more pay.
 March 31—Sheet metal workers for higher wages.
 April 7—Marine firemen and engineers for more pay.
 April 27—Employees of Deering works for recognition of union.
 May 1—Laundry workers for higher wages and better conditions.
 May 4—Metal workers, machinists and electrical workers of the Kellogg Switchboard and Supply company against open shop.
 Strike marked by two weeks of rioting.
 May 8—Employees of Illinois Malleable Iron company for more pay.
 June 4—Restaurant waiters for higher wages and shorter hours.
 July 1—Wood workers for increase in pay.
 Sept. 8—Candy makers for nine-hour day.
 Oct. 4—Franklin Union No. 4 of printing press feeders (lockout).
 Nov. 12—City railway employees for higher wages and better hours.

TABLE OF CONTENTS

OF FIRST NINETEEN VOLUMES (1885 TO 1903 INCLUSIVE) OF THE CHICAGO DAILY NEWS ALMANAC AND YEAR BOOK.

NOTE—The figures following the year are the page numbers of that volume.

Back numbers of THE DAILY NEWS ALMANAC are available for every year since 1890 with the exception of the issue of 1897.

The first five issues—for the years 1885, 1886, 1887, 1888 and 1889—are bound in one volume, half morocco, library style. This volume is sold only to purchasers of complete sets of the almanac. A complete set embraces the library volume and a cloth-bound issue for each succeeding year. In figuring the price for a complete set, add \$1.50 for the library volume to the sum total for the issues of succeeding years at 50 cents each. Orders should be addressed to THE DAILY NEWS, 123 5th avenue, Chicago.

R. HOE & CO.'S

NEW COMBINATION SUPPLEMENT PRESS

This machine is designed to meet the demands of newspapers requiring a simple, efficient and moderate-priced Stereotype Perfecting Press for 4, 6, 8, 10 and 12 page papers. It gives a running speed per hour of

20,000 4 or 6 page papers.

10,000 8, 10 or 12 page papers,

with all the leaves inset, pasted if desired, and the papers delivered folded and counted. The 8, 10 and 12 page papers are produced from a single set of plates.

Similar machines are also made to print 16-page papers, as well as the other products mentioned above.
